## Forward-looking Statements

Our discussions today, including this presentation and any comments made by management, contain “forward-looking statements” within the meaning of the U.S. federal securities laws. Any statements that refer to future events or circumstances, including our future strategies or results, or that are not historical facts, are forward-looking statements. Actual results could differ materially from those projected in forward-looking statements due to a variety of factors, including the risks and uncertainties set forth in our earnings press release dated August 4, 2026, our annual report on Form 10-K for 2025 and our other filings with the SEC. We undertake no obligation to update or revise any forward-looking statements. Please see the Appendix for additional details on forward-looking statements.

## Non-GAAP Measures

This presentation will reference certain non-GAAP financial information. For a description and reconciliation of non-GAAP measures presented in this document, please see the Appendix attached to this presentation or visit the Investor Relations section of the FIS website at [www.fisglobal.com](http://www.fisglobal.com).

# Forward-Looking Statements

This earnings presentation and today's webcast contain "forward-looking statements" within the meaning of the U.S. federal securities laws. Statements that are not historical facts, as well as other statements about our expectations, beliefs, intentions, or strategies regarding the future, or other characterizations of future events or circumstances, are forward-looking statements. Forward-looking statements include statements about anticipated financial outcomes, including any earnings outlook or projections, projected revenue or expense synergies or dis-synergies, business and market conditions, outlook, foreign currency exchange rates, deleveraging plans, expected dividends and share repurchases of the Company, the Company's sales pipeline and anticipated profitability and growth, plans, strategies and objectives for future operations, strategic value creation, risk profile and investment strategies, any statements regarding future economic conditions or performance and any statements with respect to the future impacts of the recently completed acquisition of the Issuer Solutions Business, which has been rebranded as FIS Total Issuing™ Solutions. These statements may be identified by words such as "expect," "anticipate," "intend," "plan," "believe," "will," "should," "could," "would," "project," "continue," "likely," and similar expressions, and include statements reflecting future results or outlook, statements of outlook and various accruals and estimates. These statements relate to future events and our future results and involve a number of risks and uncertainties. Forward-looking statements are based on management's beliefs as well as assumptions made by, and information currently available to, management.

Actual results, performance or achievement could differ materially from these forward-looking statements. The risks and uncertainties to which forward-looking statements are subject include the following, without limitation:

- changes in general economic, business and political conditions, a recession, intensified or expanded international hostilities, acts of terrorism, fluctuation in rates of inflation or interest, effects of announced or future tariff increases and any resulting regulatory changes in global trade relations and changes in consumer or business confidence;
- changes in either or both the United States and international lending, capital and financial markets or currency fluctuations;
- the risk that acquired businesses, including FIS Total Issuing™ Solutions, will not be integrated successfully, will not provide the expected benefits, or that the integration will be more costly or more time-consuming and complex than anticipated;
- the risk that cost savings and synergies anticipated to be realized from acquisitions, including the Issuer Solutions Acquisition, may not be fully realized or may take longer to realize than expected or that costs may be greater than anticipated; the risks of doing business internationally;
- the effect of legislative initiatives or proposals, statutory changes, governmental or applicable regulations and/or changes in industry requirements, including privacy, data protection, cybersecurity, cyber resilience and AI laws and regulations;
- our ability to comply with climate change legal and regulatory requirements and to maintain practices that meet our stakeholders' evolving expectations;
- the risks of reduction in revenue from the elimination of existing and potential customers due to consolidation in, or new laws or regulations affecting, the banking, retail and financial services industries or due to financial failures or other setbacks suffered by firms in those industries;
- changes in the growth rates of the markets for our solutions;
- the amount, declaration and payment of future dividends is at the discretion of our Board of Directors and depends on, among other things, our investment opportunities, results of operations, financial condition, cash requirements, future prospects, and other factors that may be considered relevant by our Board of Directors, including legal and contractual restrictions;
- the amount and timing of any future share repurchases is subject to, among other things, our share price, our other investment opportunities and cash requirements, our results of operations and financial condition, our future prospects and other factors that may be considered relevant by our Board of Directors and management;
- failures to adapt our solutions to changes in technology or in the marketplace;
- internal or external security or privacy breaches of our systems, including those relating to unauthorized access, theft, corruption or loss of personal information and computer viruses and other malware affecting our software or platforms, and the reactions of customers, card associations, government regulators and others to any such events;
- the risk that implementation of software, including software updates, for customers or at customer locations or employee error in monitoring our software and platforms may result in the corruption or loss of data or customer information, interruption of business operations, outages, exposure to liability claims or loss of customers;

# Forward-Looking Statements

- the risk that partners and third parties may fail to satisfy their legal obligations to us;
- the risks associated with managing pension cost, cybersecurity issues and IT outages experienced;
- our ability to navigate the opportunities and risks associated with using and/or incorporating AI technologies into our business;
- the reaction of current and potential customers to communications from us or regulators regarding information security, risk management, internal audit or other matters;
- competitive pressures on pricing related to the decreasing number of community banks in the U.S., the development of new disruptive technologies competing with one or more of our solutions, increasing presence of international competitors in the U.S. market and the entry into the market by global banks and global companies with respect to certain competitive solutions, each of which may have the impact of unbundling individual solutions from a comprehensive suite of solutions we provide to many of our customers;
- the failure to innovate in order to keep up with new emerging technologies, which could impact our solutions and our ability to attract new, or retain existing, customers;
- an operational or natural disaster at one of our major operations centers;
- failure to comply with applicable requirements of payment networks or changes in those requirements;
- fraud by bad actors; and
- other risks detailed elsewhere in the “Risk Factors” section and other sections of our Annual Report on Form 10-K for the fiscal year ended December 31, 2025, and in our other filings with the Securities and Exchange Commission.

Other unknown or unpredictable factors also could have a material adverse effect on our business, financial condition, results of operations and prospects. Accordingly, readers should not place undue reliance on these forward-looking statements. These forward-looking statements are inherently subject to uncertainties, risks and changes in circumstances that are difficult to predict. Except as required by applicable law or regulation, we do not undertake (and expressly disclaim) any obligation and do not intend to publicly update or review any of these forward-looking statements, whether as a result of new information, future events or otherwise.

# FIS Use of Non-GAAP Financial Information

Generally Accepted Accounting Principles (GAAP) is the term used to refer to the standard framework of guidelines for financial accounting in the United States. GAAP includes the standards, conventions, and rules accountants follow in recording and summarizing transactions and in the preparation of financial statements. In addition to reporting financial results in accordance with GAAP, we have provided certain non-GAAP financial measures.

These non-GAAP measures include constant currency revenue, Adjusted revenue growth, Adjusted EBITDA, Adjusted EBITDA margin, Adjusted net earnings, Adjusted EPS, Free cash flow and Free cash flow excluding cash transaction taxes on the Worldpay sale.

Due to the financial impact of the acquisition of the Issuer Solutions Business, FIS is also providing additional information to improve the understanding of the Company's operating performance and has recalculated certain non-GAAP measures of the Company's historical financial performance on an adjusted combined company basis for the periods shown herein. This information includes Pro forma combined revenue, Pro forma combined revenue growth, Adjusted pro forma combined EBITDA and Adjusted pro forma combined EBITDA margin. The Company has derived certain pro forma measures from the unaudited pro forma condensed combined financial information of FIS and the Issuer Solutions Business and notes thereto prepared in accordance with Article 11 of Regulation S-X for the year ended December 31, 2025, in Exhibit 99.2 to the Company's Form 8-K/A filed on February 24, 2026.

We believe these non-GAAP measures help investors better understand the underlying fundamentals of our business. As further described below, the non-GAAP revenue and earnings measures presented eliminate items management believes are not indicative of FIS' operating performance. The constant currency revenue and Adjusted revenue growth measures adjust for the effects of exchange rate fluctuations and exclude discontinued operations, while Adjusted revenue growth also excludes revenue from Corporate and Other, giving investors further insight into our performance. Finally, Free cash flow and Free cash flow excluding cash transaction taxes on the Worldpay sale provide further information about the ability of our business to generate cash. For these reasons, management also uses these non-GAAP measures in its assessment and management of FIS' performance.

**Constant currency revenue** represents reported segment revenue excluding the impact of fluctuations in foreign currency exchange rates in the current period.

**Adjusted revenue growth** reflects the percentage change in constant currency revenue for the current period as compared to the prior period. Constant currency revenue is calculated by applying prior-year period foreign currency exchange rates to current-period revenue. When referring to Adjusted revenue growth, revenue from our Corporate and Other segment is excluded.

**Adjusted EBITDA** reflects net earnings (loss) before interest, other income (expense), taxes, equity method investment earnings (loss), and depreciation and amortization, and excludes certain costs that do not constitute normal, recurring, cash operating expenses necessary to operate our business. These excluded costs generally include acquisition, integration and certain other costs and asset impairments. Adjusted EBITDA for the respective segments excludes the foregoing items. This measure is reported to the chief operating decision maker, the Company's Chief Executive Officer and President, who utilizes the measure for purposes of making decisions about allocating resources to the segments and assessing their performance. For this reason, Adjusted EBITDA, as it relates to our segments, is presented in conformity with FASB ASC Topic 280, Segment Reporting.

**Adjusted EBITDA margin** reflects Adjusted EBITDA, as defined above, divided by revenue.

**Adjusted net earnings** excludes the effect of purchase price amortization, as well as certain costs that do not constitute normal, recurring, cash operating expenses necessary to operate our business. For purposes of calculating Adjusted net earnings, our equity method investment earnings (loss) ("EMI") from Worldpay is also adjusted to exclude certain costs and other transactions in a similar manner.

**Adjusted pro forma combined EBITDA** reflects net earnings (loss) before interest, other income (expense), taxes, equity method investment earnings (loss), and depreciation and amortization, and excludes certain costs that do not constitute normal, recurring, cash operating expenses for FIS and Total Issuing Solutions™ combined for pre-acquisition periods and assumes the Issuer Solutions acquisition occurred on January 1, 2025, unless otherwise indicated. These excluded costs generally include acquisition, integration and certain other costs and asset impairments.

**Adjusted pro forma combined EBITDA margin** reflects Adjusted pro forma combined EBITDA, as defined above, divided by Pro forma combined revenue.

**Adjusted EPS** reflects Adjusted net earnings, as defined above, divided by weighted average diluted shares outstanding.

**Free cash flow** reflects net cash provided by operating activities from continuing operations, less capital expenditures (additions to property and equipment and additions to software from the statement of cash flows).

**Free cash flow** excluding cash transaction taxes on the Worldpay sale reflects Free cash flow excluding cash transaction taxes on the Worldpay sale.

**Pro forma combined revenue** includes reported revenue for FIS and Total Issuing Solutions™ combined for pre-acquisition periods and assumes the Issuer Solutions acquisition occurred on January 1, 2025, unless otherwise indicated.

**Pro forma combined revenue growth** represents Pro forma combined revenue excluding the impact of fluctuations in foreign currency exchange rates in the current period as compared to the prior period Pro forma combined revenue. When referring to Pro forma combined revenue growth, revenue from our Corporate and Other segment is excluded.

Any non-GAAP measures should be considered in context with the GAAP financial presentation and should not be considered in isolation or as a substitute for GAAP measures. Further, FIS' non-GAAP measures may be calculated differently from similarly titled measures of other companies. Reconciliations of these non-GAAP measures to related GAAP measures, including footnotes describing the adjustments, are provided in the attached schedules and in the Investor Relations section of the FIS website, [www.investor.fisglobal.com](http://www.investor.fisglobal.com).

(1) As a result of the Company's acquisition of the Issuer Solutions Business, the Company reassessed its reportable segments in the first quarter of 2026 and incorporated the Issuer Solutions Business within the Banking Solutions segment. In connection with this reassessment, the Company also reclassified certain businesses among the Banking Solutions, Capital Market Solutions, and Corporate and Other segments. All prior-period segment information was recast to conform to the Company's revised reportable segment presentation.

(2) Adjusted growth excludes Corporate and Other, which includes certain non-strategic businesses.

Amounts in table may not sum or calculate due to rounding.

# Notes to Unaudited – Supplemental GAAP to Non-GAAP Reconciliations

- (1) This item represents purchase price amortization expense on all intangible assets acquired through various Company acquisitions, including customer relationships, contract value, technology assets, trademarks and trade names. The Company has excluded the impact of purchase price amortization expense as such amounts can be significantly impacted by the timing and/or size of acquisitions. Although the Company excludes these amounts from its non-GAAP expenses, the Company believes that it is important for investors to understand that such intangible assets contribute to revenue generation. Amortization of assets that relate to past acquisitions will recur in future periods until such assets have been fully amortized. Any future acquisitions may result in the amortization of future assets.
- (2) This item represents costs comprised of the table on slide 39.
- (3) For the six months ended June 30, 2026, this item included impairments primarily related to the abandonment or termination of certain internally developed software.
- (4) Non-operating (income) expense primarily consists of other income and expense items outside of the Company's operating activities, including fair value adjustments on certain non-operating assets and liabilities and foreign currency transaction remeasurement gains and losses. For the three and six months ended June 30, 2025, this item also includes a \$108 million write down, triggered by the agreement to sell FIS' non-controlling 45% stake in Worldpay, of the contingent consideration included as part of the 2024 sale of a 55% ownership interest in its Worldpay Merchant Solutions business (the "2024 Worldpay Sale").
- (5) This adjustment is based on an adjusted effective tax rate of 11.7% for the three and six months ended June 30, 2026, primarily reflecting certain cash tax benefits from our acquisition of the Issuer Solutions Business, and 12% for the three and six months ended June 30, 2025, primarily reflecting certain cash tax benefits from our equity method investment in Worldpay.
- (6) FIS completed the sale of its non-controlling 45% stake in Worldpay on January 9, 2026. For the six months ended June 30, 2026, this item reflects our share of the net earnings (loss), net of tax, attributable to Worldpay for the period from January 1 to January 8, 2026, and excludes the gain on sale, net of tax, which is recorded within Equity method investment earnings (loss), net of tax. For the three and six months ended June 30, 2025, this item reflects our share of net earnings (loss), net of tax, attributable to Worldpay.
- (7) This item represents FIS' proportionate share of Worldpay's non-GAAP adjustments on its net earnings (loss) consistent with FIS' non-GAAP measures and is comprised of the following on slide 39.
- (8) For the three and six months ended June 30, 2025, Adjusted net earnings is a gain, while the corresponding GAAP amount for this period is a loss. As a result, in calculating Adjusted net earnings per share-diluted for this period, the weighted average shares outstanding-diluted amount of approximately 527 million and 529 million used in the calculation includes approximately 2 million and 2 million shares for the three and six months ended June 30, 2025, respectively, that in accordance with GAAP are excluded from the calculation of the GAAP Net loss per share-diluted for the periods, due to their anti-dilutive impact.

(a) This item represents financing costs incurred primarily to secure funding for the Issuer Solutions Business acquisition from Global Payments. These costs are recorded as Interest expense, net on our consolidated statements of earnings (loss). Accordingly, this item is included in Acquisition, integration and other costs for purposes of calculating Adjusted net earnings but not Adjusted EBITDA.
