## **Update on Pending Strategic Transactions**

On April 17, 2025, FIS entered into definitive agreements to (i) buy the Issuer Solutions business from Global Payments Inc. (“Global Payments”) for an enterprise value of \$13.5 billion, inclusive of \$1.5 billion of anticipated net present value of tax assets, or a net purchase price of \$12.0 billion, subject to customary adjustments (the “Issuer Solutions Acquisition”) and (ii) sell its remaining equity interest in Worldpay to Global Payments for a pre-tax value of \$6.6 billion net of transaction fees and other costs (the “Worldpay Minority Interest Sale”).

FIS expects to fund the Issuer Solutions Acquisition through a combination of approximately \$8 billion of new debt and the after-tax proceeds from the Worldpay Minority Interest Sale. Following the closing of the transactions, the Company expects pro forma gross leverage to be approximately 3.4x, deleveraging to its target gross leverage of 2.8x within 18 months.

The transactions are expected to close simultaneously in the first half of 2026, subject to regulatory approvals and other customary closing conditions.

### **Financial Reporting Considerations for Completed 2024 Worldpay Sale**

On January 31, 2024, FIS sold a 55% stake in its Worldpay Merchant Solutions business to private equity funds managed by GTCR (the "2024 Worldpay Sale").

Unless otherwise noted, all results are presented on a continuing operations basis and exclude the results of the Worldpay Merchant Solutions business that was classified as discontinued operations as of the third quarter of 2023.

Following the close of the 2024 Worldpay Sale, FIS retained a non-controlling 45% equity interest in a new standalone joint venture, Worldpay Holdco, LLC ("Worldpay"), and records its proportionate share of Worldpay's earnings (loss) in the "Equity method investment earnings (loss), net of tax" ("EMI") line of the income statement.

### **FIS Use of Non-GAAP Financial Information**

Generally Accepted Accounting Principles (GAAP) is the term used to refer to the standard framework of guidelines for financial accounting in the United States. GAAP includes the standards, conventions, and rules accountants follow in recording and summarizing transactions and in the preparation of financial statements. In addition to reporting financial results in accordance with GAAP, we have provided certain non-GAAP financial measures.

These non-GAAP measures include constant currency revenue, Adjusted revenue growth, Adjusted EBITDA, Adjusted EBITDA margin, Adjusted net earnings, Adjusted EPS, and Adjusted free cash flow. These non-GAAP measures may be used in this release and/or in the attached supplemental financial information.

We believe these non-GAAP measures help investors better understand the underlying fundamentals of our business. As further described below, the non-GAAP revenue and earnings measures presented eliminate items management believes are not indicative of FIS' operating performance. The constant currency revenue and Adjusted revenue growth measures adjust for the effects of exchange rate fluctuations and exclude discontinued operations, while Adjusted revenue growth also excludes revenue from Corporate and Other, giving investors further insight into our performance. Finally, Adjusted free cash flow provides further information about the ability of our business to generate cash. For these reasons, management also uses these non-GAAP measures in its assessment and management of FIS' performance.

**Constant currency revenue** represents reported segment revenue excluding the impact of fluctuations in foreign currency exchange rates in the current period.

**Adjusted revenue growth** reflects the percentage change in constant currency revenue for the current period as compared to the prior period. Constant currency revenue is calculated by applying prior-year period foreign currency exchange rates to current-period revenue. When referring to Adjusted revenue growth, revenue from our Corporate and Other segment is excluded.

**Adjusted EBITDA** reflects net earnings (loss) before interest, other income (expense), taxes, equity method investment earnings (loss), and depreciation and amortization, and excludes certain costs that do not constitute normal, recurring, cash operating expenses necessary to operate our business. These excluded costs generally include purchase price amortization of acquired intangible assets, as well as acquisition, integration and certain other costs and asset impairments. These excluded costs are recorded in the Corporate and Other segment. Adjusted EBITDA for the respective segments excludes the foregoing items. This measure is reported to the chief operating decision maker, the Company's Chief Executive Officer and President, who utilizes the measure for purposes of making decisions about allocating resources to the segments and assessing their performance. For this reason, Adjusted EBITDA, as it relates to our segments, is presented in conformity with FASB ASC Topic 280, *Segment Reporting*.

**Adjusted EBITDA margin** reflects Adjusted EBITDA, as defined above, divided by revenue.

**Adjusted net earnings** excludes the effect of purchase price amortization, as well as certain costs that do not constitute normal, recurring, cash operating expenses necessary to operate our business. For purposes of calculating Adjusted net earnings, our equity method investment earnings (loss) ("EMI") from Worldpay is also adjusted to exclude certain costs and other transactions in a similar manner.

**Adjusted EPS** reflects Adjusted net earnings, as defined above, divided by weighted average diluted shares outstanding.

**Adjusted free cash flow** reflects net cash provided by operating activities, adjusted for the net change in settlement assets and obligations and excluding certain transactions that are closely associated with non-operating activities or are otherwise non-operational in nature and not indicative of future operating cash flows, less capital expenditures. Adjusted free cash flow does not represent our residual cash flow available for discretionary expenditures since we have mandatory debt service requirements and other non-discretionary expenditures that are not deducted from the measure. Adjusted free cash flow as presented in this earnings release excludes cash flow from discontinued operations, which our management cannot freely access following the Worldpay separation.

Any non-GAAP measures should be considered in context with the GAAP financial presentation and should not be considered in isolation or as a substitute for GAAP measures. Further, FIS' non-GAAP measures may be calculated differently from similarly titled measures of other companies. Reconciliations of these non-GAAP measures to related GAAP measures, including footnotes describing the adjustments, are provided in the attached schedules and in the Investor Relations section of the FIS website, [www.fisglobal.com](http://www.fisglobal.com).

### **Forward-Looking Statements**

- competitive pressures on pricing related to the decreasing number of community banks in the U.S., the development of new disruptive technologies competing with one or more of our solutions, increasing presence of international competitors in the U.S. market and the entry into the market by global banks and global companies with respect to certain competitive solutions, each of which may have the impact of unbundling individual solutions from a comprehensive suite of solutions we provide to many of our customers;

	Three months ended

Adjusted free cash flow reflects adjusted cash flows from operations less capital expenditures (additions to property and equipment and additions to software from the statement of cash flows). Adjusted free cash flow does not represent our residual cash flows available for discretionary expenditures, since we have mandatory debt service requirements and other non-discretionary expenditures that are not deducted from the measure. Adjusted free cash flow as presented in this earnings release excludes cash flows from discontinued operations.

- (1) Adjusted free cash flows from operations and free cash flow for the three months ended March 31, 2025 and 2024, exclude cash payments for certain acquisition, integration and other costs (see Note 2 to Exhibit G), net of related tax impact. The related tax impact totaled \$18 million and \$18 million for the three months ended March 31, 2025 and 2024, respectively.

(In millions, except per share amounts)

**Exhibit G (continued)**

**Notes to Unaudited - Supplemental GAAP to Non-GAAP Reconciliations for the three months ended March 31, 2025 and 2024.**

(1) This item represents purchase price amortization expense on all intangible assets acquired through various Company acquisitions, including customer relationships, contract value, technology assets, trademarks and trade names. The Company has excluded the impact of purchase price amortization expense as such amounts can be significantly impacted by the timing and/or size of acquisitions. Although the Company excludes these amounts from its non-GAAP expenses, the Company believes that it is important for investors to understand that such intangible assets contribute to revenue generation. Amortization of assets that relate to past acquisitions will recur in future periods until such assets have been fully amortized. Any future acquisitions may result in the amortization of future assets.

(2) This item represents costs comprised of the following:

	Three months ended March 31,	
	2025	2024
<b>Continuing operations:</b>		
Acquisition and integration	\$ 8	\$ 24
Enterprise transformation, including Future Forward and platform modernization	46	73
Severance and other termination expenses	59	18
Separation of the Worldpay Merchant Solutions business	21	30
Incremental stock compensation directly attributable to specific programs	10	11
Other, including divestiture-related expenses and enterprise cost control and other initiatives	9	2
Total from continuing operations	\$ 153	\$ 158
<b>Discontinued operations:</b>		
Acquisition and integration	\$ —	\$ —
Enterprise transformation, including Future Forward and platform modernization	—	1
Severance and other termination expenses	—	1
Separation of the Worldpay Merchant Solutions business	—	8
Other, including divestiture-related expenses and enterprise cost control and other initiatives	—	3
Total from discontinued operations	—	13
Total consolidated	\$ 153	\$ 171

Amounts in table may not sum due to rounding.

- (3) For the three months ended March 31, 2024, this item includes impairments primarily related to the termination of certain internally developed software projects.
- (4) This item represents costs that were incurred in support of the Worldpay Merchant Solutions business prior to the separation but are not directly attributable to it and thus were not recorded in discontinued operations. The Company is being reimbursed for these expenses as part of Transition Services Agreements with the buyer and/or eliminated them post separation; therefore, the expenses have been adjusted out of continuing operations and added to discontinued operations.
- (5) Non-operating (income) expense primarily consists of other income and expense items outside of the Company's operating activities, including fair value adjustments on certain non-operating assets and liabilities and foreign currency transaction remeasurement gains and losses. For the three months ended March 31, 2024, earnings from continuing operations also includes loss on extinguishment of debt of approximately \$174 million relating to tender

**FIDELITY NATIONAL INFORMATION SERVICES, INC.**

(In millions, except per share amounts)

discounts and fees; the write-off of unamortized bond discounts, debt issuance costs and fair value basis adjustments; and gains on related derivative instruments.

- (6) This adjustment is based on an adjusted effective tax rate of 12.0% and 14.5% for the periods ended March 31, 2025 and 2024, respectively, which reflects adjustments to our GAAP effective tax rate to take into account primarily certain cash tax benefits from our equity method investment in Worldpay. For the three months ended March 31, 2024, the Company recorded a tax benefit of \$991 million in its earnings from discontinued operations primarily from the write-off of U.S. deferred tax liabilities that were not transferred in the 2024 Worldpay Sale, net of the estimated U.S. tax cost that the Company expects to incur as a result of the 2024 Worldpay Sale. This adjustment includes the removal of the impact of this tax benefit from our earnings from discontinued operations for this period.
- (7) FIS completed the separation of Worldpay on January 31, 2024, retaining a non-controlling 45% ownership interest that is recorded under the equity method of accounting. FIS' share of Worldpay's results under the equity method of accounting reflects activity beginning on February 1, 2024.
- (8) This item represents FIS' proportionate share of Worldpay's non-GAAP adjustments on its earnings (loss) consistent with FIS' non-GAAP measures and is comprised of the following:

	Three months ended March 31, 2025	Two months ended March 31, 2024
FIS' share of Worldpay:		
Purchase accounting amortization	\$ 158	\$ 135
Acquisition, integration and other costs (a)	49	85
Non-operating (income) expense	11	(8)
Non-GAAP tax (provision) benefit	(23)	(34)
Non-GAAP adjustments on equity method investment earnings (loss), net of related (provision) benefit for income taxes	<u>\$ 195</u>	<u>\$ 178</u>

Amounts in table may not sum due to rounding.

- (a) Worldpay acquisition, integration, and other costs for the three months ended March 31, 2025 and 2024, consist primarily of transaction and transition costs related to the separation from FIS.
- (9) The Company stopped recording depreciation and amortization on the long-lived assets classified as held for sale beginning July 5, 2023. The amount of depreciation and amortization that would have been recorded in discontinued operations had these assets not been classified as held for sale has been deducted from adjusted net earnings for comparability purposes.
- (10) During the three months ended March 31, 2024, an initial loss on sale of disposal group of \$466 million was recorded upon closing of the 2024 Worldpay Sale to reflect the impact of the excess of the carrying value of the disposal group over the estimated fair value less cost to sell.
