NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Annual Report on Form 10-K, including the sections entitled "Management's Discussion and Analysis of Financial Condition and Results of Operations" and "Risk Factors," contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. All statements other than statements of historical fact, including statements regarding our future results of operations and financial position, our business strategy and plans, our objectives for future operations, and any statements of a general economic or industry specific nature, are forward-looking statements. You can identify forward-looking statements by the fact that they do not relate strictly to historical or current facts. Words such as "anticipate," "estimate," "expect," "project," "plan," "intend," "believe," "may," "will," "continue," "could," "should," "can have," "likely," or the negative or plural of these words and similar expressions are intended to identify forward-looking statements. We have based these forward-looking statements largely on our current expectations and projections about future events and trends that we believe, based on information currently available to our management, may affect our financial condition, results of operations, business strategy, short-term and long-term business operations and objectives, and financial needs. These forward-looking statements are subject to a number of risks, uncertainties and assumptions, including those described in the "Risk Factors" section of this report. Moreover, we operate in a very competitive and rapidly changing environment. New risks emerge from time to time. It is not possible for our management to predict all risks, nor can we assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements we may make. In light of these risks, uncertainties and assumptions,

You should not rely upon forward-looking statements as predictions of future events. The events and circumstances reflected in the forward-looking statements may not be achieved or occur. Although we believe that the expectations and assumptions reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance, or achievements. We undertake no obligation to publicly update any forward-looking statement after the date of this report, whether as a result of new information, future developments or otherwise, or to conform these statements to actual results or revised expectations, except as may be required by law.

PART I

Item 1. Business

Vantiv, Inc., a Delaware corporation, is a holding company that conducts its operations through its majority-owned subsidiary, Vantiv Holding, LLC ("Vantiv Holding"). Vantiv, Inc., Vantiv Holding and their subsidiaries are referred to collectively as the "Company," "Vantiv," "we," "us" or "our," unless the context requires otherwise.

Business Description

Vantiv is a leading, integrated payment processor differentiated by a single, proprietary technology platform. According to the Nilson Report, we are the third largest merchant acquirer and the largest PIN debit acquirer by transaction volume in the United States. We efficiently provide a suite of comprehensive services to merchants and financial institutions of all sizes. Our technology platform offers our clients a single point of service that is easy to connect to and use in order to access a broad range of payment services and solutions. Our integrated business and single platform also enable us to innovate, develop and deploy new services and provide us with significant economies of scale. Our varied and broad distribution provides us with diverse client base and referral partner relationships. We believe this combination of attributes provides us with competitive advantages and has enabled us to generate strong growth and profitability.

We believe our single, proprietary technology platform is differentiated from our competitors' multiple platform architectures. Because of our single point of service and ability to collect, manage and analyze data across the payment processing value chain, we can identify and develop new services more efficiently. Once developed, we can more cost-effectively deploy new solutions to our clients through our single platform. Our single scalable platform also enables us to efficiently manage, update and maintain our technology, increase capacity and speed and realize significant operating leverage.

We offer a broad suite of payment processing services that enable our clients to meet their payment processing needs through a single provider. We enable merchants of all sizes to accept and process credit, debit and prepaid payments and provide them supporting services, such as information solutions, interchange management and fraud management, as well as vertical-specific solutions in sectors such as grocery, pharmacy, retail and restaurants/quick service restaurants or QSRs. We also provide mission critical payment services to financial institutions, such as card issuer processing, payment network processing, fraud protection, card production, prepaid program management, ATM driving and network gateway and switching services that utilize our proprietary Jeanie PIN debit payment network.

We provide small and mid-sized clients with the comprehensive solutions that we have developed to meet the extensive requirements of our large merchant and financial institution clients. We then tailor these solutions to the unique needs of our small and mid-sized clients. In addition, we take a consultative approach to providing services that helps our clients enhance their payments-related services.

Our capabilities differentiate us from other payment processors that focus primarily on just merchant acquiring, card issuer processing or network services and those that operate multiple businesses on disparate technology platforms. Through our integrated business, we believe we can manage our business more efficiently, benefiting both our merchant and financial institution clients and resulting in increased profitability. We are also well positioned to provide payment solutions for high growth markets, such as ecommerce, mobile payment offerings and prepaid because we process payment transactions across the entire payment processing value chain on a single platform.

We distribute our services through diversified distribution channels using a unified sales approach that enables us to efficiently and effectively target merchants and financial institutions of all sizes. These channels include a national sales force that targets financial institutions and national merchants, regional and mid-market sales teams that sell solutions to merchants and third-party reseller clients and a telesales operation that targets small and mid-sized merchants. In addition, we have relationships with a broad range of referral partners, such as merchant banks; technology partners, which include independent software vendors, or ISVs, value-added resellers, or VARs and payment facilitators; independent sales organizations, or ISOs, and trade associations that target a broad range of merchants, including difficult to reach small and mid-sized merchants. We also have relationships with third-party resellers and core processors that target financial institutions.

We have a broad and diversified merchant and financial institution client base. Our merchant client base includes over 400,000 merchant locations, has low client concentration and is heavily weighted in non-discretionary everyday spend categories, such as grocery and pharmacy, and includes large national retailers, including eight of the top 25 national retailers by revenue in 2012. Our financial institution client base is also well diversified and includes approximately 1,400 financial institutions.

Our History and Separation from Fifth Third Bank

We have a 40 year history of providing payment processing services. We operated as a business unit of Fifth Third Bank until June 2009 when certain funds managed by Advent International Corporation, or Advent, acquired a majority interest in Fifth Third Bank's payment processing business unit with the goal of creating a separate stand-alone company. Since the separation, we established our own organization, headquarters, brand, growth strategy and completed our initial public offering in March 2012. As a stand-alone company, we have made substantial investments to enhance our single, proprietary technology platform, recruit additional executives with significant payment processing and operating experience, expand our sales force, reorganize our business to better align it with our market opportunities and broaden our geographic footprint beyond the markets traditionally served by Fifth Third Bank. In addition, since the separation, we have made five strategic acquisitions. We acquired NPC Group, Inc., or NPC, to substantially enhance our access to small to mid-sized merchants, Town North Bank, N.A., or TNB, to broaden our market position with credit unions, and Springbok Services, Inc., or Springbok, to expand our prepaid processing capabilities. In November 2012, we acquired Litle & Co., LLC, or Litle, to increase the Company's capabilities in the ecommerce business, expand its customer base of online merchants, and allow the delivery of Litle's innovative ecommerce solutions to our merchant and financial institution clients. In July 2013, we acquired Element Payment Services, Inc., or Element, which provides us strategic capabilities to partner with ISVs and to increase our presence in the integrated payments market.

We continue to benefit from our relationship with Fifth Third Bank. Fifth Third Bank is one of our largest financial institution clients, one of our sponsor banks for network membership and one of our most significant merchant bank referral partners. Our client contract with Fifth Third Bank as well as our sponsorship and referral agreements with Fifth Third Bank have terms through June 2019.

Industry Background

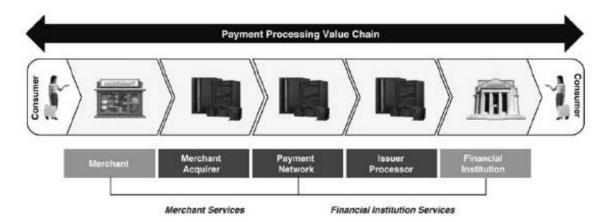

Electronic Payments

Over the past 60 years, electronic payments in the United States have evolved into a large and growing market with favorable secular trends that continue to increase the adoption and use of card-based payment services, such as those for credit, debit and prepaid cards. Electronic payments have historically involved (i) financial institutions that issue cards, (ii) merchants that accept cards for payment (iii) payment networks that route card transactions between the merchant's bank and the issuing financial institution, and (iv) payment processors that provide payment transaction processing services to merchants and financial institutions.

According to The Nilson Report, personal consumption expenditures in the United States using cards and other electronic payments reached \$5.7 trillion in 2012 and are projected to reach \$8.6 trillion in 2017, representing a compound annual growth rate of approximately 8.5% during that period. This growth will be driven by the shift from cash and checks towards card-based and other electronic payments due to their greater convenience, security, enhanced services and rewards and loyalty features. We believe changing demographics and emerging trends, such as the adoption of new technologies and business models, including ecommerce, mobile commerce and prepaid services, will also continue to drive growth in electronic payments.

Payment Processing Industry

The payment processing industry is comprised of various processors that create and manage the technology infrastructure that enables electronic payments. Payment processors help merchants and financial institutions develop and offer electronic payment solutions to their customers, facilitate the routing and processing of electronic payment transactions and manage a range of supporting security, value-added and back office services. In addition, many large banks manage and process their card accounts in-house. This is collectively referred to as the payment processing value chain and is illustrated below:

The payment processing value chain encompasses three key types of processing:

- Merchant Acquiring Processing. Merchant acquiring processors sell electronic payment acceptance, processing and supporting services to
 merchants and third-party resellers. These processors route transactions originated at the point of sale at a merchant location or on a website to
 the appropriate payment networks for authorization, known as "front-end" processing, and then ensure that each transaction is appropriately
 cleared and settled into the merchant's bank account, known as "back-end" processing. Many of these processors also provide specialized
 reporting, back office support, risk management and other value-added services to merchants. Merchant acquirers charge merchants based on a
 percentage of the value of each transaction or per transaction. Merchant acquirers pay the payment network processors a routing fee per
 transaction and pass through interchange fees to the issuing financial institution.
- Payment Network Processing. Payment network processors, such as Visa, MasterCard and PIN debit payment networks, sell electronic payment network routing and support services to financial institutions that issue cards and merchant acquirers that provide transaction processing. Depending on their market position and network capabilities, these providers route credit, debit and prepaid card transactions from merchant acquiring processors to the financial institution that issued the card, and they ensure that the financial institution's authorization approvals are routed back to the merchant acquiring processor and that transactions are appropriately settled between the merchant's bank and the card-issuing financial institution. These providers also provide specialized risk management and other value-added services to financial institutions. Payment networks charge merchant acquiring processors and issuing financial institutions routing fees per transaction and monthly or annual maintenance fees and assessments.
- *Issuer Card Processing.* Issuer card processors sell electronic payment issuing, processing and supporting services to financial institutions. These providers authorize transactions received from the payment networks and ensure that each transaction is appropriately cleared and settled from the originating card account. These companies also provide specialized program management, reporting, outsourced customer service, back office support, risk management and other value-added services to financial institutions. Card processors charge issuing financial institutions fees based on the number of transactions processed and the number of cards that are managed.

Many payment processors specialize in providing services in discrete areas of the payment processing value chain, which can result in merchants and financial institutions using payment processing services from multiple providers. A limited number of payment processors have capabilities or offer services in multiple parts of the payment processing value chain. Many processors that provide solutions targeting more than one part of the payment processing value chain utilize multiple, disparate technology platforms requiring their clients to access payment processing services through multiple points of contact. In contrast, we provide solutions across the payment processing value chain primarily utilizing a single integrated technology platform that enables clients to easily access a broad range of payment processing services through a single point of service.

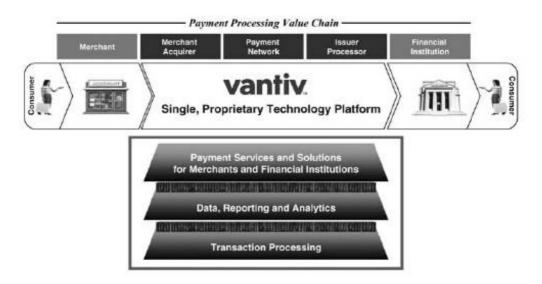

Emerging Trends and Opportunities in the Payment Processing Industry

The payment processing industry will continue to adopt new technologies, develop new products and services, evolve new business models and experience new market entrants and changes in the regulatory environment. In the near-term, we believe merchants and financial institutions will seek services that help them enhance their own offerings to consumers, provide additional information solution services to help them run their businesses more efficiently and develop new products and services that provide tangible, incremental revenue streams. To meet these demands, we believe that payment processors may seek to develop additional capabilities and expand across the payment processing value chain to capture additional data and provide additional value per transaction. To facilitate this expansion and deliver more robust service offerings, we believe that payment processors will need to develop and seek greater control over and integration of their proprietary technology processing platforms, to enable them to deliver and differentiate their offerings from other providers.

Over the medium- to long-term, we believe that emerging, alternative payment technologies, such as mobile payments, electronic wallets, mobile marketing offers and incentives and rewards services, will be adopted by merchants and other businesses. As a result, non-financial institution enterprises, such as mobile payment providers, internet, retail and social media companies, could become more active participants in the development of alternative electronic payments and facilitate the convergence of retail, online, mobile and social commerce applications, representing an attractive growth opportunity for the industry. We believe that payment processors that have an integrated business, provide solutions across the payment processing value chain and utilize broad distribution capabilities will have a significant market advantage, because they will be better able to provide processing services for emerging alternative electronic payment technologies and to successfully partner with new market entrants.

Our Business

We are a leading provider of payment processing services to merchants and financial institutions across the payment processing value chain. We provide our solutions through our single, proprietary technology platform. Set forth below is a description of our technology platform and our merchant and financial institution clients and services.

Single, Proprietary Technology Platform

Our technology platform provides a single point of service to access our broad suite of solutions, is easy to connect to and use and enables us to innovate, develop and deploy new services and to produce our value-added information solutions, all while providing economies of scale.

• Single Point of Service. We provide our clients with a single point of service through which they can access our comprehensive suite of solutions across the payment processing value chain. For example, our financial

institution clients can utilize our payment processing solutions, our information solutions and our prepaid solutions all from a single Vantiv interface, which distinguishes us from our multi-platform competitors.

- Ease of Connection and Delivery. Both our merchant and financial institution clients can easily connect to and interact with our technology platform, which facilitates our ability to deliver services to our clients. In addition, we provide our technology partners the ability to connect and access and manage our services, which facilitates the delivery of our solutions to their customers. Our platform allows all of our clients to seamlessly add new services.
- *Ability to Innovate.* Our technology platform enhances our ability to identify and develop new services. For example, our platform allows us to identify client needs and inefficiencies in payment processing and then to quickly develop and bring solutions to those problems to market. Our technology platform also enables the development of new services for clients spanning the payment processing value chain, including in high growth segments and verticals, such as ecommerce, gaming, mobile, prepaid and information solutions.
- Value-added Information Solutions. Our technology platform allows us to collect, manage and analyze data across our Merchant and Financial
 Institution Services segments. We provide reporting and management tools to all of our clients through Vantiv Direct, our proprietary on-line
 interactive system for reporting, reconciliation, interfacing and exception processing. We provide data, reports and analytical tools to our
 financial institution clients to assist with card account, customer relationship, marketing program and fraud management. As the payment
 processing industry evolves and our clients require more data to serve their customers, we plan to use our single technology platform to provide
 information solutions and other data-rich services, such as marketing incentives, offers and loyalty programs to our clients.
- Operating Leverage. Our single, proprietary technology platform is highly scalable and efficient and provides strong operating margins. In
 connection with our separation from Fifth Third Bank in 2009, we made a substantial investment to enhance our single, proprietary technology
 platform. Through these enhancements, we increased the processing speed, efficiency and capacity of our platform and optimized our
 operations. We believe the scale and efficiency of our single platform is a key differentiator between us and our competitors who operate on
 multiple non-integrated platforms. For example, it enables us to make enhancements and regulatory updates across our platform simultaneously
 and with lower execution risk.

Our technology platform is reliable and secure. We have developed our technology platform to be highly resilient with redundant applications and servers and robust network connectivity and storage capacity. We have real-time synchronization between our primary and secondary data centers. Our four-tiered operating model is certified as PCI compliant and is secured through technical controls, policy controls, physical controls and asset protection. We have implemented additional security measures for our systems and data, such as end-to-end encryption and monitoring and logging all activity 24 hours a day seven days a week. These measures are evaluated regularly through internal and third party assessments.

Financial Highlights

Revenue for the year ended December 31, 2013, increased 13% to \$2,108.1 million from \$1,863.2 million in 2012. Income from operations for the year ended December 31, 2013, increased 16% to \$352.8 million from \$304.9 million in 2012. Net income for the year ended December 31, 2013, increased 88% to \$208.1 million from \$110.8 million in 2012. Net income attributable to Vantiv, Inc. for the year ended December 31, 2013, increased 132% to \$133.6 million from \$57.6 million in 2012.

The following tables provide a summary of the results for our two segments, Merchant Services and Financial Institution Services, for the years ended December 31, 2013, 2012 and 2011.

Refer to "Item 7 - Management's Discussion and Analysis of Financial Condition and Results of Operations" for more details.

Merchant Services

Clients

According to The Nilson Report, we are the third largest merchant acquirer and the largest PIN debit acquirer by transaction volume in the United States, serving a diverse set of merchants across a variety of end-markets, sizes and geographies. We authorize, clear, settle and provide reporting for electronic payment transactions for our merchant services clients. For the year ended December 31, 2013, we processed sales volume of approximately \$611 billion.

Our client base includes over 400,000 merchant locations, with a concentration in non-discretionary everyday spend categories where spending has been more resilient during economic downturns, such as grocery and pharmacy. We serve clients large and small, off-line and on-line, across many industries, including grocery, pharmacy, retail, and others. Our long-term client relationships, low client concentration and everyday spend merchant services clients make us less sensitive to changing economic conditions in the industries and regions in which our clients operate.

We have long-term relationships with many large national retailers, including eight of the top 25 by revenue in 2012. Due to the large transaction volume that they generate, these merchants provide us with significant operating scale efficiencies and recurring revenues. Smaller merchants are more difficult to reach on an individual basis, but generally generate higher per transaction fees. Our acquisition of NPC in 2010 has expanded our small to mid-sized merchant client base.

We plan to grow our client base over the course of the next few years, depending on market conditions, primarily by broadening and deepening our distribution channels and expanding into high growth segments and verticals. We have developed relationships with a broad range of referral partners, such as merchant banks; technology partners, which include ISVs, VARs and payment facilitators; ISOs and trade associations that target a broad range of merchants, including difficult to reach small and mid-sized merchants. While we will continue to serve virtually all major merchant categories, we are

increasing our focus on several high growth segments and verticals, including business-to-business, ecommerce, healthcare, gaming, government and education. We intend to focus on these high growth segments and verticals by continuing to enhance our offering of services, establishing relationships with technology partners and tailoring our sales approach for each vertical on a region-by-region basis.

Services

We provide a comprehensive suite of payment processing services to merchants across the United States. We authorize, clear, settle and provide reporting for electronic payment transactions for our merchant services clients, as discussed below.

Integrated Acquiring and Processing. We provide merchants with a full range of credit, debit and prepaid payment processing services. We give them the ability to accept and process Visa, MasterCard, American Express, Discover and PIN debit network card transactions originated both at the point of sale and for on-line transactions. This service includes all aspects of card processing, including authorization and settlement, customer service, chargeback and retrieval processing and interchange management. We take a consultative approach to providing these services and help our merchants minimize their interchange costs and integrate their settlement systems. We offer merchants the ability to customize routing preferences that help them minimize costs. We utilize a single message format for both credit and debit transactions, which simplifies the storage and processing of data and reduces costs for merchants. We also store data for settlement for all PIN debit transactions, which simplifies the settlement process for merchants and provides the flexibility to route transactions through a merchant's desired network, allowing for lower transaction costs.

Value-added Services. We offer value-added services that help our clients operate and manage their businesses, generating additional revenue from their customers and enhancing our client retention. For example, we offer merchants mobile acceptance, prepaid services and gift card solutions, enabling them to retain a greater share of their customers' transaction volume while building a more loyal customer base. We also provide security solutions such as point-to-point encryption and tokenization both at the point of sale and for on-line transactions that help to protect our merchant services clients and their customers and minimize their losses. Our on-line data and reports provide merchants with detailed transaction information that allows them to perform customer analytics to better understand their business.

Financial Institution Services

Clients

We serve a diverse set of financial institutions, including regional banks, community banks, credit unions and regional PIN debit networks. We focus on small to mid-sized institutions with less than \$15 billion in assets. Smaller financial institutions, including many of our clients, generally do not have the scale or infrastructure typical of large institutions and are more likely to outsource their payment processing needs. We provide a turnkey solution to such institutions to enable them to offer payment processing solutions. In 2013, we processed approximately 3.6 billion transactions for approximately 1,400 financial institutions.

Services

We provide integrated card issuer processing, payment network processing and value-added services to financial institutions. Our services include a comprehensive suite of transaction processing capabilities, including fraud protection, card production, prepaid cards, ATM driving, portfolio optimization, data analytics and card program marketing and allow financial institutions to offer electronic payments solutions to their customers on a secure and reliable technology platform at a competitive cost. We provide these services using a consultative approach that helps our financial institution clients enhance their payments-related businesses. These services are discussed further below.

Integrated Card Issuer and Processing. We process and service credit, debit, ATM and prepaid transactions. We process and provide statement production, collections and inbound/outbound call centers for credit transactions. Our card processing solution includes processing and other services such as card portfolio analytics, program strategy and support, fraud and security management and chargeback and dispute services. We also offer processing for specialized types of debit cards, such as business cards, home equity lines of credit and health savings accounts. We provide authorization support in the form of online or batch settlement, as well as real-time transaction research capability and archiving and daily and monthly cardholder reports for statistical analysis. Our call center handles inbound and outbound calls and billing issues for customers of our financial institution clients.

Value-added Services. We provide additional services to our financial institution clients that complement our issuing and processing services. We offer ATM support and software protocols, as well as foreign currency dispensing, mini statements, ATM cardholder preferences, image capture, electronic journal upload and software distribution. We also provide fraud detection services for credit, signature and PIN transactions and cardholder alerts that help to minimize fraud losses for our clients and their customers. Our prepaid card solutions include incentive, rebate and reward programs, general purpose reloadable cards and gift cards. Our prepaid card solutions allow our clients to offer prepaid cards to their customers and generate additional revenue. We offer a service known as Vantiv Direct, which is a proprietary on-line interactive system for reporting, reconciliation, interfacing and exception processing. We also provide other services, including ATM enhancement, card production and activation and surcharging services. As part of our consultative approach, we provide value-added services such as information solutions, campaign development and delivery, rewards and loyalty programs, and prewards or merchant funded loyalty programs, that help our clients to enhance revenue and profitability. We also provide network gateway and switching services that utilize our Jeanie PIN network.

Our Jeanie network offers real-time electronic payment, network bill payment, single point settlement, shared deposit taking and customer select PINs. Our Jeanie network includes over 6,800 ATMs, 20 million active cardholders and 650 member financial institution clients.

Merchant Services for Financial Institutions. In partnership with our financial institution clients, we offer our financial institutions a full suite of merchant services they can make available to their merchant customers. Depending on the need of the financial institution, we offer a referral option as well as a full white-label option. The referral option allows the financial institution to simply refer their small businesses and merchant services customers to us, and we contract and provide services to the merchant while providing the financial institution referral revenue. Our white-label option allows the financial institution to provide their small business and merchant customers a fully branded merchant services offering that we manage.

Sales and Marketing

We distribute our services through diversified distribution channels using a unified sales approach that enables us to efficiently and effectively target merchants and financial institutions of all sizes. We believe our sales structure provides us with broad geographic coverage and access to various industries and verticals.

Our Merchant Services sales force is comprised of a team that targets large national merchants, a regional and mid-market sales team that sells solutions to merchants and third-party reseller clients and a telesales operation that targets small and mid-sized merchants. Our regional sales teams in our Merchant Services business are responsible for our referral channel, including referrals from Fifth Third Bank and other banks. Our Financial Institution Services sales force focuses on small to mid-sized institutions with less than \$15 billion in assets because smaller financial institutions typically do not have similar scale, breadth of services or infrastructure as large banks to process payment transactions as efficiently as large banks and are more likely to outsource their payment processing needs. In addition to generating new sales, we have in-house sales personnel who are responsible for managing key relationships, promoting client retention and generating cross-selling opportunities for both our merchant and financial institution clients. Our sales teams are paid a combination of base salary and commission. As of December 31, 2013, we had over 800 full-time employees participating in sales and marketing, including sales support personnel.

In addition, we have relationships with a broad range of referral partners, such as merchant banks; technology partners, which include ISVs, VARs and payment facilitators; ISOs and trade associations that target a broad range of merchants, including difficult to reach small and mid-sized merchants. Our merchant bank referral program, which consisted of over 1,500 branch locations as of December 31, 2013, enables us to be the preferred processor for those banks, and the banks receive a referral fee. Through our relationships with technology partners, we seek to expand our presence in high growth segments and verticals, such as business-to-business, ecommerce, healthcare, gaming, government and education.

Commissions paid to our sales force are based upon a percentage of revenue from new business and cross-selling to existing clients. Residual payments to our referral partners, including merchant banks, technology partners, ISOs and trade associations are based upon a percentage of revenues earned from referred business. For the year ended December 31, 2013, combined sales force commissions and residual payments represent approximately 67% of total sales and marketing expenses, or \$210.2 million.

We also utilize a diverse group of referral partners in our Financial Institution Services segment. This distribution channel utilizes multiple distribution strategies and leverages relationships with reseller partners and arrangements with core processors that sell our solutions to small and mid-sized financial institutions. We offer certain of our services on a white-label

basis which enables them to be marketed under our client's brand. We select resellers that enhance our distribution channels and augment our services with complementary offerings. Our relationships with core processors are necessary for developing the processing environments required by our financial institution clients. Many of our core processing relationships are non-contractual and continue for so long as an interface between us and the core processor is needed to accommodate one or more common financial institution customers. As of December 31, 2013, we had relationships with approximately 60 core processing companies and 140 core processing platforms.

Competition

Merchant Services

Our Merchant Services segment competitors include Bank of America Merchant Services, Chase Paymentech Solutions, Elavon Inc. (a subsidiary of U.S. Bancorp), First Data Corporation, Global Payments, Inc., Heartland Payment Systems, Inc., Total System Services, Inc. and WorldPay US, Inc.

The most significant competitive factors in this segment are price, breadth of features and functionality, data security, system performance and reliability, scalability, service capability and brand. Our Merchant Services segment has been and is expected to continue to be impacted by large merchant and large bank consolidation, as larger clients may demand lower fees, card association business model expansion and the expansion of new payment methods and devices. In addition, Advent, through one of its private equity investments, owns an equity interest in WorldPay US, Inc., which may result in their being provided with business opportunities through their relationship with Advent instead of us.

Financial Institution Services

Our Financial Institution Services segment competitors include Fidelity National Information Services, Inc., First Data Corporation, Fiserv, Inc., Total System Services, Inc. and Visa Debit Processing Service. In addition to competition with direct competitors, we also compete with larger potential clients that have historically developed their key payment processing applications in-house, and therefore weigh whether they should develop these capabilities in-house or acquire them from a third party.

The most significant competitive factors in this segment are price, system performance and reliability, breadth of services and functionality, data security, scalability, flexibility of infrastructure and servicing capability. Our Financial Institution Services segment has been and could continue to be impacted by financial institution consolidation, which in addition to the above, provides more opportunities for clients to bring all or a portion of the services we provide in-house or allows our competitors the opportunity to gain business if our clients consolidate with a financial institution served by a competitor of ours.

Our Competitive Strengths

We believe we have attributes that differentiate us from our competitors and have enabled us to become a leading payment processor in the United States. Our key competitive strengths include:

Single, Proprietary Technology Platform

Our single, proprietary technology platform provides our merchant and financial institution clients with differentiated payment processing solutions and provides us with significant strategic and operational benefits. Our clients access our processing solutions primarily through a single point of service, which is easy to use and enables our clients to acquire additional services as their business needs evolve. Small and mid-sized merchants are able to easily connect to our technology platform using our application process interfaces, or APIs, software development kits, or SDKs, and other tools we make available to technology partners, which we believe enhances our capacity to sell to such merchants. Our platform allows us to collect, manage and analyze data across both our Merchant Services and our Financial Institution Services segments that we can then package into information solutions for our clients. It also provides insight into market trends and opportunities as they emerge, which enhances our ability to innovate and develop new value-added services. Our single platform allows us to more easily deploy new solutions that span the payment processing value chain, such as ecommerce, mobile and prepaid, which are high growth market opportunities. Our single scalable platform also enables us to efficiently manage, update and maintain our technology, increase capacity and speed, and realize significant operating leverage. We believe our single, proprietary technology platform is a key differentiator from payment processors that operate on multiple technology platforms and provides us with a significant competitive advantage.

Integrated Business

We operate as a single integrated business using a unified sales and product development approach. Our integrated business and established client relationships across the payment processing value chain provide us with insight into our clients' needs. We believe this insight combined with our industry knowledge and experience with both merchants and financial institutions enables us to continuously develop new payment processing services and deliver substantial value to our clients. In addition, we believe this insight, knowledge and experience enhances our ability to cross-sell our services to existing clients. By operating as a single business, we believe we can manage our business more efficiently resulting in increased profitability. We believe our integrated business allows us to deliver better solutions and differentiates us from payment processors that are focused on discrete areas of the payment processing value chain or that operate multiple payment processing businesses.

Comprehensive Suite of Services

We offer a broad suite of payment processing services that enable our merchant and financial institution clients to address their payment processing needs through a single provider. Our solutions include traditional processing services as well as a range of innovative value-added services. We provide small and mid-sized clients with the comprehensive solutions originally developed for our large clients that we have adapted to meet the specific needs of our small and mid-sized clients. We have also developed industry specific merchant solutions with features and functionality to meet the specific requirements of various industry verticals, including grocery, pharmacy, restaurant and retail. We offer our financial institutions a broad range of card issuing, processing and information solutions. As financial institutions seek to generate additional revenue, for example, we offer our full suite of merchant acquiring solutions to banks and credit unions on a referral basis or as a customized white-label service marketed under our client's brand. In addition, our broad range of services provides us with numerous opportunities to generate additional revenues by cross-selling solutions to our existing clients.

Diverse Distribution Channels

We distribute our services through diversified distribution channels using a unified sales approach that enables us to efficiently and effectively target merchants and financial institutions of all sizes. These channels include a national sales force that targets financial institutions and national merchants, regional and mid-market sales teams that sell solutions to merchants and third-party reseller clients and a telesales operation that targets small and mid-sized merchants. In addition, we have relationships with a broad range of referral partners, such as merchant banks; technology partners, including ISVs, VARs and payment facilitators; ISOs and trade associations that target a broad range of merchants, including difficult to reach small and mid-sized merchants. We also have relationships with third-party resellers and core processors that target financial institutions. Through our diversified distribution channels, we have developed a broad client base, which has resulted in low client concentration, consisting of over 400,000 merchant locations and approximately 1,400 financial institutions.

Strong Execution Capabilities

Our management team has significant experience in the payment processing industry and has demonstrated strong execution capabilities. Since we created a stand-alone company in 2009, we have invested substantial resources to enhance our technology platform, deepened our management organization, expanded our sales force to align it with our market opportunities, completed strategic acquisitions to expand our product offerings and distribution channels, introduced several new services, launched the Vantiv brand and built out and moved into our new corporate headquarters. We executed all of these projects while delivering substantial revenue growth and strong profitability.

Our Strategy

We plan to grow our business over the course of the next few years, depending on market conditions, by continuing to execute on the following key strategies:

Increase Small to Mid-Sized Client Base

We are focused on increasing our small to mid-sized client base to capitalize on the growth and margin opportunities provided by smaller merchants and financial institutions. Our small and mid-sized merchants and financial institutions are generally more profitable on a per transaction basis. In addition, smaller banks and credit unions generally do not have the scale or the internal technology infrastructure to manage and process their own card programs and consequently, outsource all or a significant portion of their payment processing requirements. We plan to continue to identify and reach these small to mid-sized merchants and financial institutions through our direct sales force, referral partners, third-party resellers and core processors.

Develop New Services

By leveraging our single technology platform, industry knowledge and client relationships across the payment processing value chain, we seek to develop additional payment processing services that address evolving client demands and provide additional cross-selling opportunities. For example, this includes significant investment in emerging technologies such as mobile and further investment into the ecommerce space. In addition, we seek to expand our fraud management services to financial institutions and have developed a program that allows our clients to outsource this function to us. In the future, we intend to enhance our information solutions by analyzing data we capture across our platform and provide our clients with new opportunities to generate incremental revenue.

Expand Into High Growth Segments and Verticals

We believe there is a substantial opportunity for us to expand further into high growth payment segments, such as ecommerce, demonstrated by the acquisition of Litle, mobile and information solutions, prepaid and attractive industry verticals, such as business-to-business, ecommerce, healthcare, gaming, government and education. To facilitate this expansion and capture market share within these high growth segments and verticals, we intend to further develop our technology capabilities to handle specific processing requirements for these segments and verticals, add new services that address their needs and broaden and deepen our distribution channels to reach these potential clients, including through the addition of new referral partners, such as technology partners. We believe that introducing new, complementary solutions that differentiate and enhance the value of our existing services can accelerate our expansion into these segments and verticals. Further, we will seek to penetrate these markets by leveraging our existing distribution channels and entering into new arrangements with complementary referral partners.

Broaden and Deepen Our Distribution Channels

We intend to continue to broaden and deepen our distribution channels to reach potential clients and sell new services to our existing clients. We plan to grow our sales force, including telesales, and add new referral partners, such as merchant banks; technology partners, as demonstrated through our acquisition of Element, which include ISVs, VARs and payment facilitators; ISOs; trade associations; third-party resellers and core processors. By enhancing our referral network and relationships with our partners, we will be able to reach more potential clients, enter into or increase our presence in various markets, segments and industry verticals, such as ecommerce and mobile, and expand into new geographic markets. To establish new relationships and strengthen our existing relationships with various referral partners and drive the implementation of our payment services, we will continue to develop web service APIs, SDKs and documentation in common development languages. We will also continue to develop additional support services for our distribution channels, provide sales and product incentives and increase our business development resources dedicated to growing and promoting our distribution channels.

Enter New Geographic Markets

When we operated as a business unit of Fifth Third Bank we had a strong market position with large national merchants, and we focused on serving small to mid-sized merchants in Fifth Third Bank's core market in the Midwestern United States. We are expanding our distribution channels and leveraging our technology platform to target additional regions. In the future, we will also look to augment our U.S. business by selectively expanding into international markets through strategic partnerships or acquisitions that enhance our distribution channels, client base and service capabilities.

Pursue Acquisitions

We intend to continue to seek acquisitions that provide attractive opportunities. Acquisitions provide us with opportunities to increase our small to mid-sized client base, enhance our service offerings, target high growth segments and verticals, enter into new geographic markets and broaden and deepen our distribution channels. We also will consider acquisitions of discrete merchant portfolios that we believe would enhance our scale and client base and strengthen our market position in the payment processing industry. We believe our single technology platform and integrated business enhances our ability to successfully integrate acquisitions.

Regulation

Various aspects of our business are subject to U.S. federal, state and local regulation. Failure to comply with regulations may result in the suspension or revocation of licenses or registrations, the limitation, suspension or termination of services and/or the imposition of civil and criminal penalties, including fines. Certain of our services are also subject to rules set by various payment networks, such as Visa and MasterCard, as more fully described below.

Dodd-Frank Act

In July 2010, the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 was signed into law in the United States. The Dodd-Frank Act has resulted in significant structural and other changes to the regulation of the financial services industry. Among other things, the Dodd-Frank Act established the Consumer Financial Protection Bureau, or CFPB, to regulate consumer financial services, including many offered by our clients.

The Dodd-Frank Act provided two self-executing statutory provisions limiting the ability of payment card networks to impose certain restrictions that became effective in July 2010. The first provision allows merchants to set minimum dollar amounts (not to exceed \$10) for the acceptance of a credit card (and allows federal governmental entities and institutions of higher education to set maximum amounts for the acceptance of credit cards). The second provision allows merchants to provide discounts or incentives to entice consumers to pay with cash, checks, debit cards or credit cards, as the merchant prefers.

Separately, the so-called Durbin Amendment to the Dodd-Frank Act provided that interchange fees that a card issuer or payment network receives or charges for debit transactions will now be regulated by the Federal Reserve and must be "reasonable and proportional" to the cost incurred by the card issuer in authorizing, clearing and settling the transaction. Payment network fees, such as switch fees assessed by our Jeanie network, may not be used directly or indirectly to compensate card issuers in circumvention of the interchange transaction fee restrictions. In July 2011, the Federal Reserve published the final rules governing debit interchange fees. Effective in October 2011, debit interchange rates for card issuing financial institutions with more than \$10 billion of assets are capped at \$0.21 per transaction with an additional component of five basis points of the transaction's value to reflect a portion of the issuer's fraud losses plus, for qualifying issuing financial institutions, an additional \$0.01 per transaction in debit interchange for fraud prevention costs. The debit interchange fee would be \$0.24 per transaction on a \$38 debit card transaction, the average transaction size for debit card transactions. In July 2013, the U.S. District Court for the District of Columbia determined that the Federal Reserve's regulations implementing the Durbin Amendment were invalid. The Federal Reserve has appealed the decision. Regardless of the outcome of the litigation, the cap on interchange fees is not expected to have a material direct impact on our results of operations.

In addition, the new rules contain prohibitions on network exclusivity and merchant routing restrictions. Beginning in October 2011, (i) a card payment network may not prohibit a card issuer from contracting with any other card payment network for the processing of electronic debit transactions involving the issuer's debit cards and (ii) card issuing financial institutions and card payment networks may not inhibit the ability of merchants to direct the routing of debit card transactions over any card payment networks that can process the transactions. Since April 2012, most debit card issuers have been required to enable at least two unaffiliated card payment networks on each debit card. We do not expect the prohibition on network exclusivity to impact our ability to pass on network fees and other costs to our clients. These regulatory changes create both opportunities and challenges for us. Increased regulation may add to the complexity of operating a payment processing business, creating an opportunity for larger competitors to differentiate themselves both in product capabilities and service delivery. The ban on network exclusivity also will enhance competition to allow us, through our Jeanie network, and certain of our competitors through their networks, to compete for additional business. At the same time, these regulatory changes may cause operating costs to increase as we adjust our activities in light of compliance costs and client requirements. The Dodd-Frank Act's overall impact on us is difficult to estimate as it will take some time for the market to react and adjust to the new regulations.

Banking Regulation

Fifth Third Bank beneficially owns an equity interest representing approximately 25.6% of Vantiv Holding's voting power and equity interests (through their ownership of Vantiv Holding Class B units), 18.5% of our voting interests (through their ownership of our Class B common stock) and have significant consent rights. Fifth Third Bank is an Ohio state-chartered bank and a member of the Federal Reserve System and is supervised and regulated by the Federal Reserve and the Ohio Division of Financial Institutions, or ODFI. Fifth Third Bank is a wholly-owned indirect subsidiary of Fifth Third Bancorp, which is a bank holding company, or BHC, which has elected to be treated as a financial holding company, or FHC, and is supervised and regulated by the Federal Reserve under the Bank Holding Company Act of 1956, as amended, or BHC Act.

Because of the foregoing, and in particular, Fifth Third Bank's interest in us, it may be difficult for us to engage in activities abroad or invest in a non-U.S. company. We and Fifth Third Bank may seek to engage in offshore activities through various entities and structures, each of which may require prior regulatory approval, the receipt of which cannot be assured. The Federal Reserve and the ODFI have substantial discretion in this regard. In addition to the initial filing and application requirements, the chosen entity or structure may subject Fifth Third Bank, and to a lesser extent us, to several banking law requirements and limitations.

We may not receive regulatory authority to create such an entity, or, if created, we may be unable to comply with all requirements. We will need Fifth Third Bank's cooperation to form and operate any such entity for offshore activities, and the regulatory burdens imposed upon Fifth Third Bank may be too extensive to justify its establishment or continuation. If, after the entity is formed, we or Fifth Third Bank are at any time unable to comply with any applicable regulatory requirements, the Federal Reserve or ODFI may impose additional limitations or restrictions on Fifth Third Bank's or our operations, which could potentially force us to limit the activities or dispose of the entity.

In light of the foregoing, there can be no assurance that we will be able to successfully engage in activities abroad or invest in a non-U.S. company.

We continue to be deemed to be controlled by Fifth Third Bancorp and Fifth Third Bank for bank regulatory purposes and, therefore, we will continue to be subject to supervision and regulation by the Federal Reserve under the BHC Act by the Federal Reserve and the ODFI under applicable federal and state banking laws. We will remain subject to this regulatory regime until Fifth Third Bancorp and Fifth Third Bank are no longer deemed to control us for bank regulatory purposes, which we do not generally have the ability to control and which will generally not occur until Fifth Third Bank has significantly reduced its equity interest in us, as well as certain other factors, including the extent to which we continue to maintain material business relationships with Fifth Third Bancorp and Fifth Third Bank. The ownership level at which the Federal Reserve would consider us no longer controlled by Fifth Third Bank for bank regulatory purposes will generally depend on the circumstances at that time and could be less than 5%. The circumstances and other factors that the Federal Reserve will consider will include, among other things, the extent of our relationships with Fifth Third Bank, including the various agreements entered into at the time of the separation from Fifth Third Bank and the Amended and Restated Vantiv Holding Limited Liability Company Agreement.

Given our current business model, regulation by the Federal Reserve and the ODFI has not historically had a material effect on our operations, our ability to make acquisitions or the implementation of our business strategy more generally. Nevertheless, there can be no assurance that this will continue going forward, especially if we wish to make certain changes to our business model and related strategy. See "Item 1A - Risk Factors" below. The supervision and regulation of Fifth Third Bancorp, Fifth Third Bank and their subsidiaries under applicable banking laws is intended primarily for the protection of Fifth Third Bank's deposit insurance fund of the Federal Deposit Insurance Corporation, or FDIC, and the banking system as a whole, rather than for the protection of our stockholders, creditors or customers or the stockholders, creditors or customers of Fifth Third Bank.

For as long as we are deemed to be controlled by Fifth Third Bancorp and Fifth Third Bank for bank regulatory purposes, we are subject to regulation, supervision, examination and potential enforcement action by the Federal Reserve and the ODFI and to most banking laws, regulations and orders that apply to Fifth Third Bancorp and Fifth Third Bank. Fifth Third Bancorp and Fifth Third Bank are required to file reports with the Federal Reserve and the ODFI on our behalf, and we are subject to examination by the Federal Reserve and the ODFI for the purposes of determining, among other things, our financial condition, the adequacy of our risk management and the financial and operational risks that we pose to the safety and soundness of Fifth Third Bank and Fifth Third Bancorp, and our compliance with federal and state banking laws applicable to us and our relationship and transactions with Fifth Third Bancorp and Fifth Third Bank. The Federal Reserve has broad authority to take enforcement actions against us if it determines that we are engaged in or are about to engage in unsafe or unsound banking practices or are violating or are about to violate a law, rule or regulation, or a condition imposed by or an agreement with, the Federal Reserve. Enforcement actions can include a variety of informal and formal supervisory actions. The formal actions include cease and desist and other orders, enforceable written agreements, and removal and prohibition orders, which can remove certain management officials from office or disallow them from further involvement in the affairs of any regulated entity. Informal actions, which in many cases will not be publicly available, include memoranda of understanding, supervisory letters, and board resolutions. For the most serious violations under federal banking laws, the Federal Reserve may impose civil money penalties and criminal penalties. Moreover, any enforcement actions taken against Fifth Third Bancorp or Fifth Third Bank may result in regulatory actions being applied to us or ou

As a subsidiary of Fifth Third Bank for bank regulatory purposes, our activities are generally limited to those that are permissible for a national bank. These activities are generally limited to those that are part of, or incidental to, the business of banking. Payment and information processing services are expressly authorized for a national bank. Further, as a condition to Fifth Third Bank's investment in us, we are required under the Amended and Restated Vantiv Holding Limited Liability Company Agreement to limit our activities to those activities permissible for a national bank. Accordingly, under the Amended and Restated Vantiv Holding Limited Liability Company Agreement: (i) we are required to notify Fifth Third Bank before we engage in any activity, by acquisition, investment, organic growth or otherwise, that may reasonably require Fifth Third Bank

or an affiliate of Fifth Third Bank to obtain regulatory approval, so that Fifth Third Bank can determine whether the new activity is permissible, permissible subject to regulatory approval or impermissible; and (ii) if a change in the scope of our business activities causes the ownership of our equity not to be legally permissible for Fifth Third Bank without first obtaining regulatory approvals, then we must use reasonable best efforts to assist Fifth Third Bank in obtaining the regulatory approvals, and if the change in the scope of our business activities is impermissible for Fifth Third Bank, then we will not engage in such activity.

In certain circumstances, prior approval of the Federal Reserve or the ODFI may be required before Fifth Third Bancorp, Fifth Third Bank or their subsidiaries for bank regulatory purposes, including us, can engage in permissible activities. The Federal Reserve has broad powers to approve, deny or refuse to act upon applications or notices for us to conduct new activities, acquire or divest businesses or assets, or reconfigure existing operations. Federal Reserve approval may also be required before any subsidiary for bank regulatory purposes of Fifth Third Bancorp or Fifth Third Bank, including us, engages in activities abroad or invests in a non-U.S. company.

The CFPB, created by the Dodd-Frank Act, assumed most of the regulatory responsibilities previously exercised by the federal banking regulators and other agencies with respect to consumer financial products and services and has additional powers granted by the Dodd-Frank Act. In addition to rulemaking authority over several enumerated federal consumer financial protection laws, the CFPB is authorized to issue rules prohibiting unfair, deceptive or abusive acts or practices by persons offering consumer financial products or services and those, such as us, who are service providers to such persons, and has authority to enforce these consumer financial protection laws and CFPB rules. We are subject to regulation and enforcement by the CFPB because we are an affiliate of Fifth Third Bank (which is an insured depository institution with greater than \$10 billion in assets) for bank regulatory purposes and because we are a service provider to insured depository institutions with assets of \$10 billion or more in connection with their consumer financial products and to entities that are larger participants in markets for consumer financial products and services such as prepaid cards. CFPB rules, examinations and enforcement actions may require us to adjust our activities and may increase our compliance costs.

Collection Services State Licensing

Ancillary to our credit card processing business, we are subject to the Fair Debt Collection Practices Act and various similar state laws. We are authorized in 19 states to engage in debt administration and debt collection activities on behalf of some of our card issuing financial institution clients through calls and letters to the debtors in those states. We may seek licenses in other states to engage in similar activities in the future.

Association and Network Rules

While not legal or governmental regulation, we are subject to the network rules of Visa, MasterCard and other payment networks. The payment networks routinely update and modify their requirements. On occasion, we have received notices of non-compliance and fines, which have typically related to excessive chargebacks by a merchant or data security failures. Our failure to comply with the networks' requirements or to pay the fines they impose could cause the termination of our registration and require us to stop providing payment processing services.

Privacy and Information Security Regulations

We provide services that may be subject to privacy laws and regulations of a variety of jurisdictions. Relevant federal privacy laws include the Gramm-Leach-Bliley Act of 1999, which applies directly to a broad range of financial institutions and indirectly, or in some instances directly, to companies that provide services to financial institutions. These laws and regulations restrict the collection, processing, storage, use and disclosure of personal information, require notice to individuals of privacy practices and provide individuals with certain rights to prevent the use and disclosure of protected information. These laws also impose requirements for safeguarding and proper destruction of personal information through the issuance of data security standards or guidelines. In addition, there are state laws restricting the ability to collect and utilize certain types of information such as Social Security and driver's license numbers. Certain state laws impose similar privacy obligations as well as obligations to provide notification of security breaches of computer databases that contain personal information to affected individuals, state officers and consumer reporting agencies and businesses and governmental agencies that own data.

Processing and Back-Office Services

As a provider of electronic data processing and back-office services to financial institutions we are also subject to regulatory oversight and examination by the Federal Financial Institutions Examination Council, an interagency body of the FDIC, the Office of the Comptroller of the Currency, the Federal Reserve, the National Credit Union Administration and the

CFPB. In addition, independent auditors annually review several of our operations to provide reports on internal controls for our clients' auditors and regulators. We are also subject to review under state laws and rules that regulate many of the same activities that are described above, including electronic data processing and back-office services for financial institutions and use of consumer information.

Anti-Money Laundering and Counter Terrorist Regulation

Our business is subject to U.S. federal anti-money laundering laws and regulations, including the Bank Secrecy Act, as amended by the USA PATRIOT Act of 2001, which we refer to collectively as the BSA. The BSA, among other things, requires money services businesses to develop and implement risk-based anti-money laundering programs, report large cash transactions and suspicious activity and maintain transaction records.

We are also subject to certain economic and trade sanctions programs that are administered by the Treasury Department's Office of Foreign Assets Control, or OFAC, that prohibit or restrict transactions to or from or dealings with specified countries, their governments and, in certain circumstances, their nationals, narcotics traffickers, and terrorists or terrorist organizations.

Similar anti-money laundering, counter terrorist financing and proceeds of crime laws apply to movements of currency and payments through electronic transactions and to dealings with persons specified on lists maintained by organizations similar to OFAC in several other countries and which may impose specific data retention obligations or prohibitions on intermediaries in the payment process.

We have developed and are enhancing compliance programs to monitor and address legal and regulatory requirements and developments.

Federal Trade Commission Act and Other Laws Impacting our Customers' Business

All persons engaged in commerce, including, but not limited to, us and our merchant and financial institution customers are subject to Section 5 of the Federal Trade Commission Act prohibiting unfair or deceptive acts or practices, or UDAP. In addition, there are other laws, rules and or regulations, including the Telemarketing Sales Act, that may directly impact the activities of our merchant customers and in some cases may subject us, as the merchant's payment processor, to investigations, fees, fines and disgorgement of funds in the event we are deemed to have aided and abetted or otherwise provided the means and instrumentalities to facilitate the illegal activities of the merchant through our payment processing services. Various federal and state regulatory enforcement agencies including the Federal Trade Commission, or FTC, and the states' attorneys general have authority to take action against nonbanks that engage in UDAP or violate other laws, rules and regulations and to the extent we are processing payments for a merchant that may be in violation of laws, rules and regulations, we may be subject to enforcement actions and as a result may incur losses and liabilities that may impact our business.

Prepaid Services

Prepaid card programs managed by us are subject to various federal and state laws and regulations, which may include laws and regulations related to consumer and data protection, licensing, consumer disclosures, escheat, anti-money laundering, banking, trade practices and competition and wage and employment. For example, most states require entities engaged in money transmission in connection with the sale of prepaid cards to be licensed as a money transmitter with, and subject to examination by, that jurisdiction's banking department. In the future, we may have to obtain state licenses to expand our distribution network for prepaid cards, which licenses we may not be able to obtain. Furthermore, the Credit Card Accountability Responsibility and Disclosure Act of 2009 and the Federal Reserve's Regulation E impose requirements on general-use prepaid cards, store gift cards and electronic gift certificates. These laws and regulations are evolving, unclear and sometimes inconsistent and subject to judicial and regulatory challenge and interpretation, and therefore the extent to which these laws and rules have application to, and their impact on, us, financial institutions, merchants or others is in flux. At this time we are unable to determine the impact that the clarification of these laws and their future interpretations, as well as new laws, may have on us, financial institutions, merchants or others in a number of jurisdictions. Prepaid services may also be subject to the rules and regulations of Visa, MasterCard and other payment networks with which we and the card issuers do business. The programs in place to process these products generally may be modified by the payment networks in their discretion and such modifications could also impact us, financial institutions, merchants and others.

We are also registered with the Financial Crimes Enforcement Network of the U.S. Department of the Treasury, or FinCEN, as a "money services business-provider of prepaid access" and are subject to examination and review by FinCEN, primarily with respect to anti-money laundering issues.

Housing Assistance Tax Act

The Housing Assistance Tax Act of 2008 requires information returns to be made for each calendar year by merchant acquiring entities and third-party settlement organizations with respect to payments made in settlement of electronic payment transactions and third-party payment network transactions occurring in that calendar year. Reportable transactions are also subject to backup withholding requirements. We could be liable for penalties if our information return is not in compliance with these regulations.

Other

We are subject to U.S. federal and state unclaimed or abandoned property (escheat) laws in the United States which require us to turn over to certain government authorities the property of others we hold that has been unclaimed for a specified period of time such as, in our Merchant Services business, account balances that are due to a merchant following discontinuation of its relationship with us.

The foregoing list of laws and regulations to which we are subject is not exhaustive, and the regulatory framework governing our operations changes continuously. Although we do not believe that compliance with future laws and regulations related to the payment processing industry and our business will have a material adverse effect on our business, financial condition or results of operations, the enactment of new laws and regulations may increasingly affect the operation of our business, directly and indirectly, which could result in substantial regulatory compliance costs, litigation expense, adverse publicity, the loss of revenue and decreased profitability.

Intellectual Property

We rely on a combination of intellectual property laws, confidentiality procedures and contractual provisions to protect our proprietary technology and our brand. We have registered, and applied for the registration of, U.S. and international trademarks, service marks, and domain names. Additionally, we have filed U.S. and international patent applications covering certain of our proprietary technology relating to payment solutions, transaction processing and other matters. Over time, we have assembled a portfolio of patents, trademarks, service marks, copyrights, domain names and trade secrets covering our products and services. Intellectual property is a component of our ability to be a leading payment services provider and any significant impairment of, or third-party claim against, our intellectual property rights could harm our business or our ability to compete.

Employees

As of December 31, 2013, we had 2,791 employees. As of December 31, 2013, this included 724 Merchant Services employees, 117 Financial Institution Services employees, 716 IT employees, 793 operations employees and 441 general and administrative employees. None of our employees are represented by a collective bargaining agreement. We believe that relations with our employees are good.

Corporate Information

We are a Delaware corporation incorporated on March 25, 2009. We completed our initial public offering in March 2012 and our Class A common stock is listed on the New York Stock Exchange under the symbol "VNTV." Our principal executive offices are located at 8500 Governor's Hill Drive, Symmes Township, Ohio 45249, and our telephone number is (513) 900-4811. Our website address is www.vantiv.com.

Available Information

We are subject to the informational requirements of the Securities Exchange Act of 1934 and file or furnish reports, proxy statements, and other information with the U.S. Securities and Exchange Commission, or SEC. You can read our SEC filings over the Internet at the SEC's website at www.sec.gov. Our filings with the SEC, including our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, and any amendments to those reports, also are available free of charge on the investors section of our website at http://investors.vantiv.com when such reports are available on the SEC's website. Further corporate governance information, including our certificate of incorporation, bylaws, governance guidelines, board committee charters, and code of business conduct and ethics, is also available on the investors section of our website.

You may also read and copy any document we file with the SEC at its public reference facilities at 100 F Street, N.E., Room 1580, Washington, DC 20549. You may also obtain copies of the documents at prescribed rates by writing to the Public Reference Section at the SEC at 100 F Street, NE, Room 1580, Washington, DC 20549. Please call the SEC at 1-800-SEC-0330 for further information on the operation of the public reference facilities. The contents of the websites referred to above are not incorporated into this filing or in any other report or document we file with the SEC, and any references to these websites are intended to be inactive textual references only.

Item 1A. Risk Factors

Our business is subject to numerous risks. You should carefully consider the following risk factors and all other information contained in this Annual Report on Form 10-K and in our other filings with the SEC. Any of these risks could harm our business, results of operations, and financial condition and our prospects.

Risks Related to Our Business

If we cannot keep pace with rapid developments and change in our industry and provide new services to our clients, the use of our services could decline, reducing our revenues.

The electronic payments market in which we compete is subject to rapid and significant changes. This market is characterized by rapid technological change, new product and service introductions, evolving industry standards, changing customer needs and the entrance of non-traditional competitors. In order to remain competitive, we are continually involved in a number of projects to develop new services or compete with these new market entrants, including ecommerce services, the development of mobile phone payment applications, prepaid card offerings, and other new offerings emerging in the electronic payments industry. These projects carry risks, such as cost overruns, delays in delivery, performance problems and lack of customer acceptance. In the electronic payments industry these risks are acute. Any delay in the delivery of new services or the failure to differentiate our services or to accurately predict and address market demand could render our services less desirable, or even obsolete, to our clients. Furthermore, even though the market for alternative payment processing services is evolving, it may not continue to develop rapidly enough for us to recover the costs we have incurred in developing new services targeted at this market.

In addition, the services we deliver are designed to process very complex transactions and provide reports and other information on those transactions, all at very high volumes and processing speeds. Any failure to deliver an effective and secure service or any performance issue that arises with a new service could result in significant processing or reporting errors or other losses. As a result of these factors, our development efforts could result in increased costs and/or we could also experience a loss in business that could reduce our earnings or could cause a loss of revenue if promised new services are not timely delivered to our clients or do not perform as anticipated. We also rely in part on third parties, including some of our competitors and potential competitors, for the development of, and access to new technologies. Our future success will depend in part on our ability to develop or adapt to technological changes and evolving industry standards. If we are unable to develop, adapt to or access technological changes or evolving industry standards on a timely and cost effective basis, our business, financial condition and results of operations would be materially adversely affected.

Furthermore, our competitors may have the ability to devote more financial and operational resources than we can to the development of new technologies and services, including ecommerce and mobile payment processing services, that provide improved operating functionality and features to their existing service offerings. If successful, their development efforts could render our services less desirable to clients, resulting in the loss of clients or a reduction in the fees we could generate from our offerings.

The payment processing industry is highly competitive, and we compete with certain firms that are larger and that have greater financial resources. Such competition could adversely affect the transaction and other fees we receive from merchants and financial institutions, and as a result, our margins, business, financial condition and results of operations.

The market for payment processing services is highly competitive. Other providers of payment processing services have established a sizable market share in the small and mid-sized merchant and financial institution processing and servicing sector, as well as servicing large merchants and financial institutions, which are the markets in which we are principally focused. We also face competition from non-traditional payment processors that have significant financial resources. Our growth will depend on a combination of the continued growth of electronic payments and our ability to increase our market share. Any weakness in the economy or the current economic recovery could cause future growth of electronic payments to slow compared to historical rates of growth.

Our competitors include financial institutions, subsidiaries of financial institutions and well-established payment processing companies, including Bank of America Merchant Services, Chase Paymentech Solutions, Elavon Inc. (a subsidiary of U.S. Bancorp), First Data Corporation, Global Payments, Inc., Heartland Payment Systems, Inc., Total System Services, Inc. and WorldPay US, Inc. in our Merchant Services segment, and Fidelity National Information Services, Inc., First Data Corporation, Fiserv, Inc., Total System Services, Inc. and Visa Debit Processing Service in our Financial Institution Services segment. With respect to our Financial Institutions Services segment, in addition to competition with direct competitors, we also compete with the capabilities of many larger potential clients that have either historically developed their key payment

processing applications in-house, or have recently moved such application in-house, and therefore weigh whether they should develop these capabilities in-house or acquire them from a third party.

Our competitors that are financial institutions or are affiliated with financial institutions may not incur the sponsorship costs we incur for registration with the payment networks. Many of our competitors also have substantially greater financial, technological and marketing resources than we have. Accordingly, these competitors may be able to offer more attractive fees to our current and prospective clients, or especially with respect to our financial institution clients, other services that we do not offer. Competition may influence the fees we receive. If competition causes us to reduce the fees we charge, we will have to aggressively control our costs in order to maintain our profit margins. Competition could also result in a loss of existing clients, and greater difficulty attracting new clients, which we may not be able to do. One or more of these factors could have a material adverse effect on our business, financial condition and results of operations.

Furthermore, we are facing new competition emerging from non-traditional competitors offering alternative payment methods, such as PayPal and Google. These non-traditional competitors have significant financial resources and robust networks and are highly regarded by consumers. If these non-traditional competitors gain a greater share of total electronic payments transactions, it could also have material adverse effect on our business, financial condition and results of operations.

Unauthorized disclosure of data, whether through cybersecurity breaches, computer viruses or otherwise, could expose us to liability, protracted and costly litigation and damage our reputation.

We are responsible for certain third parties under Visa, MasterCard and other payment network rules and regulations, including merchants, ISOs, third party service providers and other agents, which we refer to collectively as associated participants. We and certain of our associated participants process, store and/or transmit sensitive data, such as names, addresses, social security numbers, credit or debit card numbers, driver's license numbers and bank account numbers, and we have ultimate liability to the payment networks and member financial institutions that register us with Visa, MasterCard and other payment networks for our failure or the failure of our associated participants to protect this data in accordance with payment network requirements. The loss of merchant or cardholder data by us or our associated participants could result in significant fines and sanctions by the payment networks or governmental bodies, which could have a material adverse effect on our business, financial condition and results of operations.

These concerns about security are increased when we transmit information over the Internet. Computer viruses can be distributed and spread rapidly over the Internet and could infiltrate our systems, which might disrupt our delivery of services and make them unavailable. In addition, a significant cybersecurity breach could result in payment networks prohibiting us from processing transactions on their networks or the loss of our financial institution sponsorship that facilitates our participation in the payment networks.

We and our associated participants have been in the past and could be in the future, subject to breaches of security by hackers. In such circumstances, our encryption of data and other protective measures have not prevented and may not prevent unauthorized access. Although we have not incurred material losses or liabilities as a result of those breaches, a future breach of our system or that of one of our associated participants may subject us to material losses or liability, including payment network fines and assessments and claims for unauthorized purchases with misappropriated credit, debit or card information, impersonation or other similar fraud claims. A misuse of such data or a cybersecurity breach could harm our reputation and deter clients from using electronic payments generally and our services specifically, increase our operating expenses in order to correct the breaches or failures, expose us to uninsured liability, increase our risk of regulatory scrutiny, subject us to lawsuits, result in the imposition of material penalties and fines under state and federal laws or by the payment networks, and adversely affect our continued payment network registration and financial institution sponsorship.

We cannot assure you that there are written agreements in place with every associated participant or that such written agreements will prevent the unauthorized use or disclosure of data or allow us to seek reimbursement from associated participants. Any such unauthorized use or disclosure of data could result in protracted and costly litigation, which could have a material adverse effect on our business, financial condition and results of operations.

Our systems and our third party providers' systems may fail due to factors beyond our control, which could interrupt our service, cause us to lose business and increase our costs.

We depend on the efficient and uninterrupted operation of numerous systems, including our computer systems, software, data centers and telecommunications networks, as well as the systems of third parties. Our systems and operations or those of our third party providers, could be exposed to damage or interruption from, among other things, fire, natural disaster, power loss, telecommunications failure, unauthorized entry and computer viruses. Our property and business interruption

insurance may not be adequate to compensate us for all losses or failures that may occur. Defects in our systems or those of third parties, errors or delays in the processing of payment transactions, telecommunications failures or other difficulties could result in:

- · loss of revenues;
- loss of clients;
- loss of merchant and cardholder data;
- fines imposed by payment network associations;
- harm to our business or reputation resulting from negative publicity;
- exposure to fraud losses or other liabilities;
- additional operating and development costs; and/or
- diversion of technical and other resources.

We may not be able to continue to expand our share of the existing payment processing markets or expand into new markets which would inhibit our ability to grow and increase our profitability.

Our future growth and profitability depend, in part, upon our continued expansion within the markets in which we currently operate, the further expansion of these markets, the emergence of other markets for payment processing, and our ability to penetrate these markets. Future growth and profitability of our business will depend upon our ability to penetrate other markets for payment processing. We may not be able to successfully identify suitable acquisition, investment and partnership or joint venture candidates in the future, and if we do, they may not provide us with the benefits we anticipated. Once completed, investments, partnerships and joint ventures may not realize the value that we expect.

Our expansion into new markets is also dependent upon our ability to apply our existing technology or to develop new applications to meet the particular service needs of each new market. We may not have adequate financial or technological resources to develop effective and secure services or distribution channels that will satisfy the demands of these new markets. If we fail to expand into new and existing payment processing markets, we may not be able to continue to grow our revenues and earnings.

Furthermore, in response to market developments, we may expand into new geographical markets and foreign countries in which we do not currently have any operating experience. We cannot assure you that we will be able to successfully expand in such markets or internationally due to our lack of experience and the multitude of risks associated with global operations or lack of appropriate regulatory approval. In addition, for purposes of the Bank Holding Company Act of 1956, as amended, or the BHC Act, we are deemed to be a subsidiary of Fifth Third Bank. For so long as we continue to be considered a subsidiary of a bank, we may only engage in activities that are permissible for the bank to engage in directly. This range of activities may limit our ability to acquire other businesses, enter into other strategic transactions, or expand into foreign countries.

Any acquisitions, partnerships or joint ventures that we make could disrupt our business and harm our financial condition.

Acquisitions, partnerships and joint ventures are part of our growth strategy. We evaluate, and expect in the future to evaluate potential strategic acquisitions of and partnerships or joint ventures with complementary businesses, services or technologies. We may not be able to successfully finance or integrate any businesses, services or technologies that we acquire or with which we form a partnership or joint venture. Furthermore, the integration of any acquisition, including our recent acquisitions, may divert management's time and resources from our core business and disrupt our operations. Certain partnerships and joint ventures we make may prevent us from competing for certain clients or in certain lines of business. We may spend time and money on projects that do not increase our revenue. As noted above under "We may not be able to continue to expand our share of the existing payment processing markets or expand into new markets which would inhibit our ability to grow and increase our profitability", for so long as we continue to be considered a subsidiary of a bank under the BHC Act and other relevant federal and state banking laws, we face restrictions under such laws with respect to the activities we may conduct. These activities and restrictions may limit our ability to acquire other businesses or enter into other strategic transactions. In addition, in connection with any acquisitions, we must comply with state and federal antitrust requirements. It is possible that perceived or actual violations of these requirements could give rise to regulatory enforcement action or result in us not receiving all necessary approvals in order to complete a desired acquisition. To the extent we pay the purchase price of any acquisition in cash, it would reduce our cash reserves, and to the extent the purchase price is paid with

our stock, it could be dilutive to our stockholders. To the extent we pay the purchase price with proceeds from the incurrence of debt, it would increase our already high level of indebtedness and could negatively affect our liquidity and restrict our operations. Our competitors may be willing or able to pay more than us for acquisitions, which may cause us to lose certain acquisitions that we would otherwise desire to complete. In addition, pursuant to the Fifth Third Bank consent rights in our amended and restated certificate of incorporation and the Amended and Restated Vantiv Holding Limited Liability Company Agreement, for so long as such rights remain applicable, Fifth Third Bank's approval is required for acquisitions and incurrences of indebtedness by us based on certain thresholds. We cannot ensure that any acquisition, partnership or joint venture we make will not have a material adverse effect on our business, financial condition and results of operations.

If we fail to comply with the applicable requirements of the Visa, MasterCard or other payment networks, those payment networks could seek to fine us, suspend us or terminate our registrations through our financial institution sponsors. Fines could have a material adverse effect on our business, financial condition or results of operations, and if these registrations are terminated, we may not be able to conduct our business.

In order to provide our transaction processing services, we are registered through our bank partnerships with the Visa, MasterCard and other payment networks as service providers for member institutions. We and many of our clients are subject to card association and payment network rules that could subject us or our clients to a variety of fines or penalties that may be levied by the card associations or payment networks for certain acts or omissions by us or our associated participants. If we do not comply with the payment network requirements, the payment networks could seek to fine us, suspend us or terminate our registrations. On occasion, we have received notices of noncompliance and fines, which have typically related to excessive chargebacks by a merchant or data security failures on the part of a merchant. If we are unable to recover fines from or pass through costs to our merchants or other associated participants, we would experience a financial loss. The termination of our registration, or any changes in the payment network rules that would impair our registration, could require us to stop providing payment network services to the Visa, MasterCard or other payment networks, which would have a material adverse effect on our business, financial condition and results of operations.

Changes in payment network rules or standards could adversely affect our business, financial condition and results of operations.

Payment network rules are established and changed from time to time by each payment network as they may determine in their sole discretion and with or without advance notice to their participants. Payment networks generally establish their rules to allocate responsibilities among the payment networks' participants and generally structure and change such rules for any number of reasons, including as a result of changes in the regulatory environment, to maintain or attract new participants or to serve their own strategic initiatives. In some cases, payment networks compete with us, and their ability to modify and enhance their rules in their sole discretion may provide them an advantage in selling or developing their own services that may compete directly or indirectly with our services. Any changes in card association or other payment network rules or standards, including interpretation and implementation of the rules or standards, that increase our cost of doing business or limit our ability to provide transaction processing services to or through our clients, could have a material adverse effect on our business, financial condition and results of operations.

If we cannot pass increases from payment networks including interchange, assessment, transaction and other fees along to our merchants, our operating margins will be reduced.

We pay interchange and other fees set by the payment networks to the card issuing financial institution and the payment networks for each transaction we process. From time to time, the payment networks increase the interchange fees and other fees that they charge payment processors and the financial institution sponsors. At their sole discretion, our financial institution sponsors have the right to pass any increases in interchange and other fees on to us and they have consistently done so in the past. We are generally permitted under the contracts into which we enter, and in the past we have been able to, pass these fee increases along to our merchants through corresponding increases in our processing fees. However, if we are unable to pass through these and other fees in the future, it could have a material adverse effect on our business, financial condition and results of operations.

We rely on financial institution sponsors, which have substantial discretion with respect to certain elements of our business practices, and financial institution clearing service providers, in order to process electronic payment transactions. If these sponsorships or clearing services are terminated and we are unable to secure new bank sponsors or financial institutions, we will not be able to conduct our business.

Because we are not a bank, we are not eligible for membership in the Visa, MasterCard or other payment networks and are, therefore, unable to directly access the payment networks, which are required to process transactions. The Visa, MasterCard and other payment network operating regulations require us to be sponsored by a member bank in order to process electronic payment transactions. We are currently registered with the Visa, MasterCard and other payment networks through Fifth Third Bank and other sponsor banks. Our current agreement with Fifth Third Bank expires in June 2019. Furthermore, our agreements with our financial institution sponsors give them substantial discretion in approving certain aspects of our business practices, including our solicitation, application and qualification procedures for merchants and the terms of our agreements with merchants. Our financial institution sponsors' discretionary actions under these agreements could have a materially adverse effect on our business, financial condition and results of operations. We also rely on various financial institutions to provide clearing services in connection with our settlement activities. If our sponsorships or clearing services agreements are terminated and we are unable to secure another bank sponsor or clearing service provider, we will not be able to process Visa, MasterCard and other payment network transactions or settle transactions which would have a material adverse effect on our business, financial condition and results of operations.

Increased merchant or referral partner attrition could cause our revenues to decline.

We experience attrition in merchant credit, debit or prepaid card processing volume resulting from several factors, including business closures, transfers of merchants' accounts to our competitors and account closures that we initiate due to heightened credit risks relating to contract breaches by merchants or a reduction in same store sales. Our referral partners, such as merchant banks; technology partners, which include ISVs, VARs and payment facilitators; ISOs and trade associations, which purchase and resell our electronic payments services to their own portfolios of merchant customers, are strong contributors to our revenue growth in our Merchant Services segment. If an ISO or referral partner switches to another transaction processor, shuts down or becomes insolvent, we will no longer receive new merchant referrals from the ISO or referral partner, and we risk losing existing merchants that were originally enrolled by the ISO or referral partner. NPC, which was acquired in 2010, has higher rates of attrition due to the makeup of its customer base, which primarily consists of small and mid-sized merchants. We cannot predict the level of attrition in the future and our revenues could decline as a result of higher than expected attrition, which could have a material adverse effect on our business, financial condition and results of operations.

If we do not successfully renew or renegotiate our agreements with our clients or referral partners, our business will suffer.

Our revenue is derived primarily under contracts with clients and referral partners, such as merchant banks; technology partners, which include ISVs, VARs and payment facilitators; ISOs and trade associations. Consolidation among financial institutions and merchants could result in an increasingly concentrated client base. The financial position of our clients, ISOs and other referral partners, and their willingness to pay for our services, are affected by general market conditions, competitive pressures and operating margins within their respective industries. Contract renewal or renegotiation time presents our clients, ISOs and other referral partners with the opportunity to consider other providers. The loss or renegotiation of our contracts with existing clients, ISOs or referral partners or a significant decline in the number of transactions we process for them or the pricing we charge them could have a material adverse effect on our business, financial condition and results of operations.

We are subject to economic and political risk, the business cycles and credit risk of our clients and the overall level of consumer, business and government spending, which could negatively impact our business, financial condition and results of operations.

The electronic payments industry depends heavily on the overall level of consumer, business and government spending. We are exposed to general economic conditions that affect consumer confidence, consumer spending, consumer discretionary income or changes in consumer purchasing habits. A sustained deterioration in general economic conditions, particularly in the United States, or increases in interest rates may adversely affect our financial performance by reducing the number or average purchase amount of transactions made using electronic payments. A reduction in the amount of consumer spending could result in a decrease in our revenue and profits. If cardholders of our financial institution clients make fewer transactions with their cards, our merchant clients make fewer sales of their products and services using electronic payments or people spend less money per transaction, we will have fewer transactions to process at lower dollar amounts, resulting in lower revenue.

A further weakening in the economy could have a negative impact on our clients, as well as their customers who purchase products and services using our payment processing systems, which could, in turn, negatively impact our business, financial condition and results of operations, particularly if the recessionary environment disproportionately affects some of the discretionary market segments that represent a larger portion of our payment processing volume. In addition, a further

weakening in the economy could force retailers to close, resulting in exposure to potential credit losses and future transaction declines. Furthermore, credit card issuers could reduce credit limits, close accounts, and become more selective with respect to whom they issue credit cards. We also have a certain amount of fixed and semi-fixed costs, including rent, debt service, processing contractual minimums and salaries, which could limit our ability to quickly adjust costs and respond to changes in our business and the economy. Changes in economic conditions could also adversely impact our future revenues and profits and cause a materially adverse effect on our business, financial condition and results of operations.

In addition, a recessionary economic environment could affect our merchants through a higher rate of bankruptcy filings, resulting in lower revenues and earnings for us. Our merchants are liable for any charges properly reversed by the card issuer on behalf of the cardholder. Our associated participants are also liable for any fines, or penalties, that may be assessed by any payment networks. In the event that we are not able to collect such amounts from the associated participants, due to fraud, breach of contract, insolvency, bankruptcy or any other reason, we may be liable for any such charges. Furthermore, in the event of a closure of a merchant, we are unlikely to receive our fees for any transactions processed by that merchant in its final months of operation, all of which would negatively impact our business, financial condition and results of operations.

We incur liability when our merchants refuse or cannot reimburse us for chargebacks resolved in favor of their customers, fees, fines or other assessments we incur from the payment networks. We cannot accurately anticipate these liabilities, which may adversely affect our business, financial condition and results of operations.

In the event a dispute between a cardholder and a merchant is not resolved in favor of the merchant, the transaction is normally charged back to the merchant and the purchase price is credited or otherwise refunded to the cardholder. If we are unable to collect such amounts from the merchant's account or reserve account (if applicable), or if the merchant refuses or is unable, due to closure, bankruptcy or other reasons, to reimburse us for a chargeback, we may bear the loss for the amount of the refund paid to the cardholder. The risk of chargebacks is typically greater with those merchants that promise future delivery of goods and services rather than delivering goods or rendering services at the time of payment. We may experience significant losses from chargebacks in the future. Any increase in chargebacks not paid by our merchants could have a materially adverse effect on our business, financial condition and results of operations.

Fraud by merchants or others could have a material adverse effect on our business, financial condition and results of operations.

We face potential liability for fraudulent electronic payment transactions or credits initiated by merchants or others. Examples of merchant fraud include when a merchant or other party knowingly uses a stolen or counterfeit credit, debit or prepaid card, card number or other credentials to record a false sales transaction, processes an invalid card, or intentionally fails to deliver the merchandise or services sold in an otherwise valid transaction. Criminals are using increasingly sophisticated methods to engage in illegal activities such as counterfeiting and fraud. It is possible that incidents of fraud could increase in the future. Failure to effectively manage risk and prevent fraud would increase our chargeback liability or other liability. Increases in chargebacks or other liability could have a material adverse effect on our business, financial condition and results of operations.

A decline in the use of credit, debit or prepaid cards as a payment mechanism for consumers or adverse developments with respect to the payment processing industry in general could have a materially adverse effect on our business, financial condition and results of operations.

If consumers do not continue to use credit, debit or prepaid cards as a payment mechanism for their transactions or if there is a change in the mix of payments between cash, credit, debit and prepaid cards which is adverse to us, it could have a materially adverse effect on our business, financial condition and results of operations. In response to rules implementing the Durbin Amendment, financial institutions may charge their customers additional fees for the use of debit cards. If such fees result in decreased use of debit cards by cardholders, our business, financial condition and results of operations may be adversely affected. In addition, on November 29, 2012, the court preliminary approved a definitive class settlement agreement to resolve the plaintiff's claims in the U.S. merchant class multi-district interchange litigation against Visa, MasterCard and the named member banks. Among other terms, the settlement agreement provides for the modification of Visa and MasterCard's rules to allow retailers to impose a surcharge on credit card transactions at the point of sale under certain conditions. This provision or other provisions in the final settlement agreement if finally approved may result in decreased use of credit cards or have other adverse impacts that are not readily known and that we may not know for some time. We believe future growth in the use of credit, debit and prepaid cards and other electronic payments will be driven by the cost, ease-of-use, and quality of services offered to consumers and businesses. In order to consistently increase and maintain our profitability, consumers and businesses must continue to use electronic payment methods including, credit, debit and prepaid cards. Moreover, if there is an

adverse development in the payments industry in general, such as new legislation or regulation that makes it more difficult for our clients to do business, our business, financial condition and results of operations may be adversely affected.

Continued consolidation in the banking and retail industries could adversely affect our growth.

Historically, the banking industry has been the subject of consolidation, regardless of overall economic conditions, while the retail industry has been the subject of consolidation due to cyclical economic events. As banks and retail merchants consolidate, our ability to successfully offer our services will depend in part on whether the institutions that survive are willing to outsource their electronic payment processing to third party vendors and whether those institutions have pre-existing relationships with us or any of our competitors. Larger banks and merchants with greater transaction volumes may demand lower fees, which could result in lower revenues and earnings for us. In addition, in times of depressed economic conditions, similar to those experienced in the last few years, a higher number of financial institutions are taken over by the Federal Deposit Insurance Corporation, or FDIC. The government seizure of a potential or current financial institution customer could have a negative effect on our business, by eliminating the institution's need for our services or by voiding any contracts we may have had in place with such institution.

If Fifth Third Bank fails or is acquired by a third party, it could place certain of our material contracts at risk, decrease our revenue, and transfer the ultimate voting power of Fifth Third Bank's stock ownership in us (including any shares of Class A common stock that may be issued in exchange for Fifth Third Bank's units in Vantiv Holding) to a third party.

Fifth Third Bank accounted for approximately 4% of our revenue during the years ended December 31, 2013 and 2012 and is the provider of the services under our Clearing, Settlement and Sponsorship Agreement, Referral Agreement and Master Services Agreement. If Fifth Third Bank were to be placed into receivership or conservatorship, it could jeopardize our ability to generate revenue and conduct our business.

If Fifth Third Bank were to be acquired by a third party, it could affect certain of our contractual arrangements with them. For instance, in the event of a change of control or merger of Fifth Third Bank, our Clearing, Settlement and Sponsorship Agreement and our Referral Agreement provide that Fifth Third Bank may assign the contract to an affiliate or successor, in which case we would not have the right to terminate the contract regardless of such assignee's ability to perform such services. Our Master Services Agreement provides that Fifth Third Bank would be in default under the agreement upon a change of control, in which case we would have the right to terminate the agreement effective upon 60 days notice to Fifth Third Bank unless the surviving entity assumes Fifth Third Bank's obligation and the level of fees paid to us pursuant to the Master Services Agreement remains equal or greater than fees paid to us prior to the change of control. In addition, the acquiring company may choose to terminate the terms of such contracts, requiring us to litigate if we believe such termination is not pursuant to contract terms, and find alternative clients, counterparties or sponsorships. The added expense of litigation and the inability to find suitable substitute clients or counterparties in a timely manner would have a material adverse effect on our business, financial condition and results of operations. Furthermore, such an acquisition would place in the hands of the acquiring third party the voting power of Fifth Third Bank's stock ownership in Vantiv, Inc. (including any shares of Class A common stock that may be issued in exchange for Fifth Third Bank's units in Vantiv Holding) and, in some circumstances, certain of Fifth Third Bank's consent rights in Vantiv, Inc. and Vantiv Holding. We may not have a historical relationship with the acquiring party, and the acquiring party may be a competitor of ours or provide many of the same services that we provide. The acquiring party may vote its shares of our common

Our risk management policies and procedures may not be fully effective in mitigating our risk exposure in all market environments or against all types of risks.

We operate in a rapidly changing industry, and we have experienced significant change including our separation from Fifth Third Bank in June 2009, certain acquisitions and our March 2012 initial public offering and listing on the New York Stock Exchange. Accordingly, our risk management policies and procedures may not be fully effective to identify, monitor and manage our risks. Some of our risk evaluation methods depend upon information provided by others and public information regarding markets, clients or other matters that are otherwise inaccessible by us. In some cases, however, that information may not be accurate, complete or up-to-date. If our policies and procedures are not fully effective or we are not always successful in capturing all risks to which we are or may be exposed, we may suffer harm to our reputation or be subject to litigation or regulatory actions that could have a material adverse effect on our business, financial condition and results of operations.

We are subject to extensive government regulation, and any new laws and regulations, industry standards or revisions made to existing laws, regulations, or industry standards affecting the electronic payments industry and other industries in which we operate may have an unfavorable impact on our business, financial condition and results of operations.

Our business is impacted by laws and regulations that affect our industry. The number of new and proposed regulations has increased significantly, particularly pertaining to interchange fees on credit and debit card transactions, which are paid to the card issuing financial institution. In July 2010, Congress passed the Dodd-Frank Wall Street Reform and Consumer Protection Act, or the Dodd-Frank Act, which significantly changed financial regulation. Changes affecting the payment processing industry include restricting amounts of debit card fees that certain issuing financial institutions can charge merchants and allowing merchants to set minimum dollar amounts for the acceptance of credit cards and offer discounts for different payment methods. These restrictions could negatively affect the number of debit transactions, and prices charged per transaction, which would negatively affect our business. The Dodd-Frank Act also created a new Consumer Financial Protection Bureau, or the CFPB, that became operational on July 21, 2011 and assumed responsibility for most federal consumer protection laws in the area of financial services, including consumer credit. The so-called Durbin Amendment to the Dodd-Frank Act mandates a cap on debit transaction interchange fees for card issuers with assets greater than \$10 billion.

In the future, due to applicable law and regulation, we may have to obtain state licenses to expand our distribution network for prepaid cards, which licenses we may not be able to obtain. If we fail or are unable to comply with these requirements, our clients (or in certain instances, we) could be subject to the imposition of fines, civil liability (and/or in the case of willful and deliberate non-compliance, criminal liability) which may impact our ability to offer our credit issuer processing services, prepaid or other related services which could have a material adverse effect on our business, financial condition and results of operations.

All persons engaged in commerce, including, but not limited to, us and our merchant and financial institution customers are subject to Section 5 of the Federal Trade Commission Act prohibiting unfair or deceptive acts or practices, or UDAP. In addition, there are other laws, rules and or regulations, including the Telemarketing Sales Act, that may directly impact the activities of our merchant customers and in some cases may subject us, as the merchant's payment processor, to investigations, fees, fines and disgorgement of funds in the event we are deemed to have aided and abetted or otherwise provided the means and instrumentalities to facilitate the illegal activities of the merchant through our payment processing services. Various federal and state regulatory enforcement agencies including the Federal Trade Commission, or FTC, and the states' attorneys general have authority to take action against nonbanks that engage in UDAP or violate other laws, rules and regulations and to the extent we are processing payments for a merchant that may be in violation of laws, rules and regulations, we may be subject to enforcement actions and as a result may incur losses and liabilities that may impact our business.

Because our business is highly regulated and subject to the above-discussed laws and requirements, it is very important to our business that our operations, policies and procedures comply with such laws and requirements. These and other laws and regulations could adversely affect our business, financial condition and results of operations. In addition, any failure to comply with laws and regulations, even if inadvertent, as well as rapidly evolving social expectations of corporate fairness, could damage our business or our reputation.

Governmental regulations designed to protect or limit access to consumer information could adversely affect our ability to effectively provide our services to merchants.

Governmental bodies in the United States and abroad have adopted, or are considering the adoption of, laws and regulations restricting the transfer of, and requiring safeguarding of, non-public personal information. For example, in the United States, all financial institutions must undertake certain steps to ensure the privacy and security of consumer financial information. While our operations are subject to certain provisions of these privacy laws, we have limited our use of consumer information solely to providing services to other businesses and financial institutions. In connection with providing services to our clients, we are required by regulations and contracts with our merchants and financial institution clients to provide assurances regarding the confidentiality and security of non-public consumer information. These contracts require periodic audits by independent companies regarding our compliance with industry standards and also allow for similar audits regarding best practices established by regulatory guidelines. The compliance standards relate to our infrastructure, components and operational procedures designed to safeguard the confidentiality and security of non-public consumer personal information shared by our clients with us. Our ability to maintain compliance with these standards and satisfy these audits will affect our ability to attract and maintain business in the future. If we fail to comply with these regulations, we could be exposed to suits for breach of contract or to governmental proceedings. In addition, our client relationships and reputation could be harmed, and we could be inhibited in our ability to obtain new clients. If more restrictive privacy laws or rules are adopted by authorities in the future on the federal or state level, our compliance costs may increase, our opportunities for growth may be curtailed by our compliance capabilities or reputational harm and our potential liability for security breaches may increase, all of which could have a material adverse effect on

For purposes of federal and state banking laws, we are deemed to be controlled by Fifth Third Bank and Fifth Third Bancorp, and as such we are subject to supervision and examination by federal and state banking regulators, and our

activities are limited to those permissible for Fifth Third Bank and Fifth Third Bancorp. We may therefore be restricted from engaging in new activities or businesses, whether organically or by acquisition. We are also subject to supervision and examination by the Federal Consumer Financial Protection

As of December 31, 2013, Fifth Third Bank owned an equity interest representing approximately 25.6% of the voting and economic equity interest of Vantiv Holding and 18.5% of the voting interest in Vantiv, Inc.

We and Vantiv Holding historically have been, and are currently, deemed to be controlled by Fifth Third Bancorp and Fifth Third Bank and are therefore considered to be a subsidiary of Fifth Third Bank for purposes of relevant federal and state banking laws. We are therefore subject to regulation and supervision by the Federal Reserve and the Ohio Division of Financial Institutions, or the ODFI. We will remain subject to regulation and examination until Fifth Third Bancorp and Fifth Third Bank are no longer deemed to control us for bank regulatory purposes. The BHC Act and relevant federal and state banking laws and regulations include different thresholds for regulatory purposes to define control as compared to GAAP requirements, and as a result, Fifth Third Bancorp does not consolidate Vantiv Holding for financial reporting purposes, we have consolidated the results of Vantiv Holding due to our ownership of a majority voting ownership interest in Vantiv Holding.

For as long as we are deemed to be controlled by Fifth Third Bancorp and Fifth Third Bank for bank regulatory purposes, we are subject to regulation, supervision, examination and potential enforcement action by the Federal Reserve and the ODFI and to most banking laws, regulations and orders that apply to Fifth Third Bancorp and Fifth Third Bank. Any restrictions placed on Fifth Third Bancorp or Fifth Third Bank as a result of any supervisory actions may also restrict us or our activities in certain circumstances, even if these actions are unrelated to our conduct or business. Further, as long as we are deemed to be controlled by Fifth Third Bank, our activities are limited to those that are permissible for Fifth Third Bank to engage in, which include activities that are part of, or incidental to, the business of banking. Accordingly, we are subject to a covenant in the Amended and Restated Vantiv Holding Limited Liability Company Agreement that is intended to facilitate compliance by Fifth Third Bank with relevant federal and state banking laws.

In addition, new activities that we may wish to commence in the future may not be permissible for us under relevant federal or state banking laws, or may require prior regulatory approvals. More generally, the Federal Reserve has broad powers to approve, deny or refuse to act upon applications or notices for us to conduct new activities, acquire or divest businesses or assets, or reconfigure existing operations.

Because of the foregoing limitations, and in particular, Fifth Third Bank's interest in us, it may be difficult for us to engage in activities abroad or invest in a non-U.S. company. We and Fifth Third Bank may seek to engage in offshore acquisitions and activities through various regulatory structures and entities, each of which will generally require prior regulatory approval. The Federal Reserve and the ODFI would therefore have substantial discretion as to whether any such regulatory structures or entities could be utilized, whether we would be permitted to operate or invest in a non-U.S. company, and under what conditions such structures or entities could operate.

In light of the foregoing, there can be no assurance that we will be able to successfully engage in activities abroad or invest in a non-U.S. company. Any activities or other regulatory restrictions or approval requirements applicable to us as a result of our affiliation for bank regulatory purposes with Fifth Third Bancorp and Fifth Third Bank may inhibit our expansion into new markets or new business lines and may limit our ability to acquire other businesses or enter into other strategic transactions, which may in turn have a material adverse effect on our business, financial condition and results of operations.

We are subject to regulation and enforcement by the CFPB because we are an affiliate of Fifth Third Bank (which is an insured depository institution with greater than \$10 billion in assets) for bank regulatory purposes and because we are a service provider to insured depository institutions with assets of \$10 billion or more in connection with their consumer financial products and to entities that are larger participants in markets for consumer financial products and services such as prepaid cards. CFPB rules and examinations may require us to adjust our activities and may increase our compliance costs, which could have a material adverse effect on our business, financial condition and results of operations.

The costs and effects of pending and future litigation, investigations or similar matters, or adverse facts and developments related thereto, could materially affect our business, financial position and results of operations.

We are involved in various litigation matters and from time to time may be involved in governmental or regulatory investigations or similar matters arising out of our current or future business. Our insurance or indemnities may not cover all claims that may be asserted against us, and any claims asserted against us, regardless of merit or eventual outcome, may harm

our reputation. Furthermore, there is no guarantee that we will be successful in defending ourselves in pending or future litigation or similar matters under various laws. Should the ultimate judgments or settlements in any pending litigation or future litigation or investigation significantly exceed our insurance coverage, they could have a material adverse effect on our business, financial condition and results of operations.

We may not be able to successfully manage our intellectual property and may be subject to infringement claims.

We rely on a combination of contractual rights and copyright, trademark, patent and trade secret laws to establish and protect our proprietary technology. Third parties may challenge, invalidate, circumvent, infringe or misappropriate our intellectual property, or such intellectual property may not be sufficient to permit us to take advantage of current market trends or otherwise to provide competitive advantages, which could result in costly redesign efforts, discontinuance of certain service offerings or other competitive harm. Others, including our competitors may independently develop similar technology, duplicate our services or design around our intellectual property, and in such cases we could not assert our intellectual property rights against such parties. Further, our contractual arrangements may not effectively prevent disclosure of our confidential information or provide an adequate remedy in the event of unauthorized disclosure of our confidential information. We may have to litigate to enforce or determine the scope and enforceability of our intellectual property rights, trade secrets and know-how, which is expensive, could cause a diversion of resources and may not prove successful. Also, because of the rapid pace of technological change in our industry, aspects of our business and our services rely on technologies developed or licensed by third parties, and we may not be able to obtain or continue to obtain licenses and technologies from these third parties on reasonable terms or at all. The loss of intellectual property protection or the inability to obtain third party intellectual property could harm our business and ability to compete.

We may also be subject to costly litigation in the event our services and technology infringe upon or otherwise violate a third party's proprietary rights. Third parties may have, or may eventually be issued, patents that could be infringed by our services or technology. Any of these third parties could make a claim of infringement against us with respect to our services or technology. We may also be subject to claims by third parties for breach of copyright, trademark, license usage or other intellectual property rights. Any claim from third parties may result in a limitation on our ability to use the intellectual property subject to these claims. Additionally, in recent years, individuals and groups have been purchasing intellectual property assets for the sole purpose of making claims of infringement and attempting to extract settlements from companies like ours. Even if we believe that intellectual property related claims are without merit, defending against such claims is time consuming and expensive and could result in the diversion of the time and attention of our management and employees. Claims of intellectual property infringement also might require us to redesign affected services, enter into costly settlement or license agreements, pay costly damage awards, or face a temporary or permanent injunction prohibiting us from marketing or selling certain of our services. Even if we have an agreement for indemnification against such costs, the indemnifying party, if any in such circumstances, may be unable to uphold its contractual obligations. If we cannot or do not license the infringed technology on reasonable terms or substitute similar technology from another source, our revenue and earnings could be adversely impacted.

Finally, we use open source software in connection with our technology and services. Companies that incorporate open source software into their products have, from time to time, faced claims challenging the ownership of open source software. As a result, we could be subject to suits by parties claiming ownership of what we believe to be open source software. Some open source software licenses require users who distribute open source software as part of their software to publicly disclose all or part of the source code to such software and/or make available any derivative works of the open source code on unfavorable terms or at no cost. While we monitor the use of open source software in our technology and services and try to ensure that none is used in a manner that would require us to disclose the source code to the related technology or service, such use could inadvertently occur and any requirement to disclose our proprietary source code could be harmful to our business, financial condition and results of operations.

$If we lose key personnel our business, financial condition \ and \ results \ of \ operations \ may \ be \ adversely \ affected.$

We are dependent upon the ability and experience of a number of our key personnel who have substantial experience with our operations, the rapidly changing payment processing industry and the selected markets in which we offer our services. Many of our key personnel have worked for us for a significant amount of time or were recruited by us specifically due to their industry experience. It is possible that the loss of the services of one or a combination of our senior executives or key managers, including Charles D. Drucker, our chief executive officer, could have a material adverse effect on our business, financial condition and results of operations.

In a dynamic industry like ours, the ability to attract, recruit, retain and develop qualified employees is critical to our success and growth.

Our business functions at the intersection of rapidly changing technological, social, economic and regulatory developments that require a wide ranging set of expertise and intellectual capital. In order for us to successfully compete and grow, we must attract, recruit, retain and develop the necessary personnel who can provide the needed expertise across the entire spectrum of our intellectual capital needs. While we have a number of our key personnel who have substantial experience with our operations, we must also develop our personnel to provide succession plans capable of maintaining continuity in the midst of the inevitable unpredictability of human capital. However, the market for qualified personnel is competitive, and we may not succeed in recruiting additional personnel or may fail to effectively replace current personnel who depart with qualified or effective successors. We have hired significant numbers of new personnel since our separation from Fifth Third Bank and must continue to hire additional personnel to execute our strategic plans. Our effort to retain and develop personnel may also result in significant additional expenses, which could adversely affect our profitability. We cannot assure that qualified employees will continue to be employed or that we will be able to attract and retain qualified personnel in the future. Failure to retain or attract key personnel could have a material adverse effect on our business, financial condition and results of operations.

Our operating results are subject to seasonality, which could result in fluctuations in our quarterly net income.

We have experienced in the past, and expect to continue to experience, seasonal fluctuations in our revenues as a result of consumer spending patterns. Historically our revenues have been strongest in our fourth quarter, and weakest in our first quarter. This is due to the increase in the number and amount of electronic payment transactions related to seasonal retail events.

We may need to raise additional funds to finance our future capital needs, which may prevent us from growing our business.

We may need to raise additional funds to finance our future capital needs, including developing new services and technologies, and to fund ongoing operating expenses. We also may need additional financing earlier than we anticipate if we, among other things:

- are required to pay significant settlements or fines;
- · repurchase our common stock; or
- finance Vantiv, Inc.'s purchase of Class B units of Vantiv Holding from Fifth Third Bank upon the exercise of their right to put their Class B units of Vantiv Holding to Vantiv, Inc. in exchange for cash to the extent that we decide to purchase rather than exchange such units for Class A common stock.

If we raise additional funds through the sale of equity securities, these transactions may dilute the value of our outstanding Class A common stock. In addition, any issuance of securities constituting more than 20% of the total of our outstanding common stock, with certain limited exceptions, and incurrences of indebtedness that cause us to fail to meet a specified leverage ratio are subject to the consent rights of Fifth Third Bank set forth in our amended and restated certificate of incorporation and the Amended and Restated Vantiv Holding Limited Liability Company Agreement. We may also decide to issue securities, including debt securities that have rights, preferences and privileges senior to our Class A common stock. Any debt financing would increase our already high level of indebtedness and could negatively affect our liquidity and restrict our operations. We may be unable to raise additional funds on terms favorable to us or at all. If financing is not available or is not available on acceptable terms, we may be unable to fund our future needs. This may prevent us from increasing our market share, capitalizing on new business opportunities or remaining competitive in our industry.

Potential clients may be reluctant to switch to a new vendor, which may adversely affect our growth.

Many potential clients, including both financial institutions and merchants, worry about potential disadvantages associated with switching payment processing vendors, such as a loss of accustomed functionality, increased costs and business disruption. For potential clients of our Merchant Services and Financial Institution Services segments, switching from one vendor of core processing or related software and services (or from an internally-developed system) to a new vendor is a significant undertaking. As a result, potential clients often resist change. We seek to overcome this resistance through strategies such as making investments to enhance the functionality of our software. However, there can be no assurance that our strategies for overcoming potential clients' reluctance to change vendors will be successful, and this resistance may adversely affect our growth.

We have a long sales cycle for many of our services, and if we fail to close sales after expending significant time and resources to do so, our business, financial condition and results of operations could be adversely affected.

The initial installation and set-up of many of our services often involve significant resource commitments by our clients, particularly those with larger operational scale. Potential clients generally commit significant resources to an evaluation of available services and require us to expend substantial time (up to six to nine months), effort and money educating them as to the value of our services. We incur substantial costs in order to obtain each new customer. We may expend significant funds and management resources during the sales cycle and ultimately fail to close the sale. Our sales cycle may be extended due to our clients' budgetary constraints or for other reasons. If we are unsuccessful in closing sales after expending significant funds and management resources or we experience delays, it could have a material adverse effect on our business, financial condition and results of operations.

Risks Related to Our Company and Our Organizational Structure

Our substantial indebtedness could adversely affect our ability to raise additional capital to fund our operations, limit our ability to react to changes in the economy or our industry, expose us to interest rate risk to the extent of our variable rate debt and prevent us from meeting our debt obligations.

We have a high level of indebtedness. As of December 31, 2013, we had total indebtedness of \$1.8 billion. For the year ended December 31, 2013, total payments under our annual debt service obligations, including interest and principal, were approximately \$97 million. Our high degree of leverage could have significant negative consequences, including:

- increasing our vulnerability to adverse economic, industry or competitive developments;
- requiring a substantial portion of cash flow from operations to be dedicated to the payment of principal and interest on our indebtedness, therefore reducing our ability to use our cash flow to fund our operations, capital expenditures and future business opportunities;
- exposing us to the risk of increased interest rates because certain of our borrowings, including and most significantly borrowings under our senior secured credit facilities, are at variable rates of interest;
- making it more difficult for us to satisfy our obligations with respect to our indebtedness, and any failure to comply with the obligations of any of
 our debt instruments, including restrictive covenants and borrowing conditions, could result in an event of default under the agreements governing
 such indebtedness:
- restricting us from making strategic acquisitions or causing us to make non-strategic divestitures;
- making it more difficult for us to obtain payment network sponsorship and clearing services from financial institutions;
- limiting our ability to obtain additional financing for working capital, capital expenditures, product development, debt service requirements, acquisitions and general corporate or other purposes; and
- limiting our flexibility in planning for, or reacting to, changes in our business or market conditions and placing us at a competitive disadvantage compared to our competitors who are less highly leveraged and who, therefore, may be able to take advantage of opportunities that our leverage prevents us from exploiting.

The majority of our indebtedness consists of indebtedness under our senior secured credit facilities which mature in 2018. We may not be able to refinance our senior secured credit facilities or any other existing indebtedness because of our high level of debt, debt incurrence restrictions under our debt agreements or because of adverse conditions in credit markets generally.

Despite our high indebtedness level, we still may be able to incur significant additional amounts of debt, which could further exacerbate the risks associated with our substantial indebtedness.

We may be able to incur substantial additional indebtedness in the future. Although our senior secured credit facilities contain restrictions on the incurrence of additional indebtedness, these restrictions are subject to a number of significant qualifications and exceptions, and under certain circumstances, the amount of indebtedness that could be incurred in compliance with these restrictions could be substantial. For example, we may incur up to \$400 million of additional debt pursuant to an incremental facility under our senior secured credit facilities, subject to certain terms and conditions. If new debt is added to our outstanding debt levels, the risks related to our indebtedness that we will face would increase.

Our use of derivative financial instruments may not be successful in managing our interest rate risks and could result in material financial losses by us.

From time to time, we have sought to reduce our exposure to fluctuations in interest rates through the use of interest rate hedging arrangements. To the extent that we hedge our interest rate exposures, we forgo the benefits we would otherwise experience if interest rates were to change in our favor. Developing an effective strategy for dealing with movements in interest rates is complex, and no strategy can completely insulate us from risks associated with such fluctuations. In addition, a counterparty to the arrangement could default on its obligation, thereby exposing us to credit risk. Further, we may have to repay certain costs, such as transaction fees or breakage costs, if we terminate these arrangements. Finally, our interest rate risk management activities could expose us to substantial losses if interest rates move materially differently from management's expectations. As a result, we cannot assure that our interest rate hedging arrangements will effectively manage our interest rate sensitivity or have the desired beneficial impact on our results of operations or financial condition.

Our balance sheet includes significant amounts of goodwill and intangible assets. The impairment of a significant portion of these assets would negatively affect our business, financial condition and results of operations.

Our balance sheet includes goodwill and intangible assets that represent 65% of our total assets at December 31, 2013. These assets consist primarily of goodwill and customer relationship intangible assets associated with our acquisitions. We also expect to engage in additional acquisitions, which may result in our recognition of additional goodwill and intangible assets. Under current accounting standards, we are required to amortize certain intangible assets over the useful life of the asset, while goodwill and certain other intangible assets are not amortized. On at least an annual basis, we assess whether there have been impairments in the carrying value of goodwill and certain intangible assets. If the carrying value of the asset is determined to be impaired, then it is written down to fair value by a charge to operating earnings. An impairment of a significant portion of goodwill or intangible assets could have a material adverse effect on our business, financial condition and results of operations.

We are party to tax receivable agreements with Fifth Third Bank and the amounts we may be required to pay under these agreements could be significant.

We are party to two tax receivable agreements with Fifth Third Bank. One provides for the payment by us to Fifth Third Bank of 85% of the amount of cash savings, if any, in U.S. federal, state, local and foreign income tax that we actually realize as a result of the increases in tax basis that may result from the purchase of Vantiv Holding units from Fifth Third Bank or from the future exchange of units by Fifth Third Bank for cash or shares of our Class A common stock, as well as the tax benefits attributable to payments made under such tax receivable agreement. Any actual increase in tax basis, as well as the amount and timing of any payments under the agreement, will vary depending upon a number of factors, including the timing of exchanges, the price of shares of our Class A common stock at the time of the exchange, the extent to which such exchanges are taxable, and the amount and timing of our income. The other tax receivable agreement provides for the payment by us to Fifth Third Bank of 85% of the amount of cash savings according to Fifth Third Bank's respective ownership interests in Vantiv Holding immediately prior to our initial public offering, if any, in U.S. federal, state, local and foreign income tax that NPC actually realizes as a result of its use of its NOLs and other tax attributes.

The payments we will be required to make under these tax receivable agreements could be substantial. As of December 31, 2013, we recorded a liability of approximately \$560 million associated with the tax receivable agreements. We will incur additional liabilities in connection with any future purchases by us of units in Vantiv Holding from Fifth Third Bank or from the future exchange of units by Fifth Third Bank for cash or shares of our Class A common stock, which we cannot quantify at this time and which could be significant. It is possible that future transactions or events, including changes in tax rates, could increase or decrease the actual tax benefits realized and the corresponding tax receivable agreement payments. There may be a material adverse effect on our liquidity if, as a result of timing discrepancies or otherwise, distributions to us by Vantiv Holding are not sufficient to permit us to make payments under the tax receivable agreements after we have paid taxes. The payments under the tax receivable agreements are not conditioned upon the continued ownership of us or Vantiv Holding by Fifth Third Bank.

In certain cases, payments under the tax receivable agreements may be accelerated and/or significantly exceed the actual benefits we realize in respect of the tax attributes subject to the tax receivable agreements.

The tax receivable agreements provide that, upon certain mergers, asset sales, other forms of business combination or certain other changes of control, our obligations to make payments with respect to tax benefits would be based on certain assumptions, including that we would have sufficient taxable income to fully use the NOLs or deductions arising from increased tax basis of assets. As a result, upon a merger or other change of control, we could be required to make payments under the tax receivable agreements that are greater than 85% of our actual tax savings.

We may elect to terminate any or all of the remaining tax receivable agreements prior to the time they terminate in accordance with their terms. If we were to so elect, we would be required to make an immediate payment equal to the present value of the anticipated future tax benefits taken into account under the tax receivable agreements. In addition, if we materially breach a material obligation in the tax receivable agreements and we do not cure such breach within a specified time period, we would also be required to make an immediate payment equal to the present value of the anticipated future tax benefits taken into account under such tax receivable agreement. In the event of either a unilateral termination or a material breach of a material obligation, the anticipated future tax benefits would be determined under certain assumptions that in general assume that we would recognize the greatest amount of benefits at the earliest time. As a result, the payments we would be required to make if we elect to terminate any or all of the tax receivable agreements, unilaterally or otherwise, or if a material breach occurs that is not cured within a specified time period could exceed 85% of the tax savings that we actually realize from the increased tax basis and/or the NOLs, and we could be required to make those payments significantly in advance of the time the tax savings arise.

We will not be reimbursed for any payments made under or relating to the tax receivable agreements in the event that any tax benefits are disallowed.

If the Internal Revenue Service, or the IRS, challenges the tax basis increases or NOLs that give rise to payments under the tax receivable agreements and the tax basis increases or NOLs are subsequently disallowed, the recipients of payments under those agreements will not reimburse us for any payments we previously made to them. Any such disallowance would be taken into account in determining future payments under the tax receivable agreements and would, therefore, reduce the amount of any such future payments. Nevertheless, if the claimed tax benefits from the tax basis increases or NOLs are disallowed, our payments under the tax receivable agreements could exceed our actual tax savings, and we may not be able to recoup payments under the tax receivable agreements that were calculated on the assumption that the disallowed tax savings were available.

We are a holding company and our principal assets are our interests in Vantiv Holding, and we depend on dividends, distributions and other payments, advances and transfers of funds from Vantiv Holding to meet any existing or future debt service and other obligations and to pay dividends, if any, and taxes and other expenses.

We are a holding company (and are required to remain as one until the exchange agreement, dated March 21, 2012 between us and Fifth Third Bank, or the Exchange Agreement, is no longer in effect), and we conduct all of our operations through Vantiv Holding and its subsidiaries. We have no material assets other than our ownership of units of Vantiv Holding. We have no independent means of generating revenues. The Amended and Restated Vantiv Holding Limited Liability Company Agreement contains consent rights that effectively require Fifth Third Bank's approval of all distributions paid by Vantiv Holding, other than periodic tax distributions, payments required under the Exchange Agreement and payments under the Advancement Agreement dated March 21, 2012 between us and Vantiv Holding, which allows us to make payments under our tax receivable agreement related to the NPC NOLs, make payments under our other tax receivable agreements to the extent not covered by payments made pursuant to the Amended and Restated Vantiv Holding Limited Liability Company Agreement and make payments required under the Exchange Agreement, pay our franchise taxes and cover our reasonable administrative and corporate expenses. To the extent that we need funds and Vantiv Holding is restricted from making such distributions under applicable law or regulation, as a result of Fifth Third Bank's consent rights at Vantiv Holding, or by the terms of Vantiv Holding's indebtedness, or Vantiv Holding is otherwise unable to provide such funds, it could materially adversely affect our liquidity and, consequently, our business, financial condition and results of operations.

Our operations and management are subject to certain consent rights and other rights in our amended and restated certificate of incorporation and the Amended and Restated Vantiv Holding Limited Liability Company Agreement.

All of our business and operations are conducted through Vantiv Holding. Significant, non-ordinary course actions relating to these operations are subject to the consent rights provided to Fifth Third Bank in our amended and restated certificate of incorporation and the Amended and Restated Vantiv Holding Limited Liability Company Agreement. These consent rights relate to, among other things, certain change of control transactions; acquisitions, dispositions, incurrences of indebtedness by us if we fail to meet a specified leverage ratio after giving effect to such incurrences; investments by us; equity issuances above specified thresholds; declaration and payment of dividends by Vantiv Holding; transactions with affiliates; changes to Vantiv Holding's business plan; capital expenditures; material changes to the Vantiv Holding Management Phantom Equity Plan; hiring or firing of auditors; material tax elections; and changes in constituent documents or governance of our subsidiaries. Such consent rights lapse upon Fifth Third disposing in excess of 50% of its equity stake in us that it held immediately following our initial public offering. As a result of Fifth Third's sales of our common stock during 2012 and 2013, it has sold approximately 41.8% of such equity stake. While such consent rights remain in effect, to the extent that the interests

of Fifth Third Bank differ from those of us or the holders of our Class A common stock, Fifth Third Bank's ability to consent to certain significant actions may have a materially adverse effect on our business, financial condition and results of operations.

Certain of our stockholders have interests and positions that could present potential conflicts with our and our other stockholders' interests.

Advent makes investments in companies and may, from time to time, acquire and hold interests in businesses that compete directly or indirectly with us. Advent and Fifth Third Bank may also pursue, for their own accounts, acquisition opportunities that may be complementary to our business, and as a result, those acquisition opportunities may not be available to us. Advent, through one of its private equity investments, owns an equity interest in WorldPay, one of our direct competitors, which may result in their being provided with business opportunities through their relationship with Advent instead of us. Our amended and restated certificate of incorporation contains provisions renouncing any interest or expectancy held by our directors affiliated with Advent and Fifth Third Bank in certain corporate opportunities. Accordingly, the interests of Advent and Fifth Third Bank may supersede ours, causing them or their affiliates to compete against us or to pursue opportunities instead of us, for which we have no recourse. Such actions on the part of Advent and Fifth Third Bank and inaction on our part could have a material adverse effect on our business, financial condition and results of operations.

Some provisions of Delaware law and our amended and restated certificate of incorporation and amended and restated bylaws may deter third parties from acquiring us and diminish the value of our Class A common stock.

Our amended and restated certificate of incorporation and amended and restated bylaws provide for, among other things:

- restrictions on the ability of our stockholders to call a special meeting and the business that can be conducted at such meeting;
- prohibition on the ability of our stockholders to remove directors elected by the holders of our Class A common stock without cause;
- our ability to issue additional shares of Class A common stock and to issue preferred stock with terms that the board of directors may determine, in each case without stockholder approval (other than as specified in our amended and restated certificate of incorporation);
- the absence of cumulative voting in the election of directors;
- · supermajority approval requirements for amending or repealing provisions in the amended and restated certificate of incorporation and bylaws;
- a classified board of directors;
- a prohibition on action by written consent of stockholders following the date when Advent and Fifth Third Bank collectively cease to beneficially own 50% or more of our outstanding shares of, collectively, Class A common stock and Class B common stock; and
- advance notice requirements for stockholder proposals and nominations.

These provisions in our amended and restated certificate of incorporation and amended and restated bylaws may discourage, delay or prevent a transaction involving a change in control of our company that is in the best interest of our minority stockholders. Even in the absence of a takeover attempt, the existence of these provisions may adversely affect the prevailing market price of our Class A common stock if they are viewed as discouraging future takeover attempts. These provisions could also make it more difficult for stockholders to nominate directors for election to our board of directors and take other corporate actions.

Risks Related to the Ownership of our Class A Common Stock

Future sales of our Class A common stock or securities convertible into or exchangeable for Class A common stock could depress the market price of our Class A common stock.

Sales of substantial amounts of our Class A common stock in the public market, or the perception that such sales could occur, could adversely affect the market price of our Class A common stock. As of December 31, 2013, we had 141,758,681 shares of Class A common stock outstanding. Subject to vesting requirements and the requirements of Rule 144 of the Securities Act, approximately 90,627,651 additional shares will be eligible for sale in the public market, including any shares of Class A common stock that Fifth Third Bank obtains through the exercise of their right to exchange Class B units of Vantiv

Holding for shares of our Class A common stock, as well as any shares of Class A common stock obtained through any conversion of Class C non-voting units of Vantiv Holding issuable upon exercise of the Warrant held by Fifth Third Bank. Advent and Fifth Third Bank (and certain permitted transferees thereof) have registration rights with respect to the Class A common stock they hold. We have also registered 35,500,000 shares of our Class A common stock that we have issued or have reserved for issuance under our 2012 equity incentive plan. These shares may be sold in the public market upon issuance and once vested, subject to the terms of the equity incentive plan and applicable award agreements.

We also may issue our shares of common stock or securities convertible into our common stock from time to time in connection with a financing, acquisition, investments or otherwise. Any such issuance could result in substantial dilution to our existing stockholders. Due to these factors, sales of a substantial number of shares of our common stock in the public market could occur at any time. These sales, or the perception in the market that the holders of a large number of shares intend to or could sell shares, could reduce the market price of our common stock. Any decline in the price of shares of our Class A common stock could impede our ability to raise capital through the issuance of additional shares of our Class A common stock or other equity securities.

The requirements of being a public company may strain our resources, divert management's attention and affect our ability to attract and retain qualified board members.

We are subject to the reporting requirements of the Securities Exchange Act of 1934, as amended, or the Exchange Act, the Sarbanes-Oxley Act, the Dodd-Frank Act, the listing requirements of the NYSE and other applicable securities rules and regulations. Compliance with these rules and regulations has increased and will continue to increase our legal and financial compliance costs, make some activities more difficult, time-consuming or costly, and increase demand on our systems and resources.

We have and will continue to consume management resources and incur significant expenses for Section 404 compliance on an ongoing basis. In the event that our chief executive officer, chief financial officer or independent registered public accounting firm determines in the future that our internal control over financial reporting is not effective as defined under Section 404, we could be subject to one or more investigations or enforcement actions by state or federal regulatory agencies, stockholder lawsuits or other adverse actions requiring us to incur defense costs, pay fines, settlements or judgments and causing investor perceptions to be adversely affected and potentially resulting in a decline in the market price of our Class A common stock.

The price of our Class A common stock may be volatile.

Securities markets worldwide have experienced, and are likely to continue to experience, significant price and volume fluctuations. This market volatility, as well as general economic, market or political conditions could reduce the market price of our Class A common stock regardless of our results of operations. The trading price of our Class A common stock is likely to be highly volatile and could be subject to wide price fluctuations in response to various factors, including, among other things, the risk factors described in this section of this Annual Report on Form 10-K, and other factors beyond our control. Factors affecting the trading price of our common stock will include:

- market conditions in the broader stock market;
- actual or anticipated variations in our quarterly financial and operating results;
- variations in operating results of similar companies;
- introduction of new services by us, our competitors or our clients
- · issuance of new, negative or changed securities analysts' reports or recommendations or estimates;
- investor perceptions of us and the industries in which we or our clients operate;
- sales, or anticipated sales, of our stock, including sales by existing stockholders;
- · additions or departures of key personnel;
- · regulatory or political developments;
- · stock-based compensation expense under applicable accounting standards;
- · litigation and governmental investigations; and
- changing economic conditions.

These and other factors may cause the market price and demand for shares of our Class A common stock to fluctuate substantially, which may limit or prevent investors from readily selling their shares of Class A common stock and may otherwise negatively affect the liquidity of our Class A common stock. In addition, in the past, when the market price of a stock has been volatile, holders of that stock have sometimes instituted securities class action litigation against the company that issued the stock. Securities litigation against us, regardless of the merits or outcome, could result in substantial costs and divert the time and attention of our management from our business, which could significantly harm our business, profitability and reputation.

We have not declared or paid any cash dividends on our common stock since our initial public offering, and we have no current plan to do so.

We have not declared or paid any cash dividends on our common stock since our initial public offering, and we have no current plan to do so. We currently intend to retain our future earnings, if any, to repay indebtedness and to support our general corporate purposes. We are a holding company that does not conduct any business operations of our own. As a result, our ability to pay cash dividends on our common stock, if any, is dependent upon cash dividends and distributions and other transfers from Vantiv Holding, which are subject to certain Fifth Third Bank consent rights in the Amended and Restated Vantiv Holding Limited Liability Company Agreement. The amounts available to us to pay cash dividends are also restricted by our subsidiaries' debt agreements, and, to the extent that we require additional funding, the sources of such additional funding may prohibit the payment of a dividend. As a result, appreciation in the price of our Class A common stock, if any, will be your only source of gain on an investment in our Class A common stock.

Item 1B. Unresolved Staff Comments

None

Item 2. Properties

Our principal place of business is our corporate headquarters located at 8500 Governor's Hill Drive, Symmes Township, Cincinnati, Ohio 45249.

In addition to our corporate headquarters and as of December 31, 2013, we leased operational, sales, and administrative facilities in Arizona, Colorado, Florida, Illinois, Kentucky, Massachusetts and Texas. As of December 31, 2013, we leased data center facilities in Kentucky and Michigan. We believe that our facilities are suitable and adequate for our business as presently conducted, however, we periodically review our facility requirements and may acquire new space to meet the needs of our business or consolidate and dispose of facilities that are no longer required.

Item 3. Legal Proceedings

From time to time, we are involved in various litigation matters arising in the ordinary course of our business. While it is impossible to ascertain the ultimate resolution or range of financial liability with respect to these contingent matters, management believes none of these matters, either individually or in the aggregate, would have a material adverse effect on us.

Item 4. Mine Safety Disclosures

PART II

Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

Price Range of Common Stock

Our Class A common stock has traded on the New York Stock Exchange under the symbol "VNTV" since March 22, 2012. Prior to that date, there was no public trading market for our Class A common stock. Our initial public offering of Class A common stock was priced at \$17.00 per share on March 21, 2012. There is currently no established public trading market for our Class B common stock. The information presented in the table below represents the high and low sales prices per share of Class A common stock as reported on the NYSE for the periods indicated.

2012	High	Low
First Quarter (beginning March 22, 2012)	\$ 20.65	\$ 18.49
Second Quarter	\$ 24.43	\$ 19.30
Third Quarter	\$ 24.06	\$ 21.27
Fourth Quarter	\$ 22.15	\$ 18.85
2013	High	Low
First Quarter	\$ 23.75	\$ 19.55
Second Quarter	\$ 28.25	\$ 21.73
Third Quarter	\$ 28.70	\$ 25.37
Fourth Quarter	\$ 32.88	\$ 25.21

There were approximately 100 holders of record of our Class A common stock and one holder of our Class B common stock as of January 31, 2014.

Issuer Purchases of Equity Securities

The following table sets forth information regarding shares of Class A common stock repurchased by us during the three months ended December 31, 2013:

Period	Total Number of Shares Purchased (1)(2)	Average Price Paid per Share	Total Shares Purchased as Part of Publicly Announced Plans or Programs (2)	of Sh Purcl	roximate Dollar Value nares that May Yet Be hased Under the Plans ograms (in millions) (2)
October 1, 2013 to October 31, 2013	18,074	\$ 27.57	_	\$	137.0
November 1, 2013 to November 30, 2013	2,482,211	\$ 29.53	2,482,211	\$	63.6
December 1, 2013 to December 31, 2013	1,011,409	\$ 30.24	968,500	\$	34.4

⁽¹⁾ Includes shares of Class A common stock surrendered to us to satisfy tax withholding obligations in connection with the vesting of restricted stock awards.

Dividend Policy

Since our initial public offering, we have not declared or paid any cash dividends on our common stock, and we have no current plan to do so. We are a holding company that does not conduct any business operations of our own. As a result, our

⁽²⁾ On October 22, 2013, our board of directors approved a \$137 million share repurchase program. During the three months ended December 31, 2013, we repurchased approximately 3.5 million shares of Class A common stock for approximately \$103 million. The repurchases occurred in the open market and pursuant to a trading plan under Rule 10b5-1 of the Exchange Act. The share repurchase program has no expiration date and may be suspended or discontinued at any time without notice.

ability to pay cash dividends on our common stock, if any, is dependent upon cash dividends and distributions and other transfers from Vantiv Holding, which are subject to certain Fifth Third Bank consent rights in the Amended and Restated Vantiv Holding Limited Liability Company Agreement. The amounts available to us to pay cash dividends are also subject to the covenants and restrictions in our subsidiaries' loan agreement. Any future determination as to the declaration and payment of dividends, if any, will be at the discretion of our board of directors and will depend on then existing conditions, including our financial condition, operating results, legal and contractual restrictions, capital requirements, business prospects and other factors our board of directors may deem relevant.

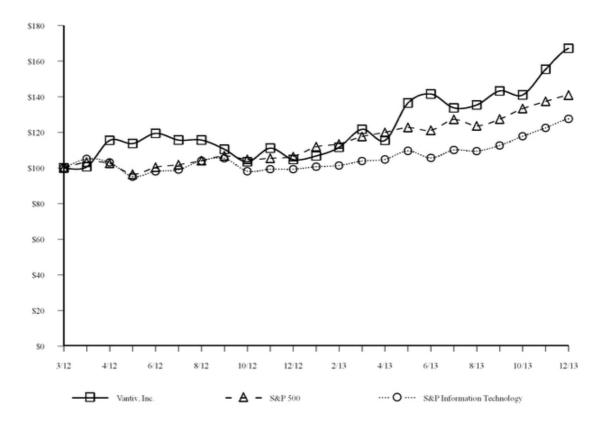

Vantiv Holding paid aggregate tax distributions to or on behalf of its equity holders, including Fifth Third Bank and JPDN Enterprises, LLC, an affiliate of Charles D. Drucker, our chief executive officer, of \$41.2 million and \$32.6 million, respectively, for the years ended December 31, 2013 and 2012, pursuant to the terms of the Amended and Restated Vantiv Holding Limited Liability Company Agreement. Vantiv Holding will continue to make tax distributions to its equity holders in accordance with the Amended and Restated Vantiv Holding Limited Liability Company Agreement. In connection with the reorganization transactions in 2012, we paid Fifth Third Bank a \$15.0 million fee related to the modification of its consent rights (specifically with respect to (i) increasing the threshold on when certain actions require Fifth Third Bank's approval, (ii) the termination of transferability and (iii) all of the consent rights terminating upon the transfer of more than 50% of the shares of Class A and Class B common stock held by Fifth Third Bank and its affiliates immediately following the consummation of our initial public offering) under the prior Amended and Restated Vantiv Holding Limited Liability Company Agreement. During the year ending December 31, 2012, Vantiv, Inc. made a cash distribution of approximately \$40.1 million in the aggregate to certain funds managed by Advent as well as to Pamela H. Patsley, a former director, which amount represented accumulated cash in Vantiv, Inc. resulting from tax distributions we received as a member of Vantiv Holding prior to our initial public offering and that was payable to certain funds managed by Advent as well as to Ms. Patsley as our stockholders prior to our initial public offering.

Stock Performance Graph

The following graph shows a comparison from March 22, 2012 (the date our Class A common stock commenced trading on the NYSE) through December 31, 2013 of the cumulative total return for our Class A common stock, the S&P 500 Index and the S&P Information Technology Index. Data for the S&P 500 Index and the S&P Information Technology Index assume reinvestment of dividends. Note that historic stock price performance is not necessarily indicative of future stock price performance.

COMPARISON OF 21 MONTH CUMULATIVE TOTAL RETURN*

Among Vantiv, Inc., the S&P 500 Index, and the S&P Information Technology Index

*\$100 invested on 3/22/12 in stock or 2/29/12 in index, including reinvestment of dividends. Fiscal year ending December 31.

This performance graph shall not be deemed "soliciting material" or to be "filed" with the Securities and Exchange Commission for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, or otherwise subject to the liabilities under that Section, and shall not be deemed to be incorporated by reference into any filing of Vantiv, Inc. under the Securities Act of 1933, as amended.

Item 6. Selected Financial Data

The periods prior to and including June 30, 2009, the date of the separation from Fifth Third Bank, are referred to in the following table as "Predecessor," and all periods after such date are referred to in the following table as "Successor." Prior to the separation from Fifth Third Bank, we operated as a business unit of Fifth Third Bank. As a result, the financial data for the predecessor periods included in this Annual Report on Form 10-K does not necessarily reflect what our financial position or results of operations would have been had we operated as a separate, stand-alone entity during those periods. The financial statements for all successor periods are not comparable to those of the predecessor periods.

The following table sets forth our historical financial and other data for the periods and as of the dates indicated. We derived the statement of income data for the years ended December 31, 2013, 2012 and 2011 and our balance sheet data as of December 31, 2013 and 2012 from our audited financial statements for such periods included elsewhere in this Annual Report on Form 10-K. The statement of income data for the year ended December 31, 2010 and the six months ended December 31, 2009 and June 30, 2009 and the balance sheet data as of December 31, 2011, 2010, and 2009 are derived from our audited financial statements that are not included in this Annual Report on Form 10-K.

The results indicated below are not necessarily indicative of our future performance. You should read this information together with "Item 7 - Management's Discussion and Analysis of Financial Condition and Results of Operations" and "Item 8 - Financial Statements and Supplementary Data."

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

This management's discussion and analysis provides a review of the results of operations, financial condition and liquidity and capital resources of Vantiv, Inc. ("Vantiv", "we", "us", "our" or the "company" refer to Vantiv, Inc. and its consolidated subsidiaries) and outlines the factors that have affected recent results, as well as those factors that may affect future results. Our actual results in the future may differ materially from those anticipated in these forward looking statements as a result of many factors, including those set forth under "Risk Factors," Forward Looking Statements" and elsewhere in this report. The following discussion and analysis should be read in conjunction with the consolidated financial statements and related notes included in "Item 8 - Financial Statements and Supplementary Data" of this report.

General

We are the third largest merchant acquirer and the largest PIN debit acquirer by transaction volume, according to the Nilson Report, and a leading, integrated payment processor in the United States differentiated by a single, proprietary technology platform. This enables us to efficiently provide a suite of comprehensive services to both merchants and financial institutions of all sizes in the United States. Our technology platform offers our clients a single point of access and service that is easy to connect to and use in order to access a broad range of payment services and solutions. Our integrated business and single platform also enable us to innovate, develop and deploy new services and provide us with significant economies of scale. Our varied and broad distribution provides us with a diverse client base and channel partner relationships.

We believe our single, proprietary technology platform is differentiated from our competitors' multiple platform architectures. Because of our single point of service and ability to collect, manage and analyze data across the payment processing value chain, we can identify and develop new services more efficiently. Once developed, we can more cost-effectively deploy new solutions to our clients through our single platform. Our single scalable platform also enables us to efficiently manage, update and maintain our technology, increase capacity and speed and realize significant operating leverage.

We enable merchants of all sizes to accept and process credit, debit and prepaid payments and provide them supporting services, such as information solutions, interchange management and fraud management, as well as vertical-specific solutions in sectors such as grocery, pharmacy, retail, petroleum and restaurants/quick service restaurants. We also provide mission critical payment services to financial institutions, such as card issuer processing, payment network processing, fraud protection, card production, prepaid program management, ATM driving and network gateway and switching services that utilize our proprietary Jeanie PIN debit payment network.

We provide small and mid-sized clients with the comprehensive solutions that we have developed to address the extensive requirements of our large clients. We then tailor these solutions to the unique needs of our small and mid-sized clients. In addition, we take a consultative approach to providing these services that helps our clients enhance their payments-related services.

We distribute our services through diversified distribution channels using a unified sales approach that enables us to efficiently and effectively target merchants and financial institutions of all sizes. These channels include a national sales force that targets financial institutions and national merchants, regional and mid-market sales teams that sell solutions to merchants and third-party reseller clients and a telesales operation that targets small and mid-sized merchants. In addition, we have relationships with a broad range of merchant banks; technology partners, which include independent software vendors, or ISVs, value-added resellers, or VARs and payment facilitators; independent sales organizations, or ISOs, and trade associations that target merchants, including difficult to reach small and mid-sized merchants. We also have relationships with third-party resellers and core processors that target financial institutions.

Executive Overview

Revenue for the year ended December 31, 2013 increased 13% to \$2,108.1 million from \$1,863.2 million in 2012.

Income from operations for the year ended December 31, 2013 increased 16% to \$352.8 million from \$304.9 million in 2012.

Net income for the year ended December 31, 2013 increased 88% to \$208.1 million from \$110.8 million in 2012. Net income attributable to Vantiv, Inc. for the year ended December 31, 2013 increased 132% to \$133.6 million from \$57.6 million in 2012.

In May 2013, a secondary offering took place in which selling shareholders sold 40.7 million shares of Vantiv Class A common stock. We did not receive any proceeds from these sales. In connection with the secondary offering, we repurchased approximately 17.5 million shares of our Class A common stock sold to the underwriters in the secondary offering for \$400 million at a price per share equal to the price paid by the underwriters to purchase the shares from the selling shareholders in the offering. In connection with the stock repurchase, we refinanced our existing senior secured credit facilities, resulting in an increase in the amount of debt by approximately \$650 million, \$400 million of which was used to fund the share repurchase.

In August and November 2013, secondary offerings took place in which selling shareholders sold 20.0 million and 15.0 million shares, respectively, of our Class A common stock. We did not receive any proceeds from these sales.

On October 22, 2013, our board of directors approved a program to repurchase up to \$137 million of our Class A common stock. Through December 31, 2013, 3.5 million shares have been repurchased under this program for approximately \$103 million. As of the date of this filing, repurchases pursuant to the October 2013 authorization were substantially complete. On February 12, 2014, our board of directors authorized a program to repurchase up to an additional \$300 million of our Class A common stock.

On October 23, 2013, we entered into substantially identical tax receivable termination agreements with Advent International Corporation, or Advent, and JPDN Enterprises, LLC, or JPDN, to terminate the obligations owed to them under the tax receivable agreements, or TRAs, established at the time of our initial public offering, or IPO. Under the terms of the tax receivable termination agreements, we paid approximately \$112 million to Advent and \$0.5 million to JPDN to settle approximately \$254 million of obligations under the TRAs, the difference of which was recorded as an addition to paid-in capital. As a result of the termination agreements, the TRAs with Advent and JPDN were terminated, and we have no further obligations to Advent or JPDN under the TRAs. We remain obligated to pay amounts due to Fifth Third Bank under their TRAs. Advent is a stockholder, and JPDN is an affiliate of our president and chief executive officer. A special committee of our board of directors comprised of independent, disinterested directors authorized the tax receivable termination agreements. See Note 7 - Tax Receivable Agreements in "Item 8 - Financial Statements and Supplementary Data" for additional information about the TRAs.

Recent Acquisitions

On November 30, 2012, we acquired Litle & Co., LLC ("Litle"), an ecommerce payment processor for approximately \$361 million in cash. The acquisition of Litle has strengthened our capabilities in ecommerce, expanded our customer base of on-line merchants and enabled delivery of Litle's innovative ecommerce solutions to our merchant and financial institution clients. On July 31, 2013, we acquired Element Payment Services, Inc. for approximately \$162.5 million in cash. This acquisition provides us the strategic capabilities to partner with ISVs and positions us to increase our presence in the integrated payments market. The operations of Litle and Element are included in our Merchant Services segment operating results.

Our Segments, Revenue and Expenses

Segments

We operate as a single integrated business and report our results of operations in two segments, Merchant Services and Financial Institution Services. We evaluate segment performance based upon segment profit, which is defined as net revenue, which represents total revenue less network fees and other costs, less sales and marketing expense attributable to that segment.

Merchant Services

We provide a comprehensive suite of payment processing services, including acquiring and processing transactions, value-added services and merchant services for banks and credit unions. We authorize, clear, settle and provide reporting for electronic payment transactions for our merchant services clients. Our client base includes over 400,000 merchant locations, with a concentration in the non-discretionary everyday spend categories where spending has generally been more resilient during economic downturns.

We provide our merchant services to merchants of varying sizes, which provides us with a number of key benefits. Due to the large transaction volume that they generate, large national merchants provide us with significant operating scale efficiencies and recurring revenues. Small and mid-sized merchants are more difficult to reach on an individual basis, but generally generate higher per transaction fees.

Financial Institution Services

We provide integrated card issuer processing, payment network processing and value-added services to financial institutions. Our services include a comprehensive suite of transaction processing capabilities, including fraud protection, card production, prepaid cards, ATM driving, portfolio optimization, data analytics and card program marketing and allow financial institutions to offer electronic payments solutions to their customers on a secure and reliable technology platform at a competitive cost. We provide these services using a consultative approach that helps our financial institution clients enhance their payments-related business.

We serve a diverse set of financial institutions, including regional banks, community banks, credit unions and regional PIN debit networks. We focus on small to mid-sized institutions with less than \$15 billion in assets. Smaller financial institutions, including many of our clients, generally do not have the scale or infrastructure typical of large banks and are more likely to outsource payment processing needs. We provide a turnkey solution to such institutions to enable them to offer payment processing solutions.

Revenue

We generate revenue primarily by processing electronic payment transactions. Set forth below is a description of our revenues by segment and factors impacting segment revenues.

Our Merchant Services segment revenues are primarily derived from processing credit and debit card transactions. Merchant Services revenue is primarily comprised of fees charged to businesses, net of interchange fees, for payment processing services, including authorization, capture, clearing, settlement and information reporting of electronic transactions. The fees charged consist of either a percentage of the dollar volume of the transaction or a fixed fee, or both, and are recognized at the time of the transaction. Merchant Services revenue also includes a number of revenue items that are incurred by us and are reimbursable as the costs are passed through to and paid by our clients. These items primarily consist of Visa, MasterCard and other payment network fees. In addition, for sales through referral partners in which we are the primary party to the contract with the merchant, we record the full amount of the fees collected from the merchant as revenue. Associated residual payments made to referral partners are included in sales and marketing expenses. Merchant Services revenue also includes revenue from ancillary services such as fraud management, equipment sales and terminal rent. Revenue in our Merchant Services segment is impacted primarily by transaction volume, average transaction size, the mix of merchant types in our client portfolio, the performance of our merchant clients and the effectiveness of our distribution channels.

Our Financial Institution Services revenues are primarily derived from debit, credit and ATM card transaction processing, ATM driving and support, and PIN debit processing services. Financial Institution Services revenue associated with processing transactions includes per transaction and account related fees, card production fees and fees generated from our Jeanie network. Financial Institution Services revenue is impacted by the number of financial institutions using our services as well as their transaction volume. The number of financial institutions in the United States has declined as a result of prevailing economic conditions and consolidation, as well as other market and regulatory pressures. These factors have contributed to industry-wide pricing compression of the fees that financial institutions are willing to pay for payment processing. Since 2011, pricing compression in the Financial Institution Services segment has represented on average 3% or less of net revenue on an annual basis.

Network Fees and Other Costs

Network fees and other costs consist primarily of charges incurred by us which we pass through to our clients, including Visa, MasterCard and other payment network fees, card production costs, telecommunication charges, postage and other third party processing expenses.

Net Revenue

Net revenue is revenue, less network fees and other costs and reflects revenue generated from the services we provide to our clients. Management uses net revenue to assess our operating performance. We believe that net revenue, when reviewed together with revenue, is meaningful to our investors in order to understand our performance.

Expenses

Set forth below is a brief description of the components of our expenses, aside from the network fees and other costs discussed above:

- *Sales and marketing* expense primarily consists of salaries and benefits paid to sales personnel, sales management and other sales and marketing personnel, residual payments made to referral partners and advertising and promotional costs.
- Other operating costs primarily consist of salaries and benefits paid to operational and IT personnel, costs associated with operating our
 technology platform and data centers, information technology costs for processing transactions, product development costs, software consulting
 fees and maintenance costs.
- General and administrative expenses primarily consist of salaries and benefits paid to executive management and administrative employees, including finance, human resources, product development, legal and risk management, share-based compensation costs, equipment and occupancy costs and consulting costs.
- Depreciation and amortization expense consists of our depreciation expense related to investments in property, equipment and software as well as our amortization of intangible assets, principally customer relationships acquired in connection with the acquisition of a majority interest in Vantiv Holding in June 2009 and our subsequent acquisitions.
- Interest expense—net consists primarily of interest on borrowings under our senior secured credit facilities less interest income earned on our cash and cash equivalents.
- *Income tax expense* represents federal, state and local taxes based on income in multiple jurisdictions.
- *Non-operating expenses* consist of charges related to the refinancing of our senior secured credit facilities in May 2013 and March 2012 and the early termination of our interest rate swaps in connection with our March 2012 debt refinancing; a one-time activity fee assessed by MasterCard as a result of our IPO; charges related to the refinancing of our senior secured credit facilities in 2011; and, during 2011, periodic changes in the value of the put rights we received in connection with the separation from Fifth Third Bank in 2009.

Non-Controlling Interest

As a result of the non-controlling ownership interests in Vantiv Holding held by Fifth Third Bank, our results of operations include net income attributable to non-controlling interests. Net income attributable to non-controlling interests for the years ended December 31, 2013, 2012 and 2011 was \$74.6 million, \$53.1 million and \$48.6 million, respectively. Future sales or redemptions of ownership interests in Vantiv Holding by Fifth Third Bank will continue to reduce the amount recorded as non-controlling interest and increase net earnings attributable to our Class A stockholders.

Factors and Trends Impacting Our Business and Results of Operations

We expect a number of factors will impact our business, results of operations and financial condition. In general, our revenue is impacted by the number and dollar volume of card based transactions which in turn are impacted by general economic conditions, consumer spending and the emergence of new technologies and payment types, such as ecommerce, mobile payments, and prepaid cards. In our Merchant Services segment, our net revenues are impacted by the mix of the size of merchants that we provide services to as well as the mix of transaction volume by merchant category. In our Financial Institution Services segment, our net revenues are also impacted by the mix of the size of financial institutions to which we provide services as well as consolidation and market and industry pressures, which have contributed and are expected to continue to contribute to pricing compression of payment processing fees in this segment. We also expect our results of operations to be impacted by the factors discussed below.

Pro Forma Adjusted Net Income

We use pro forma adjusted net income for financial and operational decision making as a means to evaluate period-to-period comparisons of our performance and results of operations. Pro forma adjusted net income is also incorporated into performance metrics underlying certain share-based payments issued under the 2012 Vantiv, Inc. Equity Incentive Plan and our variable compensation plan. We believe pro forma adjusted net income provides useful information about our performance and operating results, enhances the overall understanding of past financial performance and future prospects and allows for greater transparency with respect to key metrics used by management in its financial and operational decision making.

In calculating pro forma adjusted net income, we make certain non-GAAP adjustments, as well as pro forma adjustments, to adjust our GAAP operating results for the items discussed below. This measure should be considered together with GAAP operating results.

Non-GAAP Adjustments

Transition, Acquisition and Integration Costs

In connection with our acquisitions, we incurred costs associated with the acquisitions and related integration activities, consisting primarily of consulting fees for advisory and integration services and related personnel costs. Additionally, our expenses include costs associated with a one-time signing bonus issued to certain employees that transferred to us from Fifth Third Bank in connection with our separation from Fifth Third Bank in June 2009. This signing bonus contained a five-year vesting period beginning on the date of the separation. These transition, acquisition and integration costs are included in other operating costs and general and administrative expenses.

Share-Based Compensation

Prior to our IPO, certain employees and directors of Vantiv Holding participated in the Vantiv Holding Management Phantom Equity Plan. In connection with the IPO, outstanding awards under the Vantiv Holding Management Phantom Equity Plan were converted into unrestricted and restricted stock, issued under the 2012 Vantiv, Inc. Equity Incentive Plan. Subsequent to the IPO, we have granted share-based awards to certain employees and members of our board of directors and intend to continue to grant additional share-based awards in the future. See Note 13 - Share-Based Compensation Plans in "Item 8 - Financial Statements and Supplementary Data."

Intangible Amortization Expense

These expenses represent amortization of intangible assets acquired through business combinations and customer portfolio and related asset acquisitions.

Non-operating Expenses

Non-operating expenses were \$20.0 million for the year ended December 31, 2013, which consisted of charges related to the refinancing of our senior secured credit facilities in May 2013. For the year ended December, 2012, we recorded \$92.7 million within non-operating expenses, which consisted of \$86.7 million related to the refinancing of our senior secured credit facilities and the early termination of our interest rate swaps in March 2012 and a \$6.0 million one-time activity fee assessed by MasterCard as a result of our IPO. During the year ended December 31, 2011, we recorded \$14.5 million within non-operating expenses of which \$13.7 million related primarily to the refinancing of our senior secured credit facilities in May 2011.

Pro Forma Adjustments

Income Tax Expense Adjustments

Our effective tax rate reported in our results of operations reflects the impact of our non-controlling interest not being taxed at the statutory corporate tax rate. For purposes of calculating pro forma adjusted net income, income tax expense is adjusted to reflect an effective tax rate of 38.5%, assuming conversion of non-controlling interests into shares of Class A common stock, including the income tax effect of the non-GAAP adjustments described above.

Tax Adjustments

In addition to the adjustment described above, income tax expense is also adjusted for the cash tax benefits resulting from certain tax attributes, primarily the amortization of tax intangible assets resulting from or acquired with our acquisitions, the tax basis step up associated with our separation from Fifth Third and the purchase or exchange of Class B units of Vantiv Holding, net of payment obligations under TRAs established at the time of our IPO. The estimate of the cash tax benefits is based on the consistent and highly predictable realization of the underlying tax attributes.

As a result of the agreement to terminate and settle in full our obligations to Advent and JPDN under the TRAs as discussed above, the full amount of the cash tax benefits resulting from the realization of the tax attributes underlying the respective TRAs, beginning in the fourth quarter, are reflected in pro forma adjusted net income.

The table below provides a reconciliation of pro forma adjusted net income to GAAP net income for the years ended December 31, 2013 and 2012:

	Year Ended December 31,			
		2013		2012
		(in the	ousands)
Income before applicable taxes	\$	291,900	\$	157,611
Non-GAAP Adjustments:				
Transition, acquisition and integration costs		15,075		11,007
Share-based compensation		29,729		33,444
Intangible amortization		124,961		117,435
Non-operating expenses		20,000		92,672
Non-GAAP Adjusted Income Before Applicable Taxes		481,665		412,169
Pro Forma Adjustments:				
Income tax expense adjustment		(185,441)		(158,685)
Tax adjustments		24,294		6,525
Pro Forma Adjusted Net Income	\$	320,518	\$	260,009

Pro forma adjusted net income was previously referred to as cash net income.

Results of Operations

The following tables set forth our statements of income in dollars and as a percentage of net revenue for the periods presented.

		Ended nber 31				
	2013		2012		\$ Change	% Change
			(dollars i	n thous	ands)	
Revenue	\$ 2,108,077	\$	1,863,239	\$	244,838	13%
Network fees and other costs	935,441		840,597		94,844	11
Net revenue	1,172,636		1,022,642		149,994	15
Sales and marketing	312,044		280,644		31,400	11
Other operating costs	200,630		158,374		42,256	27
General and administrative	121,707		118,231		3,476	3
Depreciation and amortization	185,453		160,538		24,915	16
Income from operations	\$ 352,802	\$	304,855	\$	47,947	16%
Non-financial data:						
Transactions (in millions)	16,946		15,362			10%

As a Percentage of Net Revenue	Year Ended December 31,						
	2013	2012					
Net revenue	100.0%	100.0%					
Sales and marketing	26.6	27.4					
Other operating costs	17.1	15.5					
General and administrative	10.4	11.6					
Depreciation and amortization	15.8	15.7					
Income from operations	30.1%	29.8%					

Fiscal Year Ended December 31, 2013 Compared to Fiscal Year Ended December 31, 2012

Revenue

Revenue increased 13% to \$2,108.1 million for the year ended December 31, 2013 from \$1,863.2 million for the year ended December 31, 2012. The increase was due primarily to transaction growth of 10%, including the impact of our recent acquisitions, which have expanded our ecommerce and technology partner channels and have contributed to higher revenue per transaction.

Network Fees and Other Costs

Network fees and other costs increased 11% to \$935.4 million for the year ended December 31, 2013 from \$840.6 million for the year ended December 31, 2012. The increase was due primarily to transaction growth of 10% and higher network fees due to a shift in transaction mix as a result of our recent acquisitions, partially offset by debit routing benefits and a reduction of third party processing fees as we transitioned clients to our single processing platform.

Net Revenue

Net revenue, which is revenue less network fees and other costs, increased 15% to \$1,172.6 million for the year ended December 31, 2013 from \$1,022.6 million for the year ended December 31, 2012 due to the factors discussed above.

Sales and Marketing

Sales and marketing expense increased 11% to \$312.0 million for the year ended December 31, 2013 from \$280.6 million for the year ended December 31, 2012. The increase was attributable to higher sales and marketing personnel and related costs and higher residual payments to referral partners as a result of increased revenue.

Other Operating Costs

Other operating costs increased 27% to \$200.6 million for the year ended December 31, 2013 from \$158.4 million for the year ended December 31, 2012. The increase was primarily attributable to our recent acquisitions and an increase in information technology infrastructure and personnel costs in support of growth initiatives. Also contributing to the increase was a \$7.2 million increase in transition, acquisition and integration costs.

General and Administrative

General and administrative expenses increased 3% to \$121.7 million for the year ended December 31, 2013 from \$118.2 million for the year ended December 31, 2012. The increase was primarily attributable to higher personnel and related costs and professional service costs associated with our recent acquisitions, partially offset by a decrease of \$3.1 million in transition, acquisition and integration costs and a decrease in share-based compensation of \$3.7 million.

Depreciation and Amortization

Depreciation expense associated with our property, equipment and software increased 40% to \$56.8 million for the year ended December 31, 2013 from \$40.7 million for the year ended December 31, 2012. The increase during the year reflects depreciation expense associated with increased capital expenditures largely related to our continued investment in information technology infrastructure in support of growth initiatives, as well as assets acquired in connection with our recent acquisitions. After 2014, while depreciation expense will continue to increase on an absolute basis, growth on an annual basis is expected to slow as assets acquired at the time of our separation from Fifth Third as well as subsequent investments related to our transition to a stand-alone company reach the end of their depreciable lives.

Amortization expense associated with intangible assets, which consist primarily of customer relationship intangible assets, increased 7% to \$128.7 million for the year ended December 31, 2013 from \$119.9 million for the year ended December 31, 2012. The increase during the year is the result of intangible assets acquired in connection with our recent acquisitions, primarily consisting of amortization of customer relationship intangible assets.

Income from Operations

Income from operations increased 16% to \$352.8 million for the year ended December 31, 2013 from \$304.9 million for the year ended December 31, 2012.

Interest Expense—Net

Interest expense—net decreased to \$40.9 million for the year ended December 31, 2013 from \$54.6 million for the year ended December 31, 2012. The decrease in interest expense—net reflects our debt refinancing in March 2012, which resulted in a reduction of our outstanding debt at the time of the refinancing to approximately \$1.3 billion from \$1.8 billion, as well as a reduction in the applicable interest rate. Our May 2013 debt refinancing resulted in an increase in the amount of debt by approximately \$650 million, the impact of which was substantially offset by the reduction in applicable interest rates.

Non-Operating Expenses

Non-operating expenses were \$20.0 million for the year ended December 31, 2013, which consisted of charges related to the refinancing of our senior secured credit facilities in May 2013. Non-operating expenses were \$92.7 million for the year ended December 31, 2012 and consisted of \$86.7 million in charges related to the refinancing of our senior secured credit facilities and the early termination of our interest rate swaps in connection with our March 2012 debt refinancing as well as a \$6.0 million one-time activity fee assessed by MasterCard as a result of our IPO.

Income Tax Expense

Income tax expense for the year ended December 31, 2013 was \$83.8 million compared to \$46.9 million for the year ended December 31, 2012, reflecting effective rates of 28.7% and 29.7%, respectively. Our effective rate also reflects the impact of our non-controlling interest not being taxed at the statutory corporate tax rates. The decrease in our effective rate reflects the impact of the mix of income earned by our various legal entities, partially offset by the decrease in non-controlling interest, which was reduced in connection with the secondary offerings in May and August 2013. As our non-controlling interest declines to the point Vantiv Holding is a wholly-owned subsidiary, we expect our effective rate to increase to approximately 38.5%.

As a result of the acquisition of Litle, we generated tax benefits to be recognized over a period of 15 years from the date of the acquisition. During the year ended December 31, 2013, these benefits were approximately \$10.6 million. This benefit does not have an impact on our effective tax rate; however, these tax benefits are reflected in pro forma adjusted net income discussed above.

In connection with our IPO, we entered into four TRAs with our pre-IPO investors. The TRAs obligate us to make payments to such investors equal to 85% of the amount of cash savings, if any, in income taxes that we realize as a result of certain tax basis increases and net operating losses. We will retain the remaining 15% of cash savings. As we purchase units of Vantiv Holding from Fifth Third or as Fifth Third exchanges units of Vantiv Holding for cash or shares of Vantiv, Inc. Class A common stock in the future, we expect the associated cash savings to increase as a result of additional tax basis increases. For a further discussion of TRAs, see the "Liquidity and Capital Resources" section.

In the fourth quarter of 2013, we entered into tax receivable termination agreements with Advent and JPDN to terminate the obligations owed to them under the TRAs established at the time of our IPO. Under the terms of the tax receivable termination agreements, we paid approximately \$112 million to Advent and \$0.5 million to JPDN to settle approximately \$254 million of obligations under the TRAs, the difference of which was recorded as an addition to paid-in capital. As a result of the termination agreements, the TRAs with Advent and JPDN were terminated and we have no further obligations to Advent or JPDN under the TRAs. We remain obligated to pay amounts due to Fifth Third Bank under their TRAs. As a result, we have reflected the retention of the full amount of the cash tax benefits resulting from the realization of the tax attributes underlying the Advent and JPDN TRAs in pro forma adjusted net income.

During the year ended December 31, 2013, the cash savings associated with the TRAs retained by us were approximately \$13.7 million. The TRAs do not have an impact on our effective tax rate; however, savings retained by us are reflected in pro forma adjusted net income discussed above.

Segment Results

The following tables provide a summary of the components of segment profit for our two segments for the years ended December 31, 2013 and 2012.

			Ended nber 31					
		2013		2012		\$ Change	% Change	
				(dollars i	n thousa	ands)		
Merchant Services								
Total revenue	\$	1,639,157	\$	1,409,158	\$	229,999	16%	
Network fees and other costs		801,463		709,341		92,122	13	
Net revenue		837,694		699,817		137,877	20	
Sales and marketing		286,200		255,887		30,313	12	
Segment profit	\$	551,494	\$	443,930	\$	107,564	24%	
Non-financial data:	_		_					
Transactions (in millions)		13,333		11,912			12%	

Net Revenue

Net revenue in this segment increased 20% to \$837.7 million for the year ended December 31, 2013 from \$699.8 million for the year ended December 31, 2012. The increase during the year ended December 31, 2013 was due primarily to transaction growth of 12%, including the impact of our recent acquisitions, and debit routing benefits. Additionally, our recent acquisitions have expanded our ecommerce and technology partner channels and contributed to higher net revenue per transaction.

Sales and Marketing

Sales and marketing expense increased 12% to \$286.2 million for the year ended December 31, 2013 from \$255.9 million for the year ended December 31, 2012. The increase was primarily attributable to our recent acquisitions, higher sales and marketing personnel and related costs and higher residual payments to referral partners as a result of increased revenue.

		Ended nber 31,	,				
	2013		2012		\$ Change	% Change	
			(dollars i	n thous	ands)		
Financial Institution Services							
Total revenue	\$ 468,920	\$	454,081	\$	14,839	3%	
Network fees and other costs	133,978		131,256		2,722	2	
Net revenue	334,942		322,825		12,117	4	
Sales and marketing	25,844		24,757		1,087	4	
Segment profit	\$ 309,098	\$	298,068	\$	11,030	4%	
Non-financial data:							
Transactions (in millions)	3,613		3,450			5%	

Net Revenue

Net revenue in this segment increased 4% to \$334.9 million for the year ended December 31, 2013 from \$322.8 million for the year ended December 31, 2012. The increase during the year ended December 31, 2013 was due primarily to an increase in transactions and higher value added services revenue. This increase was partially offset by a decrease in net revenue per transaction, which was driven by a shift in the mix of our client portfolio, resulting in a lower rate per transaction.

Sales and Marketing

Sales and marketing expense increased 4% to \$25.8 million for the year ended December 31, 2013 from \$24.8 million for the year ended December 31, 2012, due primarily to personnel related costs associated with our product initiatives.

Fiscal Year Ended December 31, 2012 Compared to Fiscal Year Ended December 31, 2011

The following tables set forth our statements of income in dollars and as a percentage of net revenue for the periods presented.

	Pear Ended December 31,						
		2012		2011		\$ Change	% Change
				(dollars i	n thou	sands)	
Revenue	\$	1,863,239	\$	1,622,421	\$	240,818	15%

General and administrative		118,231		86,870		31,361	36
Depreciation and amortization		160,538		155,326		5,212	3
Income from operations	\$	304,855	\$	243,153	\$	61,702	25%
Non-financial data:							
Transactions (in millions)		15,362		12,935			19%

Voor Ended

As a Percentage of Net Revenue	Year Ended December 31,					
	2012	2011				
Net revenue	100.0%	100.0%				
Sales and marketing	27.4	27.4				
Other operating costs	15.5	16.6				
General and administrative	11.6	10.0				
Depreciation and amortization	15.7	17.9				
Income from operations	29.8%	28.1%				

Revenue

Revenue increased 15% to \$1,863.2 million for the year ended December 31, 2012 from \$1,622.4 million for the year ended December 31, 2011. The increase was due primarily to transaction growth of 19% driven primarily by investments in sales and marketing in connection with the expansion of our distribution. Revenue growth lagged transaction growth primarily due to the addition of a large national processing contract in the second quarter of 2012.

Network Fees and Other Costs

Network fees and other costs increased 11% to \$840.6 million for the year ended December 31, 2012 from \$756.7 million for the year ended December 31, 2011. The increase was due primarily to transaction growth of 19%, partially offset by debit routing benefits and the elimination of third party processing fees as we transitioned clients to our single processing platform. The increase in network fees and other costs lagged transaction growth due to the addition of a large national processing contract during the second quarter for which there are no substantial associated network fees and other costs.

Net Revenue

Net revenue increased 18% to \$1,022.6 million for the year ended December 31, 2012 from \$865.7 million for the year ended December 31, 2011. The increase in net revenue was due primarily to transaction growth of 19%.

Sales and Marketing

Sales and marketing expense increased 18% to \$280.6 million for the year ended December 31, 2012 from \$236.9 million for the year ended December 31, 2011 associated with growth in revenue and an increase in sales and marketing personnel and related costs, including residual payments made to ISOs and other third-party organizations.

Other Operating Costs

Other operating costs increased 10% to \$158.4 million for the year ended December 31, 2012 from \$143.4 million for the year ended December 31, 2011. The increase was primarily driven by an increase in information technology infrastructure and personnel costs associated with growth in transactions, partially offset by a reduction in transition, acquisition and integration costs of \$12.6 million.

General and Administrative

General and administrative expenses increased 36% to \$118.2 million for the year ended December 31, 2012 from \$86.9 million for the year ended December 31, 2011. The increase was due primarily to an increase in share-based compensation of \$30.5 million to \$33.4 million and higher personnel costs, offset by a decrease in transition, acquisition and integration costs of \$12.9 million. The increase in share-based compensation was the result of compensation cost associated with awards triggered by our IPO in March 2012.

Depreciation and Amortization

Depreciation and amortization expense increased 3% to \$160.5 million for the year ended December 31, 2012 from \$155.3 million for the year ended December 31, 2011. The increase during the year was primarily due to an increase in capital expenditures largely related to our information technology infrastructure.

Income from Operations

Income from operations increased 25% to \$304.9 million for the year ended December 31, 2012 from \$243.2 million for the year ended December 31, 2011.

Interest Expense-Net

As a result of our debt refinancing in March 2012, interest expense—net decreased to \$54.6 million for the year ended December 31, 2012 from \$111.5 million for the year ended December 31, 2011. The decrease was due primarily to the reduction of our outstanding debt to \$1.3 billion at December 31, 2012 from \$1.8 billion at December 31, 2011 and a reduction in our weighted average interest rate to approximately 3.2% during the current year compared to 5.1% during the prior year.

Non-Operating Expenses

Non-operating expenses were \$92.7 million for the year ended December 31, 2012 and consisted of \$86.7 million in charges related to the refinancing of our senior secured credit facilities and the early termination of our interest rate swaps in connection with our March 2012 debt refinancing as well as a \$6.0 million one-time activity fee assessed by MasterCard as a result of our IPO. Non-operating expenses were \$14.5 million for the year ended December 31, 2011 and consisted primarily of expenses related to the May 2011 debt refinancing.

Income Tax Expense

Income tax expense for the year ended December 31, 2012 was \$46.9 million compared to \$32.3 million for the year ended December 31, 2011, reflecting effective rates of 29.7% and 27.6%, respectively. Our effective rate reflects the impact of our non-controlling interest not being taxed at the statutory corporate tax rate. The increase in our effective rate during the period is primarily a result of the decrease in non-controlling interest, which was reduced in connection with our IPO and the December 2012 secondary offering from approximately 49% at the beginning of the year to approximately 33% at December 31, 2012. The effective tax rate is also impacted by the mix of income earned by our various legal entities. Further, as our non-controlling interest declines to the point Vantiv Holding is a wholly-owned subsidiary, we expect our effective rate to increase to approximately 38.5%.

In connection with our IPO, we entered into four TRAs with our pre-IPO investors. The TRAs obligate us to make payments to such investors equal to 85% of the amount of cash savings, if any, in income taxes that we realize as a result of certain tax basis increases and net operating losses. We will retain the remaining 15% of cash savings. During the year ended December 2012, the cash savings retained by us were approximately \$5.7 million.

The TRAs do not have an impact on our effective tax rate; however, savings retained by us are reflected in pro forma adjusted net income discussed above.

Further, as a result of the acquisition of Litle, we generated tax benefits to be recognized over a period of 15 years from the date of the acquisition. During the year ended December 31, 2012, these benefits were approximately \$0.9 million. This benefit does not have an impact on our effective tax rate; however, savings retained by us are reflected in pro forma adjusted net income discussed above.

Segment Results

The following tables provide a summary of the components of segment profit for our two segments for the years ended December 31, 2012 and 2011.

		Ended nber 31,	,			
	2012		2011		\$ Change	% Change
			(dollars i	n thous	ands)	
Merchant Services						
Total revenue	\$ 1,409,158	\$	1,185,253	\$	223,905	19%
Network fees and other costs	709,341		620,852		88,489	14
Net revenue	699,817		564,401		135,416	24
Sales and marketing	255,887		211,062		44,825	21
Segment profit	\$ 443,930	\$	353,339	\$	90,591	26%
Non-financial data:						
Transactions (in millions)	11,912		9,591			24%

Net Revenue

Net revenue in this segment increased 24% to \$699.8 million for the year ended December, 2012 from \$564.4 million for the year ended December, 2011. The increase during the year ended December 31, 2012 was due primarily to transaction growth of 24%. The increase is also a result of the addition of a large national processing contract as well as debit routing benefits, which partially offset increased network fees and other costs.

Sales and Marketing

Sales and marketing expense increased 21% to \$255.9 million for the year ended December 31, 2012 from \$211.1 million for the year ended December 31, 2011. The increase was primarily attributable to the increase in revenue and an increase in sales and marketing personnel and related costs, including residual payments to ISOs and other third-party organizations, as a result of investments in sales and marketing in connection with the expansion of our distribution.

Year End	ed
December	31.

	2012			2011		\$ Change	% Change		
				(dollars i	n thou				
Financial Institution Services									
Total revenue	\$	454,081	\$	437,168	\$	16,913	4 %		
Network fees and other costs		131,256		135,883		(4,627)	(3)		
Net revenue		322,825		301,285		21,540	7		
Sales and marketing		24,757		24,046		711	3		
Segment profit	\$	298,068	\$	277,239	\$	20,829	8 %		
Non-financial data:	-								
Transactions (in millions)		3,450		3,344			3 %		

Net Revenue

Net revenue in this segment increased 7% to \$322.8 million for the year ended December 31, 2012 from \$301.3 million for the year ended December 31, 2011. The increase during the year ended December 31, 2012 was primarily due to transaction growth of 3%, and growth in value added services. In addition, network fees and other costs were reduced due to the elimination of third party processing fees as we transitioned clients to our single processing platform as well as network incentives.

Sales and Marketing

Sales and marketing expense increased 3% to \$24.8 million for the year ended December 31, 2012 from \$24.0 million for the year ended December 31, 2011. The increase was primarily due to an increase in revenue.

Liquidity and Capital Resources

Our liquidity is funded primarily through cash provided by operations, debt and a line of credit, which is generally sufficient to fund our operations, planned capital expenditures, tax distributions made to our non-controlling interest holders, required payments under TRAs, debt service and acquisitions. However, because payments under the TRAs are determined based on realized cash savings resulting from the underlying tax attributes, a period of declining profitability would result in a corresponding reduction in our TRA payments, thus resulting in the TRA having a minimal effect on our liquidity and capital resources. As of December 31, 2013, our principal sources of liquidity consisted of \$171.4 million of cash and cash equivalents and \$250.0 million of availability under the revolving portion of our senior secured credit facilities. Our total indebtedness, including capital leases, was \$1.8 billion as of December 31, 2013.

In October 2013, our board of directors approved a program to repurchase up to \$137 million of our Class A common stock. As of December 31, 2013, approximately 3.5 million shares have been repurchased under this program for approximately \$103 million. As of the date of this filing, repurchases pursuant to the October 2013 authorization were substantially complete.

In February 2014, our board of directors authorized a program to repurchase up to an additional \$300 million of our Class A common stock. Purchases under the repurchase program are allowed from time to time in the open market, in privately negotiated transactions, or otherwise. The manner, timing, and amount of any purchases is determined by management based on an evaluation of market conditions, stock price and other factors. We may discontinue purchases at any time that management determines additional purchases are not warranted.

In connection with our IPO, we entered into the Exchange Agreement with Fifth Third, under which Fifth Third has the right, from time to time, to exchange their units in Vantiv Holding for shares of our Class A common stock or, at our option, cash. If we choose to satisfy the exchange in cash, we anticipate that we will fund such exchange through cash from operations, funds available under the revolving portion of our senior secured credit facilities, equity financings or a combination thereof.

In addition to principal needs for liquidity discussed above, our strategy includes expansion into high growth segments and verticals, entry into new geographic markets and development of additional payment processing services.

We anticipate that to the extent that we require additional liquidity, it will be funded through the incurrence of other indebtedness, equity financings or a combination. We cannot assure you that we will be able to obtain this additional liquidity on reasonable terms, or at all. Additionally, our liquidity and our ability to meet our obligations and fund our capital requirements are also dependent on our future financial performance, which is subject to general economic, financial and other factors that are beyond our control. Accordingly, we cannot assure you that our business will generate sufficient cash flow from operations or that future borrowings will be available under our credit facilities or otherwise to meet our liquidity needs. If we decide to pursue one or more significant acquisitions, we may incur additional debt or sell additional equity to finance such acquisitions.

Cash Flows

The following table presents a summary of cash flows from operating, investing and financing activities for the years ended December 31, 2013, 2012 and 2011 (in thousands).

	Year Ended December 31,						
	 2013		2012		2011		
Net cash provided by operating activities	\$ 480,622	\$	293,114	\$	233,454		
Net cash used in investing activities	(228,298)		(417,291)		(69,920)		
Net cash used in financing activities	(147,955)		(179,314)		(29,497)		

Cash Flow from Operating Activities

Net cash provided by operating activities was \$480.6 million for the year ended December 31, 2013 as compared to \$293.1 million for the year ended December 31, 2012. The increase is due primarily to an increase in net income and changes in working capital, principally due to changes in net settlement assets and obligations. Settlement assets and obligations can fluctuate due to seasonality as well as the day of the month end.

Net cash provided by operating activities was \$293.1 million for the year ended December 31, 2012 as compared to \$233.5 million for the year ended December 31, 2011. The increase was primarily due to an increase in net income, the impact of non-cash expense items included in net income, primarily related to charges associated with our debt refinancing and share-based compensation, and changes in working capital.

Cash Flow from Investing Activities

Net cash used in investing activities was \$228.3 million for the year ended December 31, 2013 as compared to \$417.3 million for the year ended December 31, 2012. The decrease was primarily due to the acquisition of Litle during the year ended December 31, 2012, partially offset by cash used to fund the acquisition of Element during the year ended December 31, 2013.

Net cash used in investing activities was \$417.3 million for the year ended December 31, 2012 as compared to \$69.9 million for the year ended December 31, 2011. The increase was primarily due to the acquisition of Litle and customer portfolios and related assets, partially offset by a decrease in capital expenditures during the year ended December 31, 2012.

Cash Flow from Financing Activities

Net cash used in financing activities was \$148.0 million for the year ended December 31, 2013 as compared to \$179.3 million for the year ended December 31, 2012. Cash used in financing activities during the year ended December 31, 2013 reflects incremental funds of approximately \$650.0 million received in connection with our debt refinancing in May 2013, substantially offset by \$503.2 million used to fund share repurchases and \$112.6 million paid in connection with the settlement of certain TRA obligations as discussed above. Cash used in financing activities during the year ended December 31, 2012 primarily reflects the net impact of transactions related to our IPO and debt refinancing transactions. Cash used in financing activities during the years ended December 31, 2013 and 2012 also reflects \$41.2 million and \$32.6 million, respectively, of distributions made to our non-controlling interest holders.

Net cash used in financing activities was \$179.3 million for the year ended December 31, 2012 compared to \$29.5 million for the year ended December 31, 2011. The net impact of our IPO proceeds and March 2012 debt refinancing, including payment of related debt issuance costs, was an outflow of approximately \$81.1 million. As a result of transactions related to our IPO, we made distributions of approximately \$55.1 million. During the year ended December 31, 2012, we also made repayments of debt and capital lease obligations of \$93.7 million and tax distributions of \$32.6 million to our non-controlling interest holders. During the year ended December 31, 2011, net cash used in financing activities consisted of repayments of debt and capital lease obligations and tax distributions to our non-controlling interest holders.

Credit Facilities

As of December 31, 2013, our debt consisted of the following:

	December 31, 2013
	(in thousands)
\$1,850.0 million term A loan, maturing on May 15, 2018, and bearing interest at a variable base rate (LIBOR) plus a spread rate (175 basis points) (total rate of 1.92% at December 31, 2013) and amortizing on a basis of 1.25% during each of the first eight quarters, 1.875% during each of the second eight quarters and 2.5% during each of the following three quarters with a balloon	
payment due at maturity	\$ 1,803,750
\$10.1 million leasehold mortgage, expiring on August 10, 2021 and bearing interest payable monthly at a fixed rate (rate of	
6.22% at December 31, 2013)	10,131
Less: Current portion of note payable and current portion of note payable to related party	(92,500)
Less: Original issue discount	(2,631)
Total Long-Term Debt	\$ 1,718,750

In May 2013, the Company entered into a \$1.85 billion term A loan, of which a portion of the proceeds were used to repay senior secured credit facilities with an aggregate outstanding balance of approximately \$1.2 billion. The related revolving credit facility was also terminated. In addition to the new term A loan, the new debt agreement includes a \$250 million revolving credit facility. The maturity date and debt service requirements relating to the new term A loan are listed in the table above. The revolving credit facility matures in May 2018 and includes a \$75 million swing line facility and a \$40 million letter of credit facility. The commitment fee rate for the unused portion of the revolving credit facility is 0.375% per year.

As of December 31, 2013, Fifth Third Bank held \$343.6 million of the term A loans.

The loan agreement requires us to maintain a maximum leverage ratio (based upon the ratio of total funded debt to consolidated EBITDA, as defined in the loan agreement) and a minimum interest coverage ratio (based upon the ratio of consolidated EBITDA to interest expense), which are tested quarterly based on the last four fiscal quarters beginning with the four fiscal quarters ended September 30, 2013. The required financial ratios become more restrictive over time, with the specific ratios required by period set forth in the below table.

Period	Leverage Ratio (must not exceed)	Ratio (must exceed)
September 30, 2013 to September 30, 2014	4.75 to 1.00	3.50 to 1.00
December 31, 2014 to September 30, 2015	4.25 to 1.00	4.00 to 1.00
December 31, 2015 to September 30, 2016	4.00 to 1.00	4.00 to 1.00
December 31, 2016 and thereafter	3.75 to 1.00	4.00 to 1.00

As of December 31, 2013, we were in compliance with these covenants with a leverage ratio of 3.11 to 1.00 and an interest coverage ratio of 16.67 to 1.00.

Interest Rate Swaps

As of December 31, 2013, we had 16 outstanding interest rate swaps with a combined notional balance of \$1.4 billion (amortizing to \$1.1 billion) covering an exposure period from June 2013 through June 2017 that were designated as cash flow hedges of interest rate risk.

Building Loan

On July 12, 2011, we entered into a term loan agreement for approximately \$10.1 million for the purchase of our corporate headquarters facility. The interest rate is fixed at 6.22%, with interest only payments required for the first 84 months. Thereafter, and until maturity, we will pay interest and principal based upon a 30 year amortization schedule, with the remaining principal amount due at maturity, August 2021.

Tax Receivable Agreements

In connection with our IPO, we entered into four TRAs which obligate us to make payments to our pre-IPO investors. A description of each TRA is as follows:

• *TRA with Fifth Third Bank*: Provides for the payment by us to Fifth Third Bank equal to 85% of the amount of cash savings, if any, in U.S. federal, state, local and foreign income tax that we realize as a result of the increases in tax basis that result from the purchase of Vantiv Holding units from Fifth Third Bank or from the exchange of Vantiv Holding units by Fifth Third Bank for cash or shares of Class A common stock, as well as the tax benefits attributable to payments made under such TRA. Any actual increase in tax basis, as well as the amount and timing of any payments under the TRA, will vary depending upon a number of factors, including the timing of exchanges, the price of shares of our Class A common stock at the time of the exchange, the extent to which such exchanges are taxable, and the amount and timing of our income.

As we purchase units of Vantiv Holding from Fifth Third or as Fifth Third exchanges units of Vantiv Holding for cash or shares of Vantiv, Inc. Class A common stock in the future, we expect the associated cash savings to increase as a result of additional tax basis increases, therefore increasing the corresponding obligations under the TRA.

- *TRA* with Advent: Provided for the payment by us to Advent equal to 85% of the amount of cash savings, if any, in U.S. federal, state, local and foreign income tax that we realize as a result of the use of our tax attributes in existence prior to the effective date of our IPO.
- TRA with all pre-IPO investors: Provides for the payment by us to our pre-IPO investors of 85% of the amount of cash savings, if any, in U.S. federal, state, local and foreign income tax that NPC Group, Inc., or NPC, realizes as a result of its use of its NOLs and other tax attributes, with any such payment being paid to Advent, Fifth Third Bank and JPDN according to their respective ownership interests in Vantiv Holding immediately prior to the IPO.
- TRA with JPDN: Provided for the payment to JPDN of 85% of the amount of cash savings, if any, in U.S. federal, state, local and foreign income tax that we realize as a result in the increase of tax basis that may result from the Vantiv Holding units exchanged for our Class A common stock by JPDN, as well as the tax benefits attributable to payments made under such TRA. As part of the recapitalization of Vantiv, Inc. and Vantiv Holding immediately prior to the IPO, JPDN contributed its units of Vantiv Holding to Vantiv, Inc. in exchange for shares of our Class A common stock.

The following table reflects TRA activity and balances for the years ended December 31, 2013 and 2012 (in thousands):

	IPO	O Transaction	2	012 Secondary Offerings	Balance as of ecember 31, 2012	2	2013 Secondary Offerings	TR	A Settlements	Balance as of ember 31, 2013
TRA with Fifth Third Bank	\$	11,100	\$	154,000	\$ 165,100	\$	329,400	\$		\$ 494,500
TRA with Advent		183,800		_	183,800		_		(183,800)	_
TRA with all pre-IPO investors		134,100		_	134,100		_		(68,900)	65,200
TRA with JPDN		1,700		_	1,700		_		(1,700)	_
Total	\$	330,700	\$	154,000	\$ 484,700	\$	329,400	\$	(254,400)	\$ 559,700

Refer to discussion above regarding termination of the Advent and JPDN TRAs.

Payments under the TRAs are only required to the extent we realize cash savings as a result of the underlying tax attributes. For each of the TRAs discussed above, the cash savings realized by us are computed by comparing our actual income tax liability to the amount of such taxes we would have been required to pay had there been no increase to the tax basis of the assets of Vantiv Holding as a result of the purchase or exchange of Vantiv Holding units and had there been no tax benefit as a result of the NOLs and other tax attributes at NPC. We will retain the benefit of the remaining 15% of these tax savings.

The timing and/or amount of aggregate payments due under the TRAs may vary based on a number of factors, including the amount and timing of the taxable income we generate in the future and the tax rate then applicable, the use of loss carryovers and amortizable basis. Payments under the TRAs, if necessary, are required to be made no later than January 5th of the second year immediately following the current taxable year. Therefore, no payments under the TRAs were made during the year ended December 31, 2013. The first contractually obligated payment under the TRA obligations, approximately \$8.6 million, was paid during January 2014. The term of the TRAs will continue until all such tax benefits have been utilized or expired, unless we exercise our right to terminate the TRA for an amount based on the agreed payments remaining to be made under the agreement.

Contractual Obligations

The following table summarizes our contractual obligations and commitments as of December 31, 2013:

		Payments Due By Period						
	 Total		Less than 1 year		1 - 3 Years		3 - 5 Years	More than 5 Years
					(in the	usand	ls)	
Operating leases	\$ 23,848	\$	5,455	\$	5,957	\$	3,032	\$ 9,404
Capital leases	16,951		4,593		9,980		2,378	_
Borrowings(a)	1,953,273		127,546		318,306		1,495,727	11,694
Purchase commitments:								
Technology and telecommunications(b)	53,629		31,137		21,548		944	_
Processing Services(c)	14,225		6,471		6,554		960	240
Other	13,037		5,583		7,454		_	_
Obligations under TRAs	559,700		8,639		52,132		58,666	440,263
Total	\$ 2,634,663	\$	189,424	\$	421,931	\$	1,561,707	\$ 461,601

⁽a) Represents principal and variable interest payments due under our senior secured credit facilities and our loan agreement for our corporate headquarters facility as of December 31, 2013. Interest payments are as follows: \$35.0 million for less than 1 year; \$63.9 million for 1 - 3 years; \$38.8 million for 3 - 5 years and \$1.6 million for more than 5 years. Variable interest payments were calculated using interest rates as of December 31, 2013.

⁽b) Includes obligations related to software licenses, software maintenance support and telecommunication and network services.

(c) We have agreements with third-party processors to provide gateway authorization and other processing services. These agreements require us to submit a minimum number of transactions for processing. If we submit a number of transactions that is less than the minimum, we are required to pay the third party processor's fees that they would have received if we had submitted the required minimum number of transactions. Processing services includes amounts due under network sponsorship agreements.

Critical Accounting Policies and Estimates

Our discussion and analysis of our financial condition and results of operations are based upon our audited consolidated financial statements, which have been prepared in accordance with GAAP. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses. On an ongoing basis, we evaluate our estimates including those related to revenue recognition, goodwill and intangible assets, derivative financial instruments, income taxes and share-based compensation. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances. Actual results may differ from these estimates under different assumptions or conditions.

The accounting policies we believe to be most critical to understanding our financial results and condition and that require complex and subjective management judgments are discussed below.

Revenue Recognition

We have contractual agreements with our clients that set forth the general terms and conditions of the relationship including line item pricing, payment terms and contract duration. Revenues are recognized as earned (i.e., for transaction based fees, when the underlying transaction is processed) in conjunction with ASC 605, *Revenue Recognition*. ASC 605, *Revenue Recognition*, establishes guidance as to when revenue is realized or realizable and earned by using the following criteria: (1) persuasive evidence of an arrangement exists; (2) delivery has occurred or services have been rendered; (3) the seller's price is fixed or determinable; and (4) collectibility is reasonably assured.

We follow guidance provided in ASC 605-45, *Principal Agent Considerations*. ASC 605-45, *Principal Agent Considerations*, states that whether a company should recognize revenue based on the gross amount billed to a customer or the net amount retained is a matter of judgment that depends on the facts and circumstances of the arrangement and that certain factors should be considered in the evaluation. We recognize processing revenues net of interchange fees, which are assessed to our merchant customers on all processed transactions. Interchange rates are not controlled by us, in which we effectively act as a clearing house collecting and remitting interchange fee settlement on behalf of issuing banks, debit networks, credit card associations and its processing customers. All other revenue is reported on a gross basis, as we contract directly with the end customer, assume the risk of loss and have pricing flexibility.

Goodwill and Intangible Assets

In accordance with ASC 350, *Intangibles—Goodwill and Other*, we test goodwill for impairment for our two reporting units (Merchant Services and Financial Institution Services) on an annual basis, or when events occur or circumstances change that would indicate the fair value of a reporting unit is below its carrying value. These reporting units are also the segments for which we report financial results. If the fair value of a reporting unit is less than its carrying value, an impairment loss is recorded to the extent that fair value of the goodwill within the reporting unit is less than its carrying value. We performed our most recent annual goodwill impairment test for all reporting units as of July 31, 2013 using market data and discounted cash flow analysis. Based on this analysis, it was determined that the fair value of all reporting units was substantially in excess of the carrying value.

Intangible assets consist primarily of acquired customer relationships amortized over their estimated useful lives and an indefinite lived trade name not subject to amortization. We review the acquired customer relationships for possible impairment whenever events or changes in circumstances indicate that carrying amounts may not be recoverable. The indefinite lived trade name is tested for impairment annually. We performed our most recent annual trade name impairment test as of July 31, 2013, which indicated there was no impairment.

Income Taxes

We are taxed as a C corporation for U.S. income tax purposes and is therefore subject to both federal and state taxation at a corporate level.

Income taxes are computed in accordance with ASC 740, *Income Taxes*, and reflect the net tax effects of temporary differences between the financial reporting carrying amounts of assets and liabilities and the corresponding income tax amounts. We

have deferred tax assets and liabilities and maintain valuation allowances where it is more likely than not that all or a portion of deferred tax assets will not be realized. To the extent we determine that we will not realize the benefit of some or all of its deferred tax assets, such deferred tax assets will be adjusted through our provision for income taxes in the period in which this determination is made. As of December 31, 2013, 2012 and 2011 we had recorded no valuation allowances against deferred tax assets.

Our effective tax rate reflects the effect of our non-controlling interests as the non-controlling interest holders are responsible for paying income taxes on their percentage ownership of Vantiv Holding, thereby reducing our income tax expense. Our effective rate will increase as our controlling interest in Vantiv Holding increases as we will be responsible for paying income taxes on a greater percentage of taxable income, thereby increasing our income tax expense.

Share-Based Compensation

In March 2012, our board of directors adopted the 2012 Vantiv, Inc. Equity Incentive Plan. This plan provides for grants of stock options, stock appreciation rights, restricted stock and restricted stock units, performance awards and other stock-based awards. Under this plan, stock options, restricted stock, restricted stock units and performance awards have been issued. The weighted average grant date fair value of the restricted stock, restricted stock units and performance units is based on the quoted fair market value of our common stock on the award grant date.

The stock options have a weighted-average grant date fair value of \$7.10, which was estimated by us using the Black-Scholes option pricing model with the assumptions below:

	2013
Expected option life at grant (in years)	6.25
Expected volatility	30.60%
Expected dividend yield	 %
Risk-free interest rate	1.15%

The expected option life represents the period of time the stock options are expected to be outstanding and is based on the "simplified method" allowed under SEC guidance. We used the "simplified method" due to the lack of sufficient historical exercise data to provide a reasonable basis upon which to otherwise estimate the expected life of the stock options. Since our publicly traded stock history is relatively short, expected volatility is based on our historical volatility and the historical volatility of a group of peer companies. We do not intend to pay cash dividends in the foreseeable future. Consequently, we used an expected dividend yield of zero. The risk-free interest rate was based on the U.S. Treasury yield curve in effect at the time of the grant.

For the year ended December 31, 2013, share-based compensation expense was \$29.7 million.

Tax Receivable Agreements

We are party to two tax receivable agreements with Fifth Third Bank, which were executed in connection with our IPO. One provides for the payment by us to Fifth Third Bank of 85% of the amount of cash savings, if any, in U.S. federal, state, local and foreign income tax that we actually realize as a result of the increases in tax basis that may result from the purchase of Vantiv Holding units from Fifth Third Bank or from the future exchange of units by Fifth Third Bank for cash or shares of our Class A common stock, as well as the tax benefits attributable to payments made under such tax receivable agreement. Any actual increase in tax basis, as well as the amount and timing of any payments under the agreement, will vary depending upon a number of factors, including the timing of exchanges, the price of shares of our Class A common stock at the time of the exchange, the extent to which such exchanges are taxable, and the amount and timing of our income. The other tax receivable agreement provides for the payment by us to Fifth Third Bank of 85% of the amount of cash savings according to Fifth Third Bank's respective ownership interests in Vantiv Holding immediately prior to our initial public offering, if any, in U.S. federal, state, local and foreign income tax that NPC actually realizes as a result of its use of its NOLs and other tax attributes.

Payments under the TRAs are only required to the extent we realize cash savings as a result of the underlying tax attributes. For each of the TRAs discussed above, the cash savings realized by us are computed by comparing our actual income tax liability to the amount of such taxes we would have been required to pay had there been no increase to the tax basis of the assets of Vantiv Holding as a result of the purchase or exchange of Vantiv Holding units and had there been no tax benefit as a result of the NOLs and other tax attributes at NPC. As such, obligations recorded pursuant to the TRAs are based on estimates of future taxable income and future tax rates. We will retain the benefit of the remaining 15% of these tax savings.

The timing and/or amount of aggregate payments due under the TRAs may vary based on a number of factors, including the amount and timing of the taxable income we generate in the future and the tax rate then applicable, the use of loss carryovers and amortizable basis. The term of the TRAs will continue until all such tax benefits have been utilized or expired, unless we exercise our right to terminate the TRA for an amount based on the agreed payments remaining to be made under the agreement.

Off-Balance Sheet Arrangements

We have no off-balance sheet financing arrangements.

Item 7A. Quantitative and Qualitative Disclosure About Market Risk

We are exposed to interest rate risk in connection with our senior secured credit facilities, which are subject to variable interest rates.

As of December 31, 2013, we had 16 outstanding interest rate swaps with a combined notional balance of \$1.4 billion (amortizing to \$1.1 billion) covering an exposure period from June 2013 through June 2017. As of December 31, 2013, we had \$454 million of variable rate debt not subject to a fixed rate swap.

Based on the amount outstanding under our senior secured credit facilities at December 31, 2013, a change in one percentage point in variable interest rates, after the effect of our interest rate swaps, would cause an increase or decrease in interest expense of \$4.5 million on an annual basis.

Item 8. Financial Statements and Supplementary Data

Index to Consolidated Financial Statements

	Page

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of Vantiv, Inc. Symmes Township, Ohio

We have audited the accompanying consolidated statements of financial position of Vantiv, Inc. and subsidiaries (the "Company") as of December 31, 2013 and 2012, and the related consolidated statements of income, comprehensive income, equity and cash flows for each of the three years in the period ended December 31, 2013. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the financial position of Vantiv, Inc. and subsidiaries as of December 31, 2013 and 2012, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2013, in conformity with accounting principles generally accepted in the United States of America.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company's internal control over financial reporting as of December 31, 2013, based on the criteria established in *Internal Control - Integrated Framework (1992)* issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated February 14, 2014 expressed an unqualified opinion on the Company's internal control over financial reporting.

/s/ DELOITTE & TOUCHE LLP

Cincinnati, Ohio February 14, 2014

Vantiv, Inc. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Description of Business

Vantiv, Inc., a Delaware corporation, is a holding company that conducts its operations through its majority-owned subsidiary, Vantiv Holding, LLC ("Vantiv Holding"). Vantiv, Inc. and Vantiv Holding are referred to collectively as the "Company," "Vantiv," "we," "us" or "our," unless the context requires otherwise.

The Company provides electronic payment processing services to merchants and financial institutions throughout the United States of America. The Company markets its services through diverse distribution channels, including national, regional and mid-market sales teams, third-party reseller clients and a telesales operation. The Company also has relationships with a broad range of merchant banks; technology partners, which include independent software vendors ("ISVs"), value-added resellers ("VARs") and payment facilitators; independent sales organizations ("ISOs") and trade associations as well as arrangements with core processors.

Segments

The Company's segments consist of the Merchant Services segment and the Financial Institution Services segment. The Company's Chief Executive Officer ("CEO"), who is the chief operating decision maker ("CODM"), evaluates the performance and allocates resources based on the operating results of each segment. Below is a summary of each segment:

- Merchant Services—Provides merchant acquiring and payment processing services to large national merchants, regional and small-to-mid sized businesses. Merchant services are sold to small to large businesses through diverse distribution channels. Merchant Services includes all aspects of card processing including authorization and settlement, customer service, chargeback and retrieval processing and interchange management.
- Financial Institution Services—Provides card issuer processing, payment network processing, fraud protection, card production, prepaid program management, automated teller machine ("ATM") driving and network gateway and switching services that utilize the Company's proprietary Jeanie debit payment network to a diverse set of financial institutions, including regional banks, community banks, credit unions and regional personal identification number ("PIN") networks. Financial Institution Services also provides statement production, collections and inbound/outbound call centers for credit transactions, and other services such as credit card portfolio analytics, program strategy and support, fraud and security management and chargeback and dispute services.

Initial Public Offering and Reorganization Transactions

On March 21, 2012, Vantiv, Inc. completed the initial public offering ("IPO") of its Class A common stock. Immediately prior to the consummation of the IPO, the Company executed several reorganization transactions, collectively referred to as the "Reorganization Transactions." The Reorganization Transactions included, among other things, the following:

- Amendment and restatement of Vantiv, Inc.'s certificate of incorporation to provide for Class A and Class B common stock (see Note 12 -Capital Stock for further discussion);
- Reclassification of Vantiv, Inc.'s existing common stock into shares of Class A common stock and a 175.76 for 1 stock split of the Class A common stock, which has been retrospectively reflected within these accompanying consolidated financial statements;
- Amendment and restatement of the Vantiv Holding Limited Liability Company Agreement and a 1.7576 for 1 split of the Class A units and Class B units of Vantiv Holding;
- Execution of an exchange agreement (the "Exchange Agreement") among the Company and Fifth Third Bank, a subsidiary of Fifth Third Bancorp, and FTPS Partners, LLC, a wholly-owned subsidiary of Fifth Third Bank, collectively referred to as "Fifth Third," to provide for a 1 to 1 ratio between the units of Vantiv Holding and the common stock of Vantiv, Inc., and the exchange of Class B units and Class C non-voting units of Vantiv Holding for Class A common stock of Vantiv, Inc. on a one-for-one basis, or, at Vantiv, Inc.'s option, for cash;

- Exchange of Class A and Class B units of Vantiv Holding held by JPDN Enterprises, LLC ("JPDN"), an affiliate of Charles D. Drucker, the Company's CEO, for shares of Vantiv, Inc.'s Class A common stock;
- Execution of four tax receivable agreements ("TRAs") with Vantiv Holding's pre-IPO investors, which obligate the Company to make payments to such investors equal to 85% of the amount of cash savings, if any, in U.S. federal, state, local and foreign income tax that the Company realizes as a result of certain tax basis increases and net operating losses ("NOLs"). During the year ended December 31, 2013, certain of these tax receivable agreements were terminated (see Note 7 Tax Receivable Agreements for a discussion of the TRAs);
- Execution of a recapitalization agreement with Vantiv Holding's pre-IPO investors, pursuant to which, among other things, the Company paid Fifth Third a \$15.0 million fee related to the modification of its consent rights under the Amended and Restated Vantiv Holding Limited Liability Company Agreement, which is reflected as a distribution to non-controlling interests within the accompanying consolidated statements of cash flows and equity for the year ended December 31, 2012. Additionally, the Company made a \$40.1 million cash distribution to funds managed by Advent International Corporation ("Advent"), which is reflected as such in the accompanying consolidated statements of cash flows and equity for the year ended December 31, 2012; and
- Conversion of outstanding awards under the Vantiv Holding Management Phantom Equity Plan ("Phantom Equity Plan") into unrestricted and restricted Class A common stock issued under the 2012 Vantiv, Inc. Equity Incentive Plan ("2012 Equity Incentive Plan") (see Note 13 Share-Based Compensation Plans for a discussion of the Company's share-based compensation plans).

In the IPO, Vantiv, Inc. issued and sold 29,412,000 shares of Class A common stock at a public offering price of \$17.00 per share for net proceeds of \$457.9 million after deducting underwriting discounts and commissions and other offering expenses, including \$3.0 million accrued for offering costs associated with contractually obligated future offerings. The Company used the net proceeds to pay down a portion of the amount outstanding under its senior secured credit facilities. Vantiv, Inc. also issued 86,005,200 shares of Class B common stock, which give voting rights, but no economic interests, to Fifth Third. No proceeds were generated from the issuance of the Class B common stock.

In connection with the exercise of the underwriters' overallotment option, an additional 4,411,800 shares of Class A common stock were sold to the public at an offering price of \$17.00 per share. Of the shares sold in the overallotment, 2,325,736 shares were sold by the selling stockholders and 2,086,064 shares were sold by Vantiv, Inc. Vantiv, Inc. used the net proceeds resulting from the shares it sold in the overallotment option to redeem an equivalent number of Class B units of Vantiv Holding held by Fifth Third pursuant to the Exchange Agreement. The Company did not receive any proceeds from the sale of shares by the selling stockholders.

Secondary Offerings and Share Repurchase

In August 2012, a secondary offering took place in which Advent sold 14.1 million shares of Vantiv, Inc. Class A common stock at a price of \$21.90 per share. In December 2012, a secondary offering took place in which Fifth Third sold 13.7 million shares of Vantiv, Inc. Class A common stock at a price of \$20.10 per share. The Company did not receive any proceeds from these sales.

In May 2013, a secondary offering took place in which selling shareholders sold 40.7 million shares of Vantiv, Inc. Class A common stock. The Company did not receive any proceeds from these sales. In connection with the secondary offering, the Company repurchased approximately 17.5 million shares of its Class A common stock sold to the underwriters in the secondary offering for \$400 million at a price per share equal to the price paid by the underwriters to purchase the shares from the selling shareholders in the offering. The repurchased shares were retired and accounted for as a reduction to equity in the accompanying consolidated financial statements. In connection with the share repurchase, the Company incurred costs of approximately \$0.6 million, which are also reflected as a reduction to equity in the accompanying consolidated statement of equity. In connection with the share repurchase, the Company refinanced our existing senior secured credit facilities, resulting in an increase in the amount of debt by approximately \$650 million, \$400 million of which was used to fund the share repurchase (see Note 6 - Long-Term Debt).

In August and November 2013, secondary offerings took place in which selling shareholders sold 20.0 million and 15.0 million shares, respectively, of Vantiv, Inc. Class A common stock. The Company did not receive any proceeds from these sales.

Basis of Presentation and Consolidation

The accompanying consolidated financial statements include those of Vantiv, Inc. and all subsidiaries thereof, including its majority-owned subsidiary, Vantiv Holding, LLC. The accompanying consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). All intercompany balances and transactions have been eliminated.

As of December 31, 2013, Vantiv, Inc. and Fifth Third owned interests in Vantiv Holding of 74.38% and 25.62%, respectively (see Note 9 - Controlling and Non-controlling Interests in Vantiv Holding for changes in non-controlling interests).

The Company accounts for non-controlling interests in accordance with Accounting Standards Codification ("ASC") 810, Consolidation. Non-controlling interests represent the minority shareholders' share of net income or loss of and equity in Vantiv Holding. Net income attributable to non-controlling interests does not include expenses incurred directly by Vantiv, Inc., including income tax expense attributable to Vantiv, Inc. All of the Company's non-controlling interests are presented after Vantiv Holding income tax expense in the accompanying consolidated statements of income as "Net income attributable to non-controlling interests." Non-controlling interests are presented as a component of equity in the accompanying consolidated statements of financial position.

Sponsorship

In order to provide electronic payment processing services, Visa, MasterCard and other payment networks require sponsorship of non-financial institutions by a member clearing bank. In June 2009, the Company entered into a ten-year agreement with Fifth Third (the "Sponsoring Member"), to provide sponsorship services to the Company. The Company also has agreements with certain other banks that provide sponsorship into the card networks.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Revenue Recognition

The Company has contractual agreements with its clients that set forth the general terms and conditions of the relationship including line item pricing, payment terms and contract duration. Revenues are recognized as earned (i.e., for transaction based fees, when the underlying transaction is processed) in conjunction with ASC 605, *Revenue Recognition*. ASC 605, *Revenue Recognition*, establishes guidance as to when revenue is realized or realizable and earned by using the following criteria: (1) persuasive evidence of an arrangement exists; (2) delivery has occurred or services have been rendered; (3) the seller's price is fixed or determinable; and (4) collectibility is reasonably assured.

The Company follows guidance provided in ASC 605-45, *Principal Agent Considerations*. ASC 605-45, *Principal Agent Considerations*, states that whether a company should recognize revenue based on the gross amount billed to a customer or the net amount retained is a matter of judgment that depends on the facts and circumstances of the arrangement and that certain factors should be considered in the evaluation. The Company recognizes processing revenues net of interchange fees, which are assessed to the Company's merchant customers on all processed transactions. Interchange rates are not controlled by the Company, which effectively acts as a clearing house collecting and remitting interchange fee settlement on behalf of issuing banks, debit networks, credit card associations and its processing customers. All other revenue is reported on a gross basis, as the Company contracts directly with the end customer, assumes the risk of loss and has pricing flexibility.

The Company generates revenue primarily by processing electronic payment transactions. Set forth below is a description of the Company's revenue by segment.

Merchant Services

The Company's Merchant Services segment revenue is primarily derived from processing credit and debit card transactions. Merchant Services revenue is primarily comprised of fees charged to businesses, net of interchange fees, for payment processing services, including authorization, capture, clearing, settlement and information reporting of electronic transactions. The fees charged consist of either a percentage of the dollar volume of the transaction or a fixed fee, or both, and are recognized at the time of the transaction. Merchant Services revenue also includes a number of revenue items that are incurred by the Company and are reimbursable as the costs are passed through to and paid by the Company's clients. These items primarily consist of Visa, MasterCard and other payment network fees. In addition, for sales through ISOs and certain other referral sources in which the Company is the primary party to the contract with the merchant, the Company records the full amount of the fees collected from the merchant as revenue. Merchant Services segment revenue also includes revenue from ancillary services such as fraud management, equipment sales and terminal rent. Merchant Services revenue is recognized as services are performed.

Financial Institution Services

The Company's Financial Institution Services segment revenues are primarily derived from debit, credit and ATM card transaction processing, ATM driving and support, and PIN debit processing services. Financial Institution Services revenue associated with processing transactions includes per transaction and account related fees, card production fees and fees generated from the Company's Jeanie network. Financial Institution Services revenue related to card transaction processing is recognized when consumers use their client-issued cards to make purchases. Financial Institution Services also generates revenue through other services, including statement production, collections and inbound/outbound call centers for credit transactions and other services such as credit card portfolio analytics, program strategy and support, fraud and security management and chargeback and dispute services. Financial Institution Services revenue is recognized as services are performed.

Financial Institution Services provides certain services to Fifth Third. Revenues related to these services are included in the accompanying statements of income as related party revenues.

Expenses

Set forth below is a brief description of the components of the Company's expenses:

- Network fees and other costs consists of certain expenses incurred by the Company in connection with providing processing services to its
 clients, including Visa and MasterCard network association fees, payment network fees, card production costs, telecommunication charges,
 postage and other third party processing expenses.
- Sales and marketing expense primarily consists of salaries and benefits paid to sales personnel, sales management and other sales and marketing
 personnel, residual payments made to ISOs, technology partners, merchant banks and other third party partners and advertising and promotional
 costs.
- Other operating costs primarily consist of salaries and benefits paid to operational and IT personnel, costs associated with operating the Company's technology platform and data centers, information technology costs for processing transactions, product development costs, software consulting fees and maintenance costs.
- General and administrative expenses primarily consist of salaries and benefits paid to executive management and administrative employees, including finance, human resources, product development, legal and risk management, share-based compensation costs, equipment and occupancy costs and consulting costs.
- Non-operating expenses consist of charges related to the refinancing of the Company's senior secured credit facilities (see Note 6 Long-Term Debt) in May 2013 and March 2012, the early termination of the Company's interest rate swaps (see Note 8 Derivatives and Hedging Activities) in connection with the March 2012 debt refinancing and a one-time activity fee of \$6.0 million assessed by MasterCard as a result of the Company's IPO.

Share-Based Compensation

The Company expenses employee share-based payments under ASC 718, *Compensation—Stock Compensation*, which requires compensation cost for the grant-date fair value of share-based payments to be recognized over the requisite service period. The Company estimates the grant date fair value of the share-based awards issued in the form of options using the Black-Scholes option pricing model. The fair value of restricted stock awards and performance awards is measured based on the market price of the Company's stock on the grant date.

Earnings Per Share

Basic earnings per share is computed by dividing net income attributable to Vantiv, Inc. by the weighted average shares outstanding during the period. Diluted earnings per share is computed by dividing net income attributable to Vantiv, Inc., adjusted as necessary for the impact of potentially dilutive securities, by the weighted-average shares outstanding during the period and the impact of securities that would have a dilutive effect on earnings per share. See Note 16 - Net Income Per Share for further discussion.

Income Taxes

Vantiv, Inc. is taxed as a C corporation for U.S. income tax purposes and is therefore subject to both federal and state taxation at a corporate level.

Income taxes are computed in accordance with ASC 740, *Income Taxes*, and reflect the net tax effects of temporary differences between the financial reporting carrying amounts of assets and liabilities and the corresponding income tax amounts. The Company has deferred tax assets and liabilities and maintains valuation allowances where it is more likely than not that all or a portion of deferred tax assets will not be realized. To the extent the Company determines that it will not realize the benefit of some or all of its deferred tax assets, such deferred tax assets will be adjusted through the Company's provision for income taxes in the period in which this determination is made. As of December 31, 2013 and 2012 the Company had recorded no valuation allowances against deferred tax assets. See Note 14 - Income Taxes for further discussion of income taxes.

Cash and Cash Equivalents

Investments with original maturities of three months or less (that are readily convertible to cash) are considered to be cash equivalents and are stated at cost, which approximates fair value. Cash equivalents consist primarily of overnight EuroDollar sweep accounts which are maintained at reputable financial institutions with high credit quality and therefore are considered to bear minimal credit risk.

Accounts Receivable—net

Accounts receivable primarily represent processing revenues earned but not collected. For a majority of its customers, the Company has the authority to debit the client's bank accounts through the Federal Reserve's Automated Clearing House; as such, collectibility is reasonably assured. The Company records a reserve for doubtful accounts when it is probable that the accounts receivable will not be collected. The Company reviews historical loss experience and the financial position of its customers when estimating the allowance. As of December 31, 2013 and 2012, the allowance for doubtful accounts was not material to the Company's statements of financial position.

Customer Incentives

Customer incentives represent signing bonuses paid to customers. Customer incentives are paid in connection with the acquisition or renewal of customer contracts, and are therefore deferred and amortized using the straight-line method based on the contractual agreement. Related amortization is recorded as contra-revenue.

Property, Equipment and Software—net

Property, equipment and software consists of the Company's corporate headquarters facility, furniture and equipment, software and leasehold improvements. These assets are depreciated on a straight-line basis over their respective useful lives, which are 15 to 40 years for the Company's corporate headquarters facility and related improvements, 2 to 10 years for furniture and equipment, 3 to 5 years for software and 3 to 10 years for leasehold improvements or the lesser of the estimated

useful life of the improvement or the term of lease. Also included in property, equipment and software is work in progress consisting of costs associated with software developed for internal use which has not yet been placed in service.

The Company capitalizes certain costs related to computer software developed for internal use and amortizes such costs on a straight-line basis over an estimated useful life of 3 to 5 years. Research and development costs incurred prior to establishing technological feasibility are charged to operations as such costs are incurred. Once technological feasibility has been established, costs are capitalized until the software is placed in service.

Goodwill and Intangible Assets

In accordance with ASC 350, *Intangibles—Goodwill and Other*, the Company tests goodwill for impairment for each reporting unit on an annual basis, or when events occur or circumstances indicate the fair value of a reporting unit is below its carrying value. If the fair value of a reporting unit is less than its carrying value, an impairment loss is recorded to the extent that fair value of the goodwill within the reporting unit is less than its carrying value. The Company performed its most recent annual goodwill impairment test for all reporting units as of July 31, 2013 using market data and discounted cash flow analyses. Based on this analysis, it was determined that the fair value of all reporting units was substantially in excess of the carrying value. There have been no other events or changes in circumstances subsequent to the testing date that would indicate impairment of these reporting units as of December 31, 2013.

Intangible assets consist primarily of acquired customer relationships amortized over their estimated useful lives and an indefinite lived trade name not subject to amortization. The Company reviews the acquired customer relationships for possible impairment whenever events or changes in circumstances indicate that carrying amounts may not be recoverable. As of December 31, 2013, there have been no such events or circumstances that would indicate potential impairment. The indefinite lived trade name is tested for impairment annually. The Company performed its most recent annual trade name impairment test as of July 31, 2013, which indicated there was no impairment. There have been no other events or changes in circumstances subsequent to the testing date that would indicate impairment of the trade name as of December 31, 2013.

Settlement Assets and Obligations

Settlement assets and obligations result from Financial Institution Services when funds are transferred from or received by the Company prior to receiving or paying funds to a different entity. This timing difference results in a settlement asset or obligation. The amounts are generally collected or paid the following business day.

The settlement assets and obligations recorded by Merchant Services represent intermediary balances due to differences between the amount the Sponsoring Member receives from the card associations and the amount funded to the merchants. Such differences arise from timing differences, interchange expenses, merchant reserves and exception items. In addition, certain card associations limit the Company from accessing or controlling merchant settlement funds and, instead, require that these funds be controlled by the Sponsoring Member. The Company follows a net settlement process whereby, if the settlement received from the card associations precedes the funding obligation to the merchant, the Company temporarily records a corresponding liability. Conversely, if the funding obligation to the merchant precedes the settlement from the card associations, the amount of the net receivable position is recorded by the Company, or in some cases, the Sponsoring Member may cover the position with its own funds in which case a receivable position is not recorded by the Company.

Derivatives

The Company accounts for derivatives in accordance with ASC 815, *Derivatives and Hedging*. This guidance establishes accounting and reporting for derivative instruments, including certain derivative instruments embedded in other contracts, and for hedging activities. All derivatives, whether designated in hedging relationships or not, are required to be recorded on the statement of financial position at fair value. If the derivative is designated as a fair value hedge, the changes in the fair value of the derivative and the hedged item will be recognized in earnings. If the derivative is designated as a cash flow hedge, the effective portion of the change in the fair value of the derivative will be recorded in accumulated other comprehensive income ("AOCI") and will be recognized in the statement of income when the hedged item affects earnings. For a derivative that does not qualify as a hedge ("free-standing derivative"), changes in fair value are recognized in earnings. The Company does not enter into derivative financial instruments for speculative purposes.

New Accounting Pronouncements

In February 2013, the Financial Accounting Standards Board issued Accounting Standards Update 2013-02, "Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income." This amendment requires companies to disclose, in a single location within the financial statements or footnotes, reclassifications out of AOCI separately for each component of other comprehensive income. For significant reclassifications, the disclosure is required to include the respective line items in net earnings affected by the reclassification. The amendment is effective prospectively for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2012. The Company's adoption of this principle did not have a material impact on our accompanying consolidated financial statements.

2. BUSINESS COMBINATIONS

Acquisition of Element Payment Services, Inc.

On July 31, 2013, the Company completed the acquisition of Element Payment Services, Inc. ("Element"), acquiring all of the outstanding voting interest. Element is a provider of fully integrated payment processing solutions for ISVs. This acquisition provides the Company with strategic capabilities to partner with ISVs and positions the Company to increase its presence in the integrated payments market.

The acquisition was accounted for as a business combination under ASC 805, *Business Combinations*. The purchase price was allocated to the assets acquired and liabilities assumed based on the estimated fair value at the date of acquisition. The excess of the purchase price over the fair value of the net assets acquired was allocated to goodwill, none of which is deductible for tax purposes. Goodwill, assigned to Merchant Services, consists primarily of the acquired workforce and growth opportunities, none of which qualifies as an identifiable intangible asset. The preliminary purchase price allocation is as follows (in thousands):

Current assets	\$ 11,359
Equipment and software	8,193
Goodwill	135,068
Customer relationship intangible assets	29,300
Trade name	500
Current liabilities	(8,189)
Deferred tax liabilities	(13,772)
Total purchase price	\$ 162,459

Customer relationship intangible assets and the trade name have weighted average useful lives of 10 years and 1 year, respectively.

The pro forma results of the Company reflecting the acquisition of Element were not material to our financial results and therefore have not been presented.

Acquisition of Litle & Co., LLC

On November 30, 2012, the Company completed the acquisition of Litle & Co., LLC ("Litle"), acquiring all of the outstanding voting interests. Litle is an ecommerce payment processor, providing a fully-integrated payments solution for companies that sell goods and services to consumers over the internet and through direct response marketing. This acquisition significantly increases the Company's capabilities in ecommerce, expands its customer base of online merchants, and enables the delivery of Litle's innovative ecommerce solutions to the Company's clients.

The acquisition was accounted for as a business combination under ASC 805, *Business Combinations*. The purchase price was allocated to the assets acquired and liabilities assumed based on the estimated fair value at the date of acquisition. The excess of the purchase price over the fair value of the net assets acquired was allocated to goodwill, all of which is deductible for tax purposes. Goodwill, assigned to Merchant Services, consists primarily of tax benefits resulting from the acquisition, the acquired workforce and growth opportunities, none of which qualifies as an amortizable intangible asset. The final purchase price allocation is as follows (in thousands):

Current assets	\$ 10,326
Property and equipment	13,503
Non-current assets	30
Goodwill	276,171
Customer relationship intangible assets	73,600
Trade name	1,300
Current liabilities	(14,341)
Total purchase price	\$ 360,589

Customer relationship intangible assets and the trade name have weighted average useful lives of 10 years and 1 year, respectively.

The pro forma results of the Company reflecting the acquisition of Litle as if it had occurred at the beginning of the year were not material and therefore have not been presented.

The Company incurred expenses of approximately \$3.5 million during the year ended December 31, 2012 in conjunction with the acquisition of Litle, which are included within general and administrative expenses on the accompanying statement of income.

3. PROPERTY, EQUIPMENT AND SOFTWARE

A summary of the Company's property, equipment and software is as follows (in thousands):

	Estimated Useful Life	December 31, 2013		December 31, 2012
Building and improvements	15 - 40 years	\$	18,645	\$ 18,645
Furniture and equipment	2 - 10 years		88,650	75,913
Software	3 - 5 years		204,222	146,322
Leasehold improvements	3 - 10 years		5,162	3,558
Work in progress			38,039	16,304
Accumulated depreciation			(137,385)	(85,802)
Total		\$	217,333	\$ 174,940

Depreciation and amortization expense related to property, equipment and software for the years ended December 31, 2013, 2012 and 2011 was \$56.8 million, \$40.7 million and \$31.7 million, respectively.

4. GOODWILL AND INTANGIBLE ASSETS

A summary of changes in goodwill through December 31, 2013 is as follows (in thousands):

	Merchant Services			nancial Institution Services	Total		
Balance as of December 31, 2011	\$	957,524	\$	574,850	\$	1,532,374	
Goodwill attributable to acquisition of Litle		272,218		_		272,218	
Balance as of December 31, 2012		1,229,742		574,850		1,804,592	
Goodwill attributable to acquisition of Litle (1)		3,953		_		3,953	
Goodwill attributable to acquisition of Element		135,068		_		135,068	
Balance as of December 31, 2013	\$	1,368,763	\$	574,850	\$	1,943,613	

⁽¹⁾ Amount represents adjustments to goodwill associated with the acquisition of Litle as a result of the finalization of purchase accounting.

Intangible assets consist primarily of acquired customer relationships and trade names. The useful lives of customer relationships are determined based on forecasted cash flows, which include estimates for customer attrition associated with the underlying portfolio of customers acquired. The customer relationships acquired in conjunction with acquisitions are amortized based on the pattern of cash flows expected to be realized taking into consideration expected revenues and customer attrition, which are based on historical data and the Company's estimates of future performance. These estimates result in accelerated amortization on certain acquired assets. The trade name acquired in conjunction with the Company's acquisition of NPC Group, Inc. ("NPC") in 2010 is expected to remain in use for the foreseeable future and has therefore been deemed an indefinite lived intangible asset not subject to amortization. The trade name is reviewed for impairment on an annual basis. The Company reviews finite lived intangible assets for possible impairment whenever events or changes in circumstances indicate that carrying amounts may not be recoverable.

As of December 31, 2013 and 2012, the Company's intangible assets consisted of the following (in thousands):

	December 31, 2013		December 31, 2012
Customer relationship intangible assets	\$ 1,234,042	\$	1,212,919
Trade name - indefinite lived	41,000		41,000
Trade name - finite lived	500		1,300
Customer portfolios and related assets	26,422		16,780
	1,301,964		1,271,999
		'	
Less accumulated amortization on:			
Customer relationship intangible assets	496,906		383,962
Trade name - finite lived	208		_
Customer portfolios and related assets	9,518		3,501
	506,632		387,463
	\$ 795,332	\$	884,536

As of December 31, 2013 and 2012, finite-lived intangible assets had estimated remaining weighted-average lives of 7.1 years and 7.6 years, respectively. Amortization expense on intangible assets for the years ended December 31, 2013, 2012 and 2011 was \$128.6 million, \$119.9 million and \$123.6 million, respectively.

The estimated amortization expense of intangible assets for the next five years is as follows (in thousands):

2014	\$ 127,599
2015	121,141
2016	116,268
2017	111,813
2018	108,856

5. CAPITAL LEASES

The Company has various lease agreements for equipment that are classified as capital leases. The cost of equipment under capital leases as of December 31, 2013 and 2012 of approximately \$20.4 million and \$20.9 million, respectively, is included on the accompanying statements of financial position within property and equipment. Depreciation expense associated with capital leases for the years ended December 31, 2013, 2012 and 2011 was \$6.7 million, \$4.1 million and \$3.6 million, respectively.

The future minimum lease payments required under capital leases and the present value of net minimum lease payments as of December 31, 2013 are as follows (in thousands):

	Amoun	ıt
2014	\$	4,593
2015		4,990
2016		4,990
2017		2,378
Total minimum lease payments		16,951
Less: Amount representing interest		(581)
Present value of minimum lease payments		16,370
Less: Current maturities of capital lease obligations		(4,326)
Long-term capital lease obligations	\$	12,044

6. LONG-TERM DEBT

As of December 31, 2013 and 2012, the Company's debt consisted of the following:

]	December 31, 2013		December 31, 2012
		(in tho	usand	ls)
\$1,850.0 million term A loan, maturing on May 15, 2018, and bearing interest at a variable base rate (LIBOR) plus a spread rate (175 basis points) (total rate of 1.92% at December 31, 2013) and amortizing on a basis of 1.25% during each of the first eight quarters, 1.875% during each of the second eight quarters and 2.5% during each of the following three quarters with a balloon payment due at maturity	\$	1,803,750	\$	_
\$1,000.0 million term A loans, expiring on March 27, 2017, bearing interest payable quarterly based on the Company's leverage ratio at a variable base rate (LIBOR) plus a spread rate (175 to 250 basis points) (total rate of 2.46% at December 31, 2012) and amortizing on a basis of 1.25% during each of the first eight quarters, 1.875% during each of the second eight quarters and 2.5% during each of the following three quarters with a balloon payment due at maturity		_		962,500
\$250.0 million term B loans, expiring on March 27, 2019, bearing interest payable quarterly at a variable base rate (LIBOR) plus a spread rate (275 basis points) with a floor of 100 basis points (total rate of 3.75% at December 31, 2012) and amortizing on a basis of 1.0% per year with a balloon payment due at maturity		_		248,125
Borrowings under revolving credit facility (rate of 4.50% at December 31, 2012)		_		40,000
\$10.1 million leasehold mortgage, expiring on August 10, 2021 and bearing interest payable monthly at a fixed rate (rate of 6.22% at December 31, 2013)		10,131		10,131
Less: Current portion of note payable and current portion of note payable to related party		(92,500)		(92,500)
Less: Original issue discount		(2,631)		(4,651)
Note payable and note payable to related party	\$	1,718,750	\$	1,163,605

May 2013 Debt Refinancing

In May 2013, the Company entered into a \$1.85 billion term A loan, of which a portion of the proceeds were used to repay the existing senior secured credit facilities which consisted of term A and term B loans with an aggregate outstanding balance of approximately \$1.2 billion. The related revolving credit facility was also terminated. In addition to the new term A loan, the new debt agreement includes a \$250 million revolving credit facility. The maturity date and debt service requirements relating to the new term A loan are listed in the table above. The revolving credit facility matures in May 2018 and includes a \$75 million swing line facility and a \$40 million letter of credit facility. The commitment fee rate for the unused portion of the revolving credit facility is 0.375% per year.

As of December 31, 2013, Fifth Third held \$343.6 million of the term A loans.

March 2012 Debt Refinancing

Upon the completion of the Company's IPO, the Company used net proceeds and cash on hand of \$538.9 million to repay outstanding debt under the Company's 2011 refinanced debt agreement discussed below. Contemporaneous with the repayment, the Company refinanced the remaining debt outstanding under the 2011 refinanced debt agreement, which consisted of two tranches, "term B-1" and "term B-2", and terminated its \$150.0 million revolving credit facility.

The first lien loan agreement of the 2011 refinanced debt was refinanced into a new loan agreement consisting of term A loans and term B loans and a \$250.0 million revolving credit facility. As of the date of refinancing, the term A loans and term B loans had balances of \$1,000.0 million and \$250.0 million, respectively. The maturity dates and debt service requirements related to the term A loans and term B loans are listed in the table above. The revolving credit facility matured in March 2017 and included a \$75.0 million swing line facility and a \$40.0 million letter of credit facility. As of December 31, 2012, \$40.0 million was borrowed under the revolving credit facility. This borrowing was repaid in January 2013. The commitment fee rate for the unused portion of the revolving credit facility was 0.50% per year.

As of December 31, 2012, Fifth Third held \$308.0 million, of the term A loans and \$12.8 million of the \$40.0 million borrowed under the revolving credit facility.

May 2011 Debt Refinancing

On May 17, 2011, the Company refinanced \$1,771.1 million of debt outstanding under the existing first and second lien loan agreements (the "original debt"). Outstanding debt under the original first and second lien loan agreements was \$1,571.1 million and \$200.0 million, respectively, and matured in November 2016 and 2017, respectively.

The original debt was refinanced into a single first lien loan agreement (the "2011 refinanced debt") consisting of two tranches, "term B-1" and "term B-2," and a \$150.0 million revolving credit facility. As of the date of refinancing, term B-1 had a balance of \$1,621.1 million, while term B-2 carried a non-amortizing balance of \$150.0 million. The original second lien loan agreement was repaid in connection with the refinancing. The maturity dates of term B-1 and term B-2 were November 3, 2016 and 2017, respectively. The revolving credit facility was to mature on November 3, 2015. The primary change under the 2011 refinanced debt was the reduced applicable interest rate.

Original Issue Discount and Deferred Financing Fees

2013 Debt Refinancing

As a result of the Company's May 2013 debt refinancing discussed above, the Company expensed approximately \$20.0 million, which consisted primarily of the write-offs of unamortized deferred financing fees and original issue discount ("OID") associated with the component of the refinancing accounted for as a debt extinguishment. Amounts expensed in connection with the refinancing are recorded as a component of non-operating expenses in the accompanying consolidated statement of income for the year ended December 31, 2013. At December 31, 2013, deferred financing fees of approximately \$17.9 million and OID of approximately \$2.6 million are recorded as a component of other non-current assets and as a reduction of note payable, respectively, in the accompanying consolidated statement of financial position. Fifth Third participated in the debt both prior and subsequent to the refinancing pursuant to terms and conditions consistent with third-party lenders, and therefore the refinancing of the component of the Company's debt held by Fifth Third was treated consistently with the overall refinancing.

2012 Debt Refinancing

As a result of the Company's 2012 debt refinancing discussed above, the Company expensed approximately \$55.6 million, which consisted primarily of the write-offs of unamortized deferred financing fees and OID associated with the component of the refinancing accounted for as a debt extinguishment, as well as a call premium equal to 1% of the outstanding balance of the original debt, or approximately \$12.2 million. Amounts expensed in connection with the refinancing are recorded as a component of non-operating expenses in the accompanying consolidated statement of income for the year ended December 31, 2012. At December 31, 2012, deferred financing fees of approximately \$14.0 million and OID of approximately \$4.7 million are recorded as a component of other non-current assets and as a reduction of note payable, respectively, in the accompanying consolidated statement of financial position. Fifth Third participated in the debt both prior and subsequent to the refinancing pursuant to terms and conditions consistent with third-party lenders, and therefore the refinancing of the component of the Company's debt held by Fifth Third was treated consistently with the overall refinancing.

2011 Debt Refinancing

As a result of the Company's 2011 debt refinancing discussed above, the Company expensed approximately \$13.7 million, which consisted primarily of the write-offs of unamortized deferred financing fees and OID associated with the component of the refinancing accounted for as a debt extinguishment, as well as a call premium equal to 2% of the outstanding balance of the original debt, or approximately \$4.0 million. Amounts expensed in connection with the refinancing are recorded as a component of non-operating expenses in the accompanying consolidated statement of income for the year ended December 31, 2011.

Guarantees and Security

Our debt obligations at December 31, 2013 are unconditional and are guaranteed by Vantiv Holding and certain of Vantiv Holding's existing and subsequently acquired or organized domestic subsidiaries. The debt and related guarantees are secured on a first-priority basis (subject to liens permitted under the Loan Agreement) in substantially all the capital stock (subject to a 65% limitation on pledges of capital stock of foreign subsidiaries and domestic holding companies of foreign subsidiaries) and personal property of Vantiv Holding and any obligors as well as any real property in excess of \$5 million in the aggregate held by Vantiv Holding or any obligors (other than Vantiv Holding), subject to certain exceptions.

Covenants

There are certain financial and non-financial covenants contained in the loan agreement for the debt, which are tested quarterly. At December 31, 2013, the Company was in compliance with these covenants.

Building Loan

On July 12, 2011, the Company entered into a term loan agreement for approximately \$10.1 million for the purchase of our corporate headquarters facility. The interest rate is fixed at 6.22%, with interest only payments required for the first 84 months. Thereafter, until maturity, we will pay interest and principal based upon a 30 year amortization schedule, with the remaining principal amount due at maturity, August 2021.

7. TAX RECEIVABLE AGREEMENTS

In connection with its IPO, the Company entered into four TRAs with its pre-IPO investors, which consisted of certain funds managed by Advent, Fifth Third and JPDN. A description of each TRA is as follows:

- TRA with Fifth Third: Provides for the payment by the Company to Fifth Third equal to 85% of the amount of cash savings, if any, in U.S. federal, state, local and foreign income tax that the Company realizes as a result of the increases in tax basis that results from the purchase of Vantiv Holding units from Fifth Third or from the exchange of Vantiv Holding units by Fifth Third for cash or shares of Class A common stock, as well as the tax benefits attributable to payments made under such TRA. Any actual increase in tax basis, as well as the amount and timing of any payments under the TRA, will vary depending upon a number of factors, including the timing of exchanges, the price of shares of the Company's Class A common stock at the time of the exchange, the extent to which such exchanges are taxable, and the amount and timing of the Company's income.
 - Obligations of the Company under the TRA have been created as a result of the purchase of Vantiv Holding units from Fifth Third in connection with the underwriters' exercise of their option to purchase additional shares of the Company's Class A common stock subsequent to the IPO, as well as through the exchange by Fifth Third of Class B units of Vantiv Holding for Vantiv, Inc. Class A common stock in subsequent secondary offerings, as discussed in Note 1 Basis of Presentation and Summary of Significant Accounting Policies.
- *TRA with Advent*: Provides for the payment by the Company to Advent equal to 85% of the amount of cash savings, if any, in U.S. federal, state, local and foreign income tax that the Company realizes as a result of the use of the Company's tax attributes in existence prior to the effective date of the Company's IPO.
- *TRA with all pre-IPO investors*: Provides for the payment by the Company to its pre-IPO investors of 85% of the amount of cash savings, if any, in U.S. federal, state, local and foreign income tax that NPC, a wholly-owned

subsidiary of the Company, realizes as a result of its use of its NOLs and other tax attributes, with any such payment being paid to Advent, Fifth Third and JPDN according to their respective ownership interests in Vantiv Holding immediately prior to the IPO.

• TRA with JPDN: Provides for the payment to JPDN of 85% of the amount of cash savings, if any, in U.S. federal, state, local and foreign income tax that the Company realizes as a result in the increase of tax basis that may result from the Vantiv Holding units exchanged for the Company's Class A common stock by JPDN, as well as the tax benefits attributable to payments made under such TRA. As part of the recapitalization of Vantiv, Inc. and Vantiv Holding immediately prior to the IPO, JPDN contributed its units of Vantiv Holding to Vantiv, Inc. in exchange for shares of Class A common stock of Vantiv, Inc. creating a TRA obligation.

On October 23, 2013, the Company entered into substantially identical tax receivable termination agreements with Advent and JPDN to terminate the obligations owed to them under the TRAs discussed above. Under the terms of the tax receivable termination agreements, the Company paid approximately \$112 million to Advent and \$0.5 million to JPDN to settle approximately \$254 million of obligations under the TRAs. As Advent and JPDN are considered related parties of the Company, the difference between the TRA payment amount and the liabilities settled was recorded as an addition to paid-in capital. As a result of the termination agreements, the TRAs with Advent and JPDN were terminated and the Company has no further obligations to Advent or JPDN under the TRAs. The Company remains obligated to pay amounts due to Fifth Third Bank under its TRA. Advent is a stockholder of the Company and JPDN is an affiliate of the Company's president and chief executive officer. A special committee of the Company's board of directors comprised of independent, disinterested directors authorized the tax receivable termination agreements.

The Company will retain the benefit of the remaining 15% of the cash savings associated with the Fifth Third TRAs. As a result of the termination agreements with Advent and JPDN, the Company will retain 100% of the cash savings associated with their respective TRAs.

The following table reflects TRA activity and balances for the years ended December 31, 2013 and 2012 (in thousands):

	IF	O Transaction	20	012 Secondary Offerings	Bal	ance as of December 31, 2012	2	013 Secondary Offerings	TR	A Settlements	Bala	ance as of December 31, 2013
TRA with Fifth Third Bank	\$	11,100	\$	154,000	\$	165,100	\$	329,400	\$		\$	494,500
TRA with Advent		183,800		_		183,800		_		(183,800)		_
TRA with all pre-IPO												
investors		134,100		_		134,100		_		(68,900)		65,200
TRA with JPDN		1,700		_		1,700		_		(1,700)		_
Total	\$	330,700	\$	154,000	\$	484,700	\$	329,400	\$	(254,400)	\$	559,700

As a result of the exchanges of units of Vantiv Holding and TRA settlements discussed above, the Company recorded a deferred tax asset of \$373.5 million associated with the increase in tax basis. The Company recorded a corresponding reduction to paid-in capital for the difference between the TRA liability and the related deferred tax asset.

For each of the TRAs discussed above, the cash savings realized by the Company are computed by comparing the actual income tax liability of the Company to the amount of such taxes the Company would have been required to pay had there been no increase to the tax basis of the assets of Vantiv Holding as a result of the purchase or exchange of Vantiv Holding units, had there been no tax benefit from the tax basis in the intangible assets of Vantiv Holding on the date of the IPO and had there been no tax benefit as a result of the NOLs and other tax attributes at NPC. Subsequent adjustments of the tax receivable agreement obligations due to certain events (e.g. changes to the expected realization of NOLs or changes in tax rates) will be recognized in the statement of income.

The timing and/or amount of aggregate payments due under the TRAs may vary based on a number of factors, including the amount and timing of the taxable income the Company generates in the future and the tax rate then applicable, the use of loss carryovers and amortizable basis. Payments under the TRAs, if necessary, are required to be made no later than January 5th of the second year immediately following the current taxable year. Therefore, the Company was not required to make any payments under the TRAs during the year ended December 31, 2013. The first contractually obligated payment

under the TRA obligations, approximately \$8.6 million, was paid during January 2014. The payment is recorded as current portion of tax receivable agreement obligations to related parties on the accompanying consolidated statement of financial position. The term of the TRAs will continue until all such tax benefits have been utilized or expired, unless the Company exercises its right to terminate the TRA for an amount based on the agreed payments remaining to be made under the agreement.

8. DERIVATIVES AND HEDGING ACTIVITIES

Risk Management Objective of Using Derivatives

The Company enters into derivative financial instruments to manage differences in the amount, timing and duration of its known or expected cash payments related to its variable-rate debt. As of December 31, 2013, the Company's derivative instruments consisted of interest rate swaps, which hedged the variable rate debt by converting floating-rate payments to fixed-rate payments. These swaps are designated as cash flow hedges for accounting purposes.

Accounting for Derivative Instruments

The Company recognizes derivatives in other non-current assets or liabilities in the accompanying consolidated statements of financial position at their fair values. Refer to Note 15 - Fair Value Measurements for a detailed discussion of the fair value of its derivatives. The Company designates its interest rate swaps as cash flow hedges of forecasted interest rate payments related to its variable-rate debt.

The Company formally documents all relationships between hedging instruments and underlying hedged transactions, as well as its risk management objective and strategy for undertaking hedge transactions. This process includes linking all derivatives that are designated as cash flow hedges to forecasted transactions. A formal assessment of hedge effectiveness is performed both at inception of the hedge and on an ongoing basis to determine whether the hedge is highly effective in offsetting changes in cash flows of the underlying hedged item. Hedge effectiveness is assessed using a regression analysis. If it is determined that a derivative ceases to be highly effective during the term of the hedge, the Company will discontinue hedge accounting for such derivative.

The Company's interest rate swaps qualify for hedge accounting under ASC 815, *Derivatives and Hedging*. Therefore, the effective portion of changes in fair value were recorded in AOCI and will be reclassified into earnings in the same period during which the hedged transactions affected earnings.

Cash Flow Hedges of Interest Rate Risk

The Company's objectives in using interest rate derivatives are to add stability to interest expense and to manage its exposure to interest rate movements. To accomplish these objectives, the Company uses interest rate swaps as part of its interest rate risk management strategy. As of December 31, 2013, the Company had 16 outstanding interest rate swaps with a combined notional balance of \$1.4 billion (amortizing to \$1.1 billion) covering an exposure period from June 2013 through June 2017 that were designated as cash flow hedges of interest rate risk. Fifth Third is the counterparty to 5 of the 16 outstanding interest rate swaps with notional balances ranging from \$318.8 million to \$262.5 million.

The Company does not offset derivative positions in the accompanying consolidated financial statements. The table below presents the fair value of the Company's derivative financial instruments designated as cash flow hedges included within the accompanying consolidated statements of financial position (in thousands):

	Consolidated Statement of Financial Position Location	December 31, 2013	December 31, 2012		
Interest rate swaps	Other long-term assets	\$ 4,545	\$ _		
Interest rate swaps	Other long-term liabilities	\$ 3.728	\$ _		

Any ineffectiveness associated with such derivative instruments will be recorded immediately as interest expense in the accompanying consolidated statements of income. As of December 31, 2013, the Company estimates that \$2.1 million will be reclassified from accumulated other comprehensive income as an increase to interest expense during the next 12 months.

During the year ended December 31, 2012, as a result of the refinancing of the Company's debt during March 2012, the Company accelerated the reclassification of amounts in accumulated other comprehensive income (loss) to earnings as a result of the hedged forecasted transactions becoming probable of not occurring. The accelerated amounts were a loss of approximately \$31.1 million, which was recorded as a component of non-operating expenses in the accompanying consolidated statement of income for the year ended December 31, 2012.

The table below presents the effect of the Company's interest rate swaps on the accompanying consolidated statements of income for the years ended December 31, 2013, 2012 and 2011 (in thousands):

	Year Ended December 31,					
		2013		2012		2011
Derivatives in cash flow hedging relationships:						
Amount of gain (loss) recognized in OCI (effective portion) (1)	\$	244	\$	(4,256)	\$	(36,643)
Amount of loss reclassified from accumulated OCI into earnings (effective						
portion)		(573)		(2,600)		(7,220)
Amount of loss recognized in earnings (2)		_		(31,079)		(3,492)

- (1) "OCI" represents other comprehensive income.
- (2) For the year ended December 31, 2012, amount represents loss due to missed forecasted transaction and is recorded as a component of non-operating expenses in the accompanying consolidated statement of income. For the year ended December 31, 2011, amount represents ineffectiveness and is recorded as a component of interest expense—net in the accompanying consolidated statement of income.

Credit Risk Related Contingent Features

The Company has agreements with each of its derivative counterparties that contain a provision where if the Company defaults on any of its indebtedness, then the Company could also be declared in default on its derivative obligations.

As of December 31, 2013, the fair value of derivatives in a net liability position, which includes accrued interest but excludes any adjustment for nonperformance risk, related to these agreements was \$2.2 million. As of December 31, 2013, the Company has not posted any collateral related to these agreements. If the Company had breached any of these provisions at December 31, 2013, it could have been required to settle its obligations under the agreements at their termination value of \$2.2 million.

9. CONTROLLING AND NON-CONTROLLING INTERESTS IN VANTIV HOLDING

As discussed in Note 1 - Basis of Presentation and Summary of Significant Accounting Policies, Vantiv, Inc. owns a controlling interest in Vantiv Holding, and therefore consolidates the financial results of Vantiv Holding and records non-controlling interest for the economic interests in Vantiv Holding held by Fifth Third, with respect to periods subsequent to the IPO, and held by Fifth Third and JPDN, with respect to periods prior to the IPO. In connection with the IPO, various recapitalization and reorganization transactions were executed, as discussed in Note 1 - Basis of Presentation and Summary of Significant Accounting Policies. Further, as discussed in Note 1 - Basis of Presentation and Summary of Significant Accounting Policies, the Exchange Agreement entered into prior to the IPO provides for a 1 to 1 ratio between the units of Vantiv Holding and the common stock of Vantiv, Inc.

As of December 31, 2013, Vantiv, Inc.'s interest in Vantiv Holding was 74.38%. Changes in units and related ownership interest in Vantiv Holding are summarized as follows:

	Vantiv, Inc.	Fifth Third	JPDN	Total
As of December 31, 2011	50,930,455	48,933,182	136,363	100,000,000
% of ownership	50.93%	48.93%	0.14%	
Recapitalization transactions:				
Incremental units as a result of split	38,585,162	37,072,018	103,309	75,760,489
JPDN exchange of units for Class A common stock	239,672	_	(239,672)	_
IPO transactions:				
Issuance of Class A units of Vantiv Holding in connection with issuance of Class A common stock to public	31,498,064	(2,086,064)	_	29,412,000
Issuance of Class A units of Vantiv Holding in connection with issuance of Class A common stock under equity plan	8,716,141	_	_	8,716,141
Fifth Third exchange of Vantiv Holding units for shares of Class A common stock in connection with December 2012 secondary offering	13,700,000	(13,700,000)	_	_
Equity plan activity (a)	(1,425,814)	_	_	(1,425,814)
As of December 31, 2012	142,243,680	70,219,136	_	212,462,816
% of ownership	66.95%	33.05%	<u>-%</u>	
Fifth Third exchange of Vantiv Holding units for shares of Class A common stock in connection with 2013 secondary offerings	21,396,310	(21,396,310)	_	_
Share repurchases	(20,903,669)	_	_	(20,903,669)
Equity plan activity (a)	(977,640)	_	_	(977,640)
As of December 31, 2013	141,758,681	48,822,826	_	190,581,507
% of ownership	74.38%	25.62%	<u>-%</u>	

⁽a) Includes repurchase of Class A common stock to satisfy employee tax withholding obligations, forfeitures of restricted Class A common stock awards and the conversion of restricted stock units to Class A common stock.

As a result of the changes in ownership interests in Vantiv Holding, an adjustment of \$260.2 million has been recognized during the year ended December 31, 2013 in order to reflect the portion of net assets of Vantiv Holding attributable to non-controlling unit holders based on ownership interests in Vantiv Holding at the time of the secondary offerings in 2013.

The table below provides a reconciliation of net income attributable to non-controlling interests based on relative ownership interests in Vantiv Holding as discussed above (in thousands):

	Year Ended December, 31					
	2013 2012			2011		
Net income	\$	208,140	\$	110,758	\$	84,810
Items not allocable to non-controlling interests:						
Miscellaneous expenses (a)		_		_		861
Vantiv, Inc. income tax expense (b)		58,520		21,274		13,310
Vantiv Holding net income		266,660		132,032		98,981
Net income attributable to non-controlling interests (c)	\$	74,568	\$	53,148	\$	48,570

⁽a) Represents miscellaneous expenses incurred by Vantiv, Inc., primarily consisting of losses associated with the put rights received in conjunction with the separation from Fifth Third in 2009.

⁽b) Represents income tax expense related to Vantiv, Inc.

⁽c) Net income attributable to non-controlling interests reflects the allocation of Vantiv Holding's net income based on the proportionate ownership interests in Vantiv Holding held by the non-controlling unitholders. The net income attributable to non-controlling unitholders reflects the changes in ownership interests summarized in the table above.

In connection with the separation from Fifth Third, Fifth Third received a warrant that allows for the purchase of up to 20.4 million Class C Non-Voting Units of Vantiv Holding. The warrant is exercisable, in whole or in part, and from time to time, but not during a restricted period. A restricted period means a period during which Vantiv Holding (or any successor thereto) is treated as a partnership for U.S. federal income tax purposes; provided that the restricted period shall terminate upon the earlier of (i) a change of control, and (ii) in the event Vantiv, Inc. is no longer a public company owning Vantiv Holding, both as defined in the warrant agreement. In addition, the warrant is exercisable if Fifth Third delivers an opinion of counsel to Vantiv Holding that concludes, based on any Treasury regulations or guidance then in effect, that the exercise of the warrant will not cause an immediate taxable event to the other members of Vantiv Holding. The warrant expires upon the earliest to occur of the 20th anniversary of the issue date or a change of control where the price paid per unit in such change of control minus the exercise price of the warrant in less than zero. Fifth Third is entitled to purchase the underlying Units of the warrant at a price of \$15.98 per unit. The warrant was valued at approximately \$65.4 million at June 30, 2009, the issuance date, using a Black-Scholes option valuation model using probability weighted scenarios, assuming expected terms of 10 to 20 years, expected volatilities of 37.5% to 44.4%, risk free rates of 4.03% to 4.33% and expected dividend rates of 0%. The expected volatilities were based on historical and implied volatilities of comparable companies assuming similar expected terms. The warrant is recorded as a component of the non-controlling interest on the accompanying statements of financial position as of December 31, 2013 and 2012.

10. COMMITMENTS, CONTINGENCIES AND GUARANTEES

Leases

The Company leases office space under non-cancelable operating leases that expire between March 2014 and December 2045. Future minimum commitments under these leases are as follows (in thousands):

Year Ending December 31,	
2014	\$ 5,455
2015	3,601
2016	2,356
2017	1,695
2018	1,337
Thereafter	9,404
Total	\$ 23,848

Rent expense for the years ended December 31, 2013, 2012 and 2011 was approximately \$7.0 million, \$6.6 million and \$9.8 million, respectively. Rent expense for 2011 primarily reflects the lease agreement between the Company and Fifth Third entered into on July 1, 2009.

Legal Reserve

From time to time, the Company is involved in various litigation matters arising in the ordinary course of its business. While it is impossible to ascertain the ultimate resolution or range of financial liability with respect to these contingent matters, management believes none of these matters, either individually or in the aggregate, would have a material effect upon the Company's consolidated financial statements.

11. EMPLOYEE BENEFIT PLANS

The Company offers a defined contribution savings plan to virtually all Company employees. The plan provides for elective, tax-deferred participant contributions and Company matching contributions.

Expenses associated with the defined contribution savings plan for the years ended December 31, 2013, 2012 and 2011 were \$5.9 million, \$4.5 million and \$3.6 million, respectively.

12. CAPITAL STOCK

Common Stock

Under the Company's amended and restated certificate of incorporation, the Company is authorized to issue 890,000,000 shares of Class A common stock with a par value of \$0.00001 per share and 100,000,000 shares of Class B common stock with no par value per share. The Class A and Class B common stock each provide holders with one vote on all matters submitted to a vote of stockholders; however, the holders of shares of Class B common stock shall be limited to voting power, including voting power associated with any Class A common stock held, of 18.5% at any time other than in connection with a stockholder vote with respect to a change of control. Also, holders of Class B common stock do not have any of the economic rights (including rights to dividends and distributions upon liquidation) provided to the holders of Class A common stock. The holders of Class B common stock hold one share of Class B common stock for each Vantiv Holding Class B unit they hold. The Class B units of Vantiv Holding may be exchanged for shares of Class A common stock on a one-for-one basis or, at the Company's option, for cash. Upon exchange of any Class B units of Vantiv Holding, an equal number of shares of Class B common stock automatically will be cancelled. The Class A common stock and Class B common stock vote together as a single class, except that the holders of Class B common stock are entitled to elect a number of the Company's directors equal to the percentage of the voting power of all of the outstanding common stock represented by the Class B common stock but not exceeding 18.5% of the board of directors. Fifth Third holds all of the issued and outstanding Class B common stock.

As discussed in Note 1 - Basis of Presentation and Summary of Significant Accounting Policies, on March 21, 2012, the Company completed the IPO of its Class A common stock. In the IPO, an aggregate of 33,823,800 shares of Class A common stock were issued and sold to the public (including 4,411,800 Class A shares representing an over-allotment option granted by the Company and the selling stockholders to the underwriters in the IPO) at a price per share of \$17.00. In conjunction with the IPO, the Company also issued 86,005,200 shares of Class B common stock to Fifth Third. As of December 31, 2013, 141,758,681 shares of Class A common stock and 48,822,826 shares of Class B common stock were issued and outstanding.

On October 22, 2013, the Company's board of directors approved a program to repurchase up to \$137 million of the Company's Class A common stock. Purchases under the repurchase program are allowed from time to time in the open market, in privately negotiated transactions, or otherwise. The manner, timing, and amount of any purchases is determined by management based on an evaluation of market conditions, stock price, and other factors. As of December 31, 2013, approximately 3.5 million shares have been repurchased under this program for approximately \$103 million. The repurchased shares were immediately retired. The Company may discontinue purchases at any time that management determines additional purchases are not warranted.

Preferred Stock

Under the Company's amended and restated certificate of incorporation, the Company is authorized to issue 10,000,000 shares of preferred stock with a par value of \$0.00001 per share. As of December 31, 2013, there was no preferred stock outstanding.

Dividend Restrictions

Vantiv, Inc. is a holding company that does not conduct any business operations of its own. As a result, Vantiv, Inc.'s ability to pay cash dividends on its common stock, if any, is dependent upon cash dividends and distributions and other transfers from Vantiv Holding, which are subject to certain Fifth Third consent rights in the Amended and Restated Vantiv Holding Limited Liability Company Agreement. The amounts available to Vantiv, Inc. to pay cash dividends are also subject to the covenants and restrictions in its subsidiaries' loan agreements.

13. SHARE-BASED COMPENSATION PLANS

Prior to the IPO, certain employees and directors of Vantiv Holding participated in the Phantom Equity Plan. As discussed in Note 1 - Basis of Presentation and Summary of Significant Accounting Policies, in connection with the IPO, outstanding awards under the Phantom Equity Plan were converted into unrestricted and restricted Class A common stock, issued under the 2012 Equity Incentive Plan.

Phantom Equity Plan

Effective June 30, 2009, Vantiv Holding established the Phantom Equity Plan for certain employees and directors. The aggregate number of units that were available to be issued under the Phantom Equity Plan was limited to approximately 15.3 million. Awards under the Phantom Equity Plan vested upon either the occurrence of certain events ("Time Awards") or the achievement of specified performance goals ("Performance Awards"). Time Awards fully vested on the earliest of the fifth anniversary of the grant date, subject to the participant's continued service through the end of the seventh anniversary of the grant date, or the date of the consummation of a change of control. The Performance Awards contained certain vesting conditions that were triggered upon the earlier of the consummation of a change of control or an IPO. Vantiv Holding had the choice to settle both Time Awards and Performance Awards in either cash or equity units, except in the event of an IPO, which required settlement in equity shares.

ASC 718, *Compensation-Stock Compensation*, requires compensation expense for the grant-date fair value of share-based payments to be recognized over the requisite service period. Further, the fair value of liability awards is required to be remeasured at the reporting date, with changes in fair value recognized as compensation expense over the requisite service period. Based on the vesting criteria and continued service requirements, compensation expense related to Time Awards was recognized on a straight-line basis over seven years.

The table below presents the number and weighted-average grant-date fair value of non-vested Time Awards at the beginning and end of the year, as well as those granted, vested and forfeited during the year ended December 31, 2011.

	Year Ended			
	Decembe	December 31, 2011		
	Number	Fair Value		
Non-vested, beginning of period	7,669,121	\$	3.74	
Granted	1,156,479		3.68	
Vested	_		_	
Forfeited	(94,324)		3.74	
Non-vested, end of period	8,731,276	\$	3.97	

The value of the Time Awards granted during the year ended December 31, 2011 was estimated using the Black-Scholes option pricing model, which incorporated the weighted-average assumptions below:

	2011
Expected option life at grant (in years)	7.0
Expected volatility	35.0%
Expected dividend yield	 %
Risk-free interest rate	2.6%

The expected option life represented the requisite service period associated with Time Awards. Due to the lack of Company-specific historical data, the expected volatility was based on the average historical and implied volatility of the Company's peer group. The expected dividend yield reflected the assumption that dividends would not be paid by the Company to holders of Time Awards. The risk-free interest rate was based on the U.S. Treasury strip rate in effect at the time of grant or remeasurement.

The value of Performance Awards outstanding at December 31, 2011 was approximately \$17.1 million. However, no compensation expense attributable to Performance Awards was recognized during the year ended December 31, 2011 as the achievement of related performance conditions was not deemed probable.

During 2012, prior to the IPO there were no new grants or vestings under the Phantom Equity Plan. Activity under the Phantom Equity Plan during 2012 prior to the IPO consisted only of forfeitures of 92,274 awards. There were no exercisable Time Awards or Performance Awards outstanding at December 31, 2011.

2012 Equity Incentive Plan

The 2012 Equity Incentive Plan was adopted by the Company's board of directors in March 2012. The 2012 Equity Incentive Plan provides for grants of stock options, stock appreciation rights, restricted stock and restricted stock units, performance awards and other stock-based awards. The maximum number of shares of Class A common stock available for issuance pursuant to the 2012 Equity Incentive Plan is 35.5 million shares.

In connection with the IPO, vested Time Awards originally issued under the Phantom Equity Plan were converted into Class A common stock based on a formula as defined in the Phantom Equity Plan. Unvested Time Awards and Performance Awards were converted into restricted Class A common stock, which was issued under the 2012 Equity Incentive Plan.

In connection with the IPO and conversion of phantom units, the Company issued 1,381,135 shares of unrestricted Class A common stock related to vested Time Awards and 3,073,118 shares of restricted Class A common stock related to unvested Time Awards. As the shares of restricted Class A common stock were issued in connection with the conversion of the Time Awards under the Phantom Equity Plan, compensation expense to be recognized associated with the shares of restricted Class A common stock is equal to the remaining compensation expense previously associated with the Time Awards. This compensation expense will be recognized prospectively, beginning on the date of the IPO and continuing over the remaining vesting period determined in accordance with the original Phantom Equity Plan award agreements.

Upon the Company's IPO, 3,560,223 shares of restricted Class A common stock were issued in connection with the conversion of Performance Awards under the Phantom Equity Plan. The fair value of restricted Class A common stock was based on the IPO price of \$17.00 per share. Prior to the IPO, the occurrence of a qualifying event underlying the Performance Awards had not been considered probable, thus, no compensation expense related to the Performance Awards had been recognized. The conversion of Performance Awards into restricted Class A common stock was accounted for in accordance with ASC 718, *Compensation — Stock Compensation*, as an "improbable-to-probable" modification. As such, the Company began recognizing compensation expense associated with the converted Performance Awards on a straight-line basis over the three-year vesting period of the underlying restricted Class A common stock based on the fair value of restricted Class A common stock on the date the awards were granted.

The following table presents the number and weighted-average grant date fair value of the restricted stock awards at December 31, 2013:

	Time Awards Converted to Restricted Class A Common Stock	Weighted Average Grant Date Fair Value	Performance Awards Converted to Restricted Class A Common Stock	Weighted Average Grant Date Fair Value
Non-vested at December 31, 2012	1,994,949	\$ 4.04	3,342,811	\$ 17.00
Conversion of Restricted Class A common stock to Class A common				
stock upon vesting	(868,841)	4.04	(1,110,395)	17.00
Forfeitures	(176,019)	3.99	(176,602)	17.00
Non-vested at December 31, 2013	950,089	\$ 4.02	2,055,814	\$ 17.00

Restricted Stock Units

Also in connection with the IPO, the Company issued 74,110 restricted stock units to members of the Company's board of directors, which vest on the earlier of one year from the date of the grant or the next annual stockholder meeting and will be settled in shares of Class A common stock following the termination of the director's service. Additionally, upon the IPO, the Company issued a total of 231,100 restricted stock units to 2,311 active employees of the Company, with each employee receiving 100 restricted stock units. Subject to recipients' continued service, these units will cliff vest on the fourth anniversary of the IPO. Subsequent to the IPO, the Company has continued to issue restricted stock units to directors and certain employees, which typically vest on the first anniversary of the grant date (for directors) and in equal annual increments over three to four years beginning on the first anniversary of the date of grant (for employees). The grant date fair value of the restricted stock units is based on the quoted fair market value of our common stock at the award date.

The following table presents the number and weighted-average grant date fair value of the restricted stock units at December 31, 2013:

	Restricted Stock Units	Weighted Average Grant Date Fair Value
Non-vested at December 31, 2012	299,826	\$ 17.87
Granted	556,321	24.83
Vested	(3,419)	20.51
Forfeited	(50,584)	18.73
Non-vested at December 31, 2013	802,144	\$ 22.63

Stock Options

During the year ended December 31, 2013, the Company granted 659,938 stock options to certain key employees. The stock options vest in 25% annual increments beginning on the first anniversary of the date of grant, subject to the participant's continued service through each such vesting date. All stock options are nonqualified stock options and expire on the tenth anniversary of the grant date.

The following table summarizes stock option activity for the year ended December 31, 2013:

	Stock Options	Wei	ighted Average Grant Date Fair Value	Weighted Average Remaining Contractual Term (Years)	Aggregate Intrinsic Value (in thousands)	e
Outstanding options at December 31, 2012	_	\$	_			
Granted	659,938		7.10			
Exercised	_		_			
Expired	_		_			
Forfeited	(10,325)		7.10			
Outstanding options at December 31, 2013	649,613	\$	7.10	9.16	\$ 6,925	_

There were no stock options exercisable at December 31, 2013.

The weighted-average grant date fair value of \$7.10 was estimated by the Company using the Black-Scholes option pricing model with the assumptions below:

	2013
Expected option life at grant (in years)	6.25
Expected volatility	30.60%
Expected dividend yield	—%
Risk-free interest rate	1.15%

The expected option life represents the period of time the stock options are expected to be outstanding and is based on the "simplified method" allowed under SEC guidance. The Company used the "simplified method" due to the lack of sufficient historical exercise data to provide a reasonable basis upon which to otherwise estimate the expected life of the stock options. Since the Company's publicly traded stock history is relatively short, expected volatility is based on the Company's historical volatility and the historical volatility of a group of peer companies. The Company does not intend to pay cash dividends in the foreseeable future. Consequently, the Company used an expected dividend yield of zero. The risk-free interest rate was based on the U.S. Treasury yield curve in effect at the time of the grant.

Performance Share Units

During the first quarter of 2013, the Company issued to certain employees 213,449 performance share units. Subject to the achievement of certain financial performance measures, these performance share units vest on the third anniversary of the grant date. Participants have the right to earn 0% to 200% of the target number of shares of the Company's Class A

common stock, determined by the level of achievement of financial performance measures during the performance period, which began on January 1, 2013 and extends through December 31, 2015.

During the fourth quarter of 2013, the Company issued 62,962 performance share units to certain employees which will vest 50% in 2015 and 50% in 2016, subject to the achievement of financial performance goals.

Also during the fourth quarter of 2013, the Company issued 157,419 performance share units that vest in 2014, subject to certain non-financial performance goals.

The weighted-average grant date fair value of the performance share units is based on the quoted fair market value of our common stock on the grant date. There were no performance share units outstanding at the beginning of the period, and no performance share units vested during the period.

The following table presents the number and weighted-average grant date fair value of the performance share units at December 31, 2013:

	Performance Share Units	Weighted Average Grant Date Fair Value
Non-vested at December 31, 2012	_	\$
Granted	433,830	26.93
Vested	_	_
Forfeited	(3,340)	21.95
Non-vested at December 31, 2013	430,490	\$ 26.97

For the years ended December 31, 2013, 2012 and 2011, total share-based compensation expense was \$29.7 million, \$33.4 million and \$3.0 million, respectively. Related tax benefits totaled \$8.5 million in 2013, \$9.9 million in 2012 and \$0.8 million in 2011. At December 31, 2013, there was approximately \$53.9 million of share-based compensation expense not yet recognized. This expense is expected to be recognized over a remaining weighted-average period of approximately 1.9 years.

14. INCOME TAXES

In accordance with ASC Topic 740, *Income Taxes*, income taxes are recognized for the amount of taxes payable for the current year and for the impact of deferred tax liabilities and assets, which represent future tax consequences of events that have been recognized differently in the financial statements than for tax purposes. Deferred tax assets and liabilities are established using the enacted statutory tax rates and are adjusted for any changes in such rates in the period of change. Vantiv, Inc. is taxed as a C Corporation, which is subject to both federal and state taxation at a corporate level. Therefore, tax expense and deferred tax assets and liabilities reflect such status.

The following is a summary of applicable income taxes (in thousands):

	Year Ended December 31,					
	2013		2012			2011
Current income tax expense:						
U.S. income taxes	\$	48,494	\$	40,747	\$	(1,462)
State and local income taxes		3,926		5,754		2,638
Total current tax expense		52,420		46,501		1,176
Deferred income tax expense:						
U.S. income taxes		30,264		366		30,997
State and local income taxes		1,076		(14)		136
Total deferred tax expense		31,340		352		31,133
Applicable income tax expense	\$	83,760	\$	46,853	\$	32,309

A reconciliation of the U.S. income tax rate and the Company's effective tax rate for all periods is provided below:

		Year Ended December 31,	
	2013	2012	2011
Federal statutory tax rate	35.0 %	35.0 %	35.0 %
State taxes-net of federal benefit	2.7	3.1	4.1
Change in state and local tax law	_	(0.2)	(1.3)
Non-controlling interest	(8.5)	(8.4)	(11.0)
Other-net	(0.5)	0.2	0.3
Effective tax rate	28.7 %	29.7 %	27.1 %

Deferred income tax assets and liabilities are comprised of the following as of December 31 (in thousands):

	20	013	2012
Deferred tax assets		_	
Net operating losses	\$	24,001	\$ 30,764
Employee benefits		126	40
Other assets		760	217
Other accruals and reserves		2,922	748
Partnership basis		363,514	141,892
Deferred tax assets		391,323	173,661
Deferred tax liabilities			
Property and equipment		(5,925)	(1,723)
Goodwill and intangible assets		(52,606)	(32,278)
Deferred tax liability		(58,531)	(34,001)
Deferred tax asset-net	\$	332,792	\$ 139,660

As part of the acquisition of NPC, the Company acquired federal and state tax loss carryforwards. As of December 31, 2013, the cumulative federal and state tax loss carryforwards were approximately \$66.7 million and \$5.4 million, respectively. Federal tax loss carryforwards will expire between 2027 and 2030, and state tax loss carryforwards will expire between 2015 and 2030.

The partnership basis included in the above table is the result of a difference between the tax basis and book basis of Vantiv, Inc.'s investment in Vantiv Holding. Vantiv Holding, a pass through entity for tax purposes, has an Internal Revenue Code election in place to adjust the tax basis of partnership property to fair market value related to the portion of the partnership interest transferred, including exchanges of units of Vantiv Holding by its members. Included in partnership basis in the table above are deferred tax assets resulting from the increase in tax basis generated by the exchange of units of Vantiv Holding by Fifth Third and JPDN in connection with the IPO and subsequent secondary offerings. During the year ended December 31, 2012, in connection with these exchanges, the Company recorded liabilities under the TRAs of \$166.8 million and deferred tax assets of \$138.0 million, with a corresponding reduction to paid in capital for the difference. During the year ended December 31, 2013, in connection with the secondary offerings and related exchanges which took place in May and August 2013, the Company recorded liabilities under the TRAs of \$329.4 million and deferred tax assets of \$235.9 million, with a corresponding reduction to paid in capital for the difference. See Note 7 - Tax Receivable Agreements for further discussion of TRAs.

Deferred tax assets are reviewed to determine whether the available evidence allows the Company to recognize the tax benefits. To the extent that a tax asset would be not be recognized, the Company records a valuation allowance against the deferred tax assets. The Company has recorded no valuation allowance during the years ended December 31, 2013 or 2012.

A provision for state and local income taxes has been recorded on the statements of income for the amounts of such taxes the Company is obligated to pay or amounts refundable to the Company. At December 31, 2013 and 2012, the Company recorded an income tax receivable of approximately \$4.5 million and \$4.2 million, respectively.

The Company accounts for uncertainty in income taxes under ASC 740, *Income Taxes*. As of December 31, 2013 and 2012, the Company had no material uncertain tax positions. If a future liability does arise related to uncertainty in income taxes, the Company has elected an accounting policy to classify interest and penalties, if any, as income tax expense. Accordingly, a loss contingency is recognized when it is probably that a liability has been incurred as of the date of the financial statements and the amount of the loss can be reasonably estimated. Any amount recognized would be subject to estimate and management judgment with respect to the likely outcome of each uncertain tax position. The amount that is ultimately sustained for an individual uncertain tax position or for all uncertain tax positions in the aggregate could differ from the amount recognized.

15. FAIR VALUE MEASUREMENTS

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Company uses the hierarchy prescribed in ASC 820, *Fair Value Measurement*, based upon the available inputs to the valuation and the degree to which they are observable or not observable in the market. The three levels in the hierarchy are as follows:

- Level 1 Inputs—Quoted prices (unadjusted) for identical assets or liabilities in active markets that are accessible as of the measurement date.
- Level 2 Inputs—Inputs other than quoted prices within Level 1 that are observable either directly or indirectly, including but not limited to quoted prices in markets that are not active, quoted prices in active markets for similar assets or liabilities and observable inputs other than quoted prices such as interest rates or yield curves.
- *Level 3 Inputs*—Unobservable inputs reflecting the Company's own assumptions about the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk.

The following table summarizes assets measured at fair value on a recurring basis as of December 31, 2013 and 2012 (in thousands):

				2013						2012		
		Fair Value Measurements Using										
	Leve	el 1		Level 2		Level 3		Level 1		Level 2		Level 3
Assets:							-					
Interest rate swaps	\$	_	\$	4,545	\$	_	\$	_	\$	_	\$	_
Liabilities:												
Interest rate swaps	\$		\$	3,728	\$	_	\$	_	\$	_	\$	_

Interest Rate Swaps

The Company uses interest rate swaps to manage interest rate risk. The fair value of interest rate swaps are determined using the market standard methodology of netting the discounted future fixed cash receipts (or payments) and the discounted expected variable cash payments (or receipts). The variable cash payments (or receipts) are based on the expectation of future interest rates (forward curves) derived from observed market interest rate curves. In addition, to comply with the provisions of ASC 820, *Fair Value Measurements*, credit valuation adjustments, which consider the impact of any credit enhancements to the contracts, are incorporated in the fair values to account for potential nonperformance risk. In adjusting the fair value of its interest rate swaps for the effect of nonperformance risk, the Company has considered any applicable credit enhancements such as collateral postings, thresholds, mutual puts, and guarantees.

Although the Company determined that the majority of the inputs used to value its interest rate swaps fell within Level 2 of the fair value hierarchy, the credit valuation adjustments associated with its interest rate swaps utilized Level 3 inputs, such as estimates of current credit spreads to evaluate the likelihood of default by itself and its counterparties. However, as of December 31, 2013, the Company assessed the significance of the impact of the credit valuation adjustments on the overall valuation of its interest rate swaps and determined that the credit valuation adjustment was not significant to the overall valuation of its interest rate swaps. As a result, the Company classified its interest rate swap valuations in Level 2 of the fair value hierarchy. See Note 8 - Derivatives and Hedging Activities for further discussion of the Company's interest rate swaps.

The following table summarizes carrying amounts and estimated fair values for financial assets and liabilities, excluding assets and liabilities measured at fair value on a recurring basis, as of December 31, 2013 and 2012 (in thousands):

	20	13			20			
	Carrying Amount Fair Valu				Carrying Amount		Fair Value	
Assets:								
Cash and cash equivalents	\$ 171,427	\$	171,427	\$	67,058	\$	67,058	
Liabilities:								
Note payable	1,811,250		1,815,459		1,256,105		1,262,945	

Due to the short-term nature of cash and cash equivalents, the carrying value approximates fair value. Cash and cash equivalents are classified in Level 1 of the fair value hierarchy. The fair value of the Company's note payable was estimated based on rates currently available to the Company for bank loans with similar terms and maturities and is classified in Level 2 of the fair value hierarchy.

16. NET INCOME PER SHARE

Basic net income per share is calculated by dividing net income attributable to Vantiv, Inc. by the weighted-average shares of Class A common stock outstanding during the period.

Diluted net income per share is calculated assuming that Vantiv Holding is a wholly-owned subsidiary of Vantiv, Inc. Pursuant to the Exchange Agreement, the Class B units of Vantiv Holding ("Class B units"), which are held by Fifth Third and represent the non-controlling interest in Vantiv Holding, are convertible into shares of Class A common stock on a one-for-one basis. Based on this conversion feature, diluted net income per share is calculated assuming the conversion of the Class B units on an "if-converted" basis. Due to the Company's structure as a C corporation and Vantiv Holding's structure as a pass-through entity for tax purposes, the numerator in the calculation of diluted net income per share is adjusted accordingly to reflect the Company's income tax expense assuming the conversion of the non-controlling interest into Class A common stock. As of December 31, 2013 and 2012, there were approximately 48.8 million and 70.2 million Class B units outstanding, respectively. During the year ended December 31, 2012, these Class B units were excluded in computing diluted net income per share because including them on an "if-converted" basis would have had an anti-dilutive effect.

In addition to the Class B units discussed above, potentially dilutive securities during the year ended December 31, 2013 included restricted stock awards, the warrant held by Fifth Third which allows for the purchase of Class C units of Vantiv Holding, stock options and performance share units. Approximately 430,490 performance share units have been excluded as the applicable performance metrics had not been met as of the reporting date.

During the year ended December 31, 2012, potentially dilutive securities included restricted stock awards and the warrant held by Fifth Third which allows for the purchase of Class C units of Vantiv Holding, in addition to the Class B units discussed above.

During the year ended December 31, 2011, potentially dilutive securities consisted of phantom equity awards issued under the Phantom Equity Plan and the warrant held by Fifth Third. Phantom equity awards issued by and settled in units of Vantiv Holding had an anti-dilutive effect on the Company's net income per share and were therefore excluded from the calculation of diluted net income per share. The warrant held by Fifth Third was out of the money and was therefore also excluded from the calculation of diluted net income per share. Class B units of Vantiv Holding were not considered in the calculation of diluted net income per share during the year ended December 31, 2011 as the Exchange Agreement permitting the conversion of Class B units of Vantiv Holding to Class A common stock of the Company was not in place.

The shares of Class B common stock do not share in the earnings or losses of the Company and are therefore not participating securities. Accordingly, basic and diluted net income per share of Class B common stock has not been presented.

The weighted-average Class A common shares used in computing basic and diluted net income per share reflect the retrospective application of the stock split which occurred in connection with the IPO.

The following table sets forth the computation of basic and diluted net income per share (in thousands, except share data):

	_		Year Ended December 31,	
		2013	2012	2011
Basic:				
Net income attributable to Vantiv, Inc.	\$	133,572	\$ 57,610	\$ 36,240
Shares used in computing basic net income per share:				
Weighted-average Class A common shares		138,836,314	116,258,204	89,515,617
Basic net income per share	\$	0.96	\$ 0.50	\$ 0.40
Diluted:	_			
Consolidated income before applicable income taxes	\$	291,900	\$ _	\$ _
Income tax expense excluding impact of non-controlling interest		112,382	_	_
Net income attributable to Vantiv, Inc.		179,518	57,610	36,240
Shares used in computing diluted net income per share:				
Weighted-average Class A common shares		138,836,314	116,258,204	89,515,617
Weighted-average Class B units of Vantiv Holding		57,906,592	_	_
Restricted stock awards		1,751,816	1,553,857	_
Warrant		7,522,801	4,935,301	_
Stock options		10,034	_	_
Diluted weighted-average shares outstanding		206,027,557	122,747,362	89,515,617
Diluted net income per share	\$	0.87	\$ 0.47	\$ 0.40

17. ACCUMULATED OTHER COMPREHENSIVE INCOME (LOSS)

The activity of the components of accumulated other comprehensive income related to cash flow hedging activities was as follows for the years ended December 31, 2013, 2012 and 2011 (in thousands):

						Tot	al O	ther Compr	ehens	sive Income					
		AOCI Beginning Balance		Beginning		Pretax Activity		Tax Effect		Net Activity		tributable to non- ntrolling interests	 ttributable to Vantiv, Inc.	A	OCI Ending Balance
Year ended December 31, 2013															
Net change in fair value recorded in accumulated OCI	\$	_	\$	244	\$	3	\$	247	\$	(252)	\$ (5)	\$	(5)		
Net realized loss reclassified into earnings (a)		_		573		(157)		416		(147)	269		269		
Net change	\$		\$	817	\$	(154)	\$	663	\$	(399)	\$ 264	\$	264		
Year ended December 31, 2012															
Net realized loss reclassified into earnings (a)	\$	(9,514)	\$	29,424	\$	(5,495)	\$	23,929	\$	(14,415)	\$ 9,514	\$	_

Net change	\$	_	\$	(29,424)	\$	5,495	\$	(23,929)	\$	14,415	\$ (9,514)	\$	(9,514)		

(a) The reclassification adjustment on cash flow hedge derivatives affected the following lines in the accompanying consolidated statements of income:

OCI Component Affected line in the accompanying consolidated statements of income

Pretax activity(1) Interest expense-net/non-operating expenses

Tax effect Income tax expense

OCI Attributable to non-controlling interests

Net income attributable to non-controlling interests

(1) During the year ended December 31, 2013, reflects amount of loss reclassified from AOCI into earnings, representing the effective portion of the hedging relationships, and is recorded in interest expense-net. During the year ended December 31, 2012, reflects net loss due to missed forecasted transaction and is recorded as a component of non-operating expenses. During the year ended December 31, 2011, reflects ineffectiveness and is recorded as a component of interest expense-net.

18. RELATED PARTY TRANSACTIONS

In connection with the Company's separation from Fifth Third on June 30, 2009, the Company entered into various agreements which provide for services provided to or received from Fifth Third. Subsequent to the separation from Fifth Third, the Company continues to enter into various business agreements with Fifth Third. Transactions under these agreements are discussed below and throughout these notes to the accompanying consolidated financial statements. As discussed in Note 1 - Basis of Presentation and Summary of Significant Accounting Policies, Fifth Third currently holds 48,822,826 shares of Class B common stock representing 18.5% of the voting interests in Vantiv, Inc. and 48,822,826 Class B units of Vantiv Holding representing a 25.62% ownership interest in Vantiv Holding.

Debt Agreements

As discussed in Note 6 - Long-Term Debt, the Company had certain debt arrangements outstanding and available from Fifth Third. For the years ended December 31, 2013, 2012 and 2011, interest expense associated with these arrangements was \$7.3 million, \$10.2 million, and \$18.4 million, respectively, and commitment fees were \$0.3 million, \$0.4 million, and \$0.3 million, respectively.

Master Lease Agreement/Master Sublease Agreement

On July 1, 2009, the Company entered into a five-year Master Lease Agreement and a five-year Master Sublease Agreement with Fifth Third and certain of its affiliates for the lease or sublease of a number of office and/or data center locations. Related party rent expense was approximately \$3.6 million, \$3.7 million and \$6.8 million, respectively, for the years ended December 31, 2013, 2012 and 2011. Beginning in February of 2012, this amount was substantially reduced as a result of our exercise of termination rights and the purchase and relocation to our new corporate headquarters.

Referral Agreement

On June 30, 2009, the Company entered into an exclusive referral arrangement with Fifth Third. Commercial and retail merchant clients of Fifth Third and its subsidiary depository institutions that request merchant (credit or debit card) acceptance services are referred exclusively to us. In return for these referrals and the resulting merchant relationships, we make ongoing incentive payments to Fifth Third. The agreement also provides for our referral of prospective banking clients to Fifth Third, in return for certain incentive payments. This agreement terminates in June 2019. Costs associated with this agreement totaled \$0.4 million, \$0.5 million and \$0.2 million for the years ended December 31, 2013, 2012 and 2011, respectively.

Clearing, Settlement and Sponsorship Agreement and Treasury Management Agreement

As discussed in Note 1 - Basis of Presentation and Summary of Significant Accounting Policies, Fifth Third is a member of the Visa, MasterCard and other payment network associations. Fifth Third is the Company's primary sponsor into the respective card associations. Fifth Third also provides access to certain cash and treasury management services to the Company. For the years ended December 31, 2013, 2012 and 2011, the Company paid Fifth Third approximately \$2.2 million, \$1.4 million and \$1.2 million, respectively, for these services. As discussed in Note 1 - Basis of Presentation and Summary of Significant Accounting Policies, the Company holds certain cash and cash equivalents on deposit at Fifth Third. At

December 31, 2013 and 2012, approximately \$146.3 million and \$21.3 million, respectively, was held on deposit at Fifth Third. Interest income on such amounts during years ended December 31, 2013, 2012 and 2011 was approximately \$1.4 million, \$0.9 million, and \$0.7 million, respectively.

Transition Services Agreement

In conjunction with the Company's separation from Fifth Third, the Company entered into a transition services agreement ("TSA") with Fifth Third. Under the TSA, Fifth Third provided services that were required to support the Company as a stand-alone entity during the period following the separation from Fifth Third. These services involved IT services, back-office support, employee related services, product development, risk management, legal, accounting and general business resources. The TSA terminated on October 31, 2011. Subsequent to such date, the Company continues to receive certain non-material services from Fifth Third. The total for services provided by Fifth Third for the years ended December 31, 2013, 2012 and 2011 were \$0.5 million, \$1.1 million and \$23.2 million, respectively.

Management Agreement

In connection with the Company's separation from Fifth Third, the Company entered into a management agreement with Advent for management services including consulting and business development services related to sales and marketing activities, acquisition strategies, financial and treasury requirements and strategic planning. The Company was required to pay Advent \$0.5 million the first year and \$1.0 million annually thereafter. The fee is payable in full the beginning of each year and is not subject to proration if the contract is terminated prior to years end. The Company paid Advent \$1.0 million during the years ended December 31, 2012 and 2011. Pursuant to its terms, the agreement was terminated in connection with the IPO.

19. SEGMENT INFORMATION

Segment operating results are presented below (in thousands). The results reflect revenues and expenses directly related to each segment. The Company does not evaluate performance or allocate resources based on segment asset data, and therefore such information is not presented.

Segment profit reflects total revenue less network fees and other costs and sales and marketing costs of the segment. The Company's CODM evaluates this metric in analyzing the results of operations for each segment.

		Year Ended Dec	ember 3	31, 2013	
	Merchant Services	Financial Institution Services	Cor	General porate/Other	Total
Total revenue	\$ 1,639,157	\$ 468,920	\$	_	\$ 2,108,077

Income from operations	\$	93,797	\$ 90,222	\$ 96,813	\$ 71,970	\$	91,371	\$ 79,590	\$ 80,572	\$ 53,323
Net income (loss) attributable to Vantiv, Inc.	\$	42,834	\$ 35,711	\$ 28,908	\$ 26,119	\$	28,754	\$ 24,264	\$ 22,956	\$ (18,364)
Net income (loss) per share attributable to Vantiv, Inc. Class A common stock:	5									
Basic	\$	0.30	\$ 0.26	\$ 0.21	\$ 0.19	\$	0.23	\$ 0.20	\$ 0.19	\$ (0.20)
Diluted	\$	0.26	\$ 0.24	\$ 0.20	\$ 0.18	\$	0.22	\$ 0.19	\$ 0.18	\$ (0.38)

Our results of operations are subject to seasonal fluctuations in our revenue as a result of consumer spending patterns. Historically our revenues have been the strongest in the fourth quarter and weakest in our first quarter.

21. SUBSEQUENT EVENT

In October 2013, the Company's board of directors authorized a program to repurchase up to \$137 million of the Company's Class A common stock. On February 12, 2014, the board of directors authorized a program to repurchase up to an additional \$300 million of the Company's Class A common stock. Purchases under the program may be made from time to time in the open market, in privately negotiated transactions, or otherwise. The manner, timing and amount of any purchases will be determined by management based on an evaluation of market conditions, stock price and other factors. The Company's share repurchase program does not obligate it to acquire any specific number or amount of shares, there is no guarantee as to the exact number or amount of shares that may be repurchased, if any, and the Company may discontinue purchases at any time that it determines additional purchases are not warranted. As of the date of this filing, no share repurchases have been transacted under the February 2014 authorization.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

None

Item 9A. Controls and Procedures

Our management, with the participation of our chief executive officer and chief financial officer, evaluated the effectiveness of our disclosure controls and procedures as of December 31, 2013. The term "disclosure controls and procedures," as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, means controls and other procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in the reports it files or submits under the Securities Exchange Act of 1934 is accumulated and communicated to the company's management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure. Management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving their objectives. Based on the evaluation of our disclosure controls and procedures as of December 31, 2013, our Chief Executive Officer and Chief Financial Officer concluded that, as of such date, our disclosure controls and procedures were effective.

There were no changes in our internal control over financial reporting that occurred during the three months ended December 31, 2013 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Management's Report on Internal Control Over Financial Reporting

Management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rule 13a-15(f) under the Exchange Act. Our internal control system is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also controls deemed effective now may become inadequate in the future because of changes in conditions, or because compliance with the policies or procedures has deteriorated or been circumvented.

Under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, our management assessed the effectiveness of our internal control over financial reporting as of December 31, 2013. In making this assessment, management used the criteria established in the Internal Control-Integrated Framework (1992) issued by the Committee of Sponsoring Organizations of the Treadway Commission (the "COSO criteria"). Based on management's assessment and the COSO criteria, management believes that our internal control over financial reporting was effective as of December 31, 2013.

Deloitte & Touche, an independent registered public accounting firm, has audited the consolidated financial statements included in this Form 10-K and, as part of the audit, has issued a report, included herein, on the effectiveness of our internal control over financial reporting as of December 31, 2013.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of Vantiv, Inc. Symmes Township, Ohio

We have audited the internal control over financial reporting of Vantiv, Inc. and subsidiaries (the "Company") as of December 31, 2013, based on criteria established in *Internal Control - Integrated Framework (1992)* issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying *Management's Report on Internal Control Over Financial Reporting*. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed by, or under the supervision of, the company's principal executive and principal financial officers, or persons performing similar functions, and effected by the company's board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2013, based on the criteria established in *Internal Control - Integrated Framework (1992)* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements as of and for the year ended December 31, 2013 of the Company and our report dated February 14, 2014 expressed an unqualified opinion on those financial statements.

/s/ DELOITTE & TOUCHE LLP

Cincinnati, Ohio February 14, 2014

Item 9B. Other Information

In October 2013, the Company's board of directors authorized a program to repurchase up to \$137 million of the Company's Class A common stock. On February 12, 2014, the board of directors authorized a program to repurchase up to an additional \$300 million of the Company's Class A common stock. Purchases under the program may be made from time to time in the open market, in privately negotiated transactions, or otherwise. The manner, timing and amount of any purchases will be determined by management based on an evaluation of market conditions, stock price and other factors. The Company's share repurchase program does not obligate it to acquire any specific number or amount of shares, there is no guarantee as to the exact number or amount of shares that may be repurchased, if any, and the Company may discontinue purchases at any time that it determines additional purchases are not warranted. As of the date of this filing, no share repurchases have been transacted under the February 2014 authorization.

PART III

Item 10. Directors, Executive Officers and Corporate Governance

The information required by this item is incorporated by reference to Vantiv's Proxy Statement for its 2014 Annual Meeting of Stockholders to be filed with the SEC within 120 days after the end of the fiscal year ended December 31, 2013.

We have adopted a Code of Business Conduct and Ethics that applies to all of our directors, officers and employees, including our principal executive officer and principal financial officer. The Code of Business Conduct and Ethics is available on our website (http://investors.vantiv.com) under "Corporate Governance." We will also provide a copy of these documents to any person, without charge, upon request, by writing to us at Vantiv, Inc., Investor Relations Department, 8500 Governors Hill Drive, Symmes Township, Ohio 45249. We intend to satisfy the disclosure requirement under Item 5.05 of Form 8-K regarding an amendment to, or waiver from, a provision of our Code of Business Conduct and Ethics by posting such information on our website at the address and the location specified above.

Item 11. Executive Compensation

The information required by this item will be set forth in the Proxy Statement and is incorporated herein by reference.

Item 12. Securities Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

Except as included below regarding equity compensation plan information, the information required by this item will be set forth in the Proxy Statement and is incorporated herein by reference.

Equity Compensation Plan Information

The following table sets forth information as of December 31, 2013 regarding the Company's equity compensation plans. The only plan pursuant to which the Company has made and may currently make additional equity grants is the Vantiv, Inc. 2012 Equity Incentive Plan.

	[a]	[b]	[c]	
Plan category	Number of securities to be issued upon exercise of outstanding options, warrants and rights (1)	Weighted-average exercise price of outstanding options, warrants and rights	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column [a])	
Equity compensation plans approved by stockholders	1,933,641	\$21.95	27,095,256	(2)
Equity compensation plans not approved by stockholders	_	_	_	
Total	1,933,641	\$21.95	27,095,256	(2)

- (1) Column [a] includes the following outstanding equity-based awards, all of which were granted under the 2012 Equity Incentive Plan:
 - 853,538 restricted stock units.
 - 649,613 stock options.
 - 430,490 performance share units.
- (2) The 2012 Equity Incentive Plan had 35.5 million shares initially authorized for issuance. In addition to these 35.5 million shares, the following shares will become available for grant under the 2012 Equity Incentive Plan, and, to the extent such shares became available as of December 31, 2013, they are included in the table as available for grant: (i) shares covered by outstanding awards under the 2012 Equity Incentive Plan that are forfeited or otherwise terminated or settled in cash or other property rather than settled through the issuance of shares; and (ii) shares that are used to pay the exercise price of stock options and shares used to pay withholding taxes on equity awards generally.

Item 13. Certain Relationships and Related Transactions and Director Independence

The information required by this item will be set forth in the Proxy Statement and is incorporated herein by reference.

Item 14. Principal Accountant Fees and Services

The information required by this item will be set forth in the Proxy Statement and is incorporated herein by reference.

PART IV

Item 15. Exhibits and Financial Statement Schedules

(a)(1) Consolidated Financial Statements

Our consolidated financial statements are set forth in "Item 8 - Financial Statements and Supplementary Data" of this report.

(a)(2) Financial Statement Schedules

All financial statement schedules have been omitted because they are not applicable, not material or the required information is presented in the financial statements or the notes thereto.

(a)(3) Exhibits

See the Exhibit Index immediately following the signature page of this Annual Report on Form 10-K, which is incorporated herein by reference.

SIGNATURES

Pursuant to the requirements of Section 13 or 15(d) of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

CERTIFICATION OF PRINCIPAL EXECUTIVE OFFICER PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

I, Charles D. Drucker, certify that:

- 1. I have reviewed this annual report on Form 10-K of Vantiv, Inc.;
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

CERTIFICATION PURSUANT TO 18 U.S.C. SECTION 1350, AS ADOPTED PURSUANT TO SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002

In connection with the Annual Report of Vantiv, Inc. (the "Company") on Form 10-K for the fiscal year ended December 31, 2013 as filed with the Securities and Exchange Commission on the date hereof (the "Report"), each of the undersigned officers of the Company does hereby certify, pursuant to 18 U.S.C. § 1350 (as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002), that:

- 1. The Report fully complies with the requirements of section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
- 2. The information contained in the Report fairly presents, in all material respects, the financial condition and result of operations of the Company.

The foregoing certification (i) is given to such officers' knowledge, based upon such officers' investigation as such officers reasonably deem appropriate; and (ii) is being furnished solely pursuant to 18 U.S.C. § 1350 (section 906 of the Sarbanes-Oxley Act of 2002) and is not being filed as part of the Report or as a separate disclosure document.
