

FIS Triumphs with Two WatersTechnology Asia Award Wins

May 27, 2025

Key facts:

- FIS has won in multiple categories at the 2025 WatersTechnology Asia Awards.
- FIS Climate Risk Financial Modeler won best Environmental, Social and Governance (ESG) Data Provider.
- FIS Post Trade Processing Platform won Best Reconciliation Platform.

JACKSONVILLE, Fla.--(BUSINESS WIRE)--May 27, 2025-- Global financial technology leader [FIS](#)® (NYSE: FIS) has been named as a winner in multiple categories at the 2025 WatersTechnology Asia Awards. FIS was named best ESG Data Provider for its [FIS Climate Risk Financial Modeler](#) and Best Reconciliation Platform for its [FIS Post Trade Processing Platform](#).

The [WatersTechnology Asia Awards](#) recognize excellence in the deployment and management of financial information and technology within Asia's capital markets community.

FIS Climate Risk Financial Modeler was named best ESG Data Provider for helping clients assess potential future cashflows impaired by physical climate change and aiding the creation of risk management strategies. FIS' powerful risk modeling and financial analytics help to unlock climate risk insights which can help model and mitigate risk exposure. The solution harmonizes client data with third-party climate data and is hosted on an interface that is directly tailored to the risk management needs of corporates and financial institutions—ultimately driving more proactive foresight into potential climate-related risks.

Meanwhile, FIS Post Trade Processing Platform won Best Reconciliation Platform for its exception management, interfaces to widely-used matching engines, and automatic reconciliation of a range of instruments (including equities, fixed income, exchange-traded and OTC derivatives and digital assets). The cloud-based SaaS platform helps to streamline workflows, combining middle-office, accounting, settlement, securities lending, corporate actions, collateral management, and treasury all on one powerful integrated platform, allowing businesses to supercharge their post-trade operations to make money work harder.

Nasser Khodri, Head of Capital Markets at FIS said: "Achieving recognition through these awards is a testament to our commitment to help our clients navigate the ever-changing landscape across global markets and unlock financial technology to the world. We're committed to creating end to end experiences for our clients in APAC through our solutions and helping to bring harmony to the money lifecycle across the globe."
